## Conclusions of Safe Schools Assessment

### Areas of Pride and Strength: (Component 1&2)

Virginia Peterson staff members are extremely proud of many aspects of the school including the following: PBIS, Academic Intervention Program; Student Council; active Parent Teacher Association (PTA), English Language Advisory Committee, and School Site Council; our fabulous Panda Garden. Virginia Peterson is also proud of its highly trained staff that is committed to student achievement, citizenship, and positive self-esteem. Results from the CA School staff survey show that our staff believes that Virginia Peterson is a supportive and inviting place for students to learn and that there are high standards set for academic performance for all students. Staff also indicated that our school is a place where students have caring relationships with adults and that staff believes that every student can be a success.

School Discipline data showed a decrease in ODRs overall from the year before, and more students earned PRIDE bands and VIP badges. The results of our Family and Community Engagement survey from January 2019 demonstrated that parents feel welcome at Virginia Peterson and find all of the staff accepting, friendly, and positive. Families feel that their children are well-trained to handle emergency situations; that students have a positive attitude about school; that someone is available for parents to talk to; and that information is coming home in a timely fashion and in both English and Spanish.

### Areas to Change: (Component 1&2)

It was apparent from the CA Healthy Kids Survey (2020), CA School Staff Survey and School Safety and Parent Involvement Survey that concerns are focused on increasing parental involvement .

### Analysis of how the data, needs, and perceptions about the school's safety determined the goals: (EC 35294.2(a)(1))

The school principal, school office staff, and School Site Council work to collect information from staff and the community regarding school safety, student intervention needs, and school perception. Information is shared with and solicited from various groups including teachers, classified staff, PTA, ELAC, Academic and Culture/Climate Leadership teams regarding these issues. Information from these groups is incorporated into the Single Plan for Student Achievement, the Comprehensive School Safety Plan, and the Title I Compact.

### Generalized statement of goals for 2019-20 (EC 35294.2(a)(2)(H))

Increase shared responsibility and leadership with teachers and students for creating and maintaining school and classroom environments that (1) promote trust, risk taking and conflict resolution and (2) model fairness, equity and respect as measured by responses on CA Healthy Kids and CA School Staff surveys, as well as discipline and PBIS implementation data.

The principal/teacher shall keep this information in confidence and must not further disseminate. Paso Robles Joint Unified School District Board Policy 4158, 4258, 4358

The Governing Board desires to provide a safe and orderly work environment for all employees. As part of the district's comprehensive safety plan, the Superintendent or designee shall develop strategies for protecting employees from potentially dangerous persons and situations and for providing them with necessary assistance and support when emergency situations occur.

Any employee against whom violence or any threat of violence has been directed in the workplace shall notify the Superintendent or designee immediately. The Superintendent or designee shall initiate legal and security measures to protect the employee and others in the workplace. In addition, the Superintendent or designee may initiate legal proceedings against any individual to recover damages for injury caused by the willful misconduct of that individual to the person or property of an employee or another person on district premises.

The Superintendent or designee shall ensure that employees are trained in crisis prevention and intervention techniques in order to protect themselves and students. Staff development may include training in classroom management, effective communication techniques, and crisis resolution.

The Superintendent or designee also shall ensure that employees are informed, in accordance with law, of crimes and offenses committed by students who may pose a danger in the classroom.

### **(C) District Rules and Procedures on School Discipline**

The Governing Board desires to prepare students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, effective classroom management, and parent involvement can minimize the need for discipline. Staff shall use preventative measures and positive conflict resolution techniques whenever possible. In addition, discipline shall be used in a manner that corrects student behavior without intentionally creating an adverse effect on student learning or health. Board policies and administrative regulations shall outline acceptable student conduct and provide the basis for sound disciplinary practices. The district has developed a Discipline Matrix to be used by all of our schools.

At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline. When misconduct occurs, staff shall attempt to identify the causes of the student's behavior and implement appropriate discipline. Persistently disruptive students may be assigned to alternative programs or removed from school in accordance with law, Board policy, and administrative regulation.

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies. The Superintendent or designee shall provide professional development as necessary to assist staff in developing consistent classroom management skills, implementing effective disciplinary techniques, and establishing cooperative relationships with parents/guardians.

### **(D) Virginia Peterson Elementary – Disciplinary Procedures**

From time to time, some children have difficulty following school rules. When this happens, we will ask the child to follow certain problem-solving steps to help alleviate the problem in the future. Students are asked to complete a reflection sheet to consider the problem, how they handled it and how it made others feel, how they could have handled it differently and how that would have made others feel. If there is a problem between two students, the students may be brought together to follow a conflict resolution process. This process includes very specific steps to help students solve the problem together in a way that is fair for everyone. In this way, we regard "discipline" to be a problem-solving situation, and therefore, a learning experience. Not every situation warrants a phone call home, but we will call parents when it is necessary for you to know what happened. Our intent is to create a caring community where everyone feels free to learn.

#### **Steps To Problem Solving:**

STEP 1: Identify the problem. What happened? What did the student do that got him/her in this situation?

STEP 2: Identify what can happen as a result of the behavior

STEP 3: Find a way to "make it right" or make restitution for any harm caused.

STEP 4: Choose a solution that is fair to everyone or identify a change in behavior for the future.

#### **Discipline Referrals:**

A Discipline Referral or ODR may be used to document inappropriate behavior that stops instruction that is either teacher managed or office managed. Staff will notify parents of behavior problems that are more severe or persistent. For severe or very persistent behaviors, a student may be suspended. Parents will always be notified immediately of this action.

### **(E) Bully Prevention**

#### **District Policy**

Every student is entitled to a safe school environment free from bullying. The District's Policy on Bullying (Administrative Regulation 5131.2) can be accessed on the District's website at [www.pasoschools.org](http://www.pasoschools.org). Copies of the policy are also available at the school office.

- The District prohibits bullying. This includes, but is not limited to, discrimination, harassment, intimidation and bullying based on the actual or perceived characteristics set forth in Penal Code §422.55 and Education Code §220, and disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or association with a person or group with one or more of these actual or perceived characteristics. Bullying is defined in Education Code §48900 (r).
- Students who violate the District's policies on bullying may be subject to admonishment, participation in a guided reflection process designed to teach alternative behavior, temporary removal from the classroom, loss of privileges, classroom or administrative detention, referral, in-school suspension during the school week or the weekend, for students, out-of-school suspension, legal action, and/or expulsion or termination.
- School personnel must immediately intervene if they witness or become aware of bullying, provided it is safe to do so.
- Acts of bullying should be brought to the attention of the principal or the principal's designee.
- Reports may be made anonymously, but formal disciplinary action may not be based solely on an anonymous report.
- An allegation of bullying and the results of the investigation shall be kept confidential to the extent reasonably possible.
- The complainants are protected from retaliation and the identity of a complainant alleging bullying remains confidential to the extent reasonably possible.

#### **Virginia Peterson Elementary**

Positive Behavior Interventions & Support (PBIS) : A primary goal of Paso Schools is that all students have access to the most effective instructional and behavioral best practices and interventions. Research indicates that by using proactive and preventative approaches to address the underlying cause of behavior, student engagement and achievement have positive correlation. Positive Behavior Interventions & Supports (PBIS) is a decision making framework that guides selection, integration, and implementation of evidence-based practices for improving important academic and behavior outcomes for all students. PBIS is a preventative approach to working with all students and offers supportive interventions for those students demonstrating behavior difficulties. The framework follows a tiered model to provide specified levels of intervention based upon the collection and analysis of data. Each school has a PBIS team composed of multi-disciplinary members who receive specialized training under the guidance of the District PBIS Coordinator. All schools will have a key set of behavioral expectations, reinforcement and opportunities to teach behavior in the same way that we teach academics.

Olweus Bullying Prevention Program – designed to improve peer relations and make schools safer, more positive places for students to learn and develop. Program Goals are focused on reducing existing bullying problems among students, preventing the development of new bullying problems, and achieving better peer relations at school. Statistics show how successful implementation of the Olweus Bullying Prevention Program can reduce school bullying. Outcomes have included:

- Fifty percent or more reductions in student reports of being bullied and bullying others. Peer and teacher ratings of bullying problems have yielded similar results.
- Significant reductions in student reports of general antisocial behavior such as school bullying, vandalism, school violence, fighting, theft, and truancy.
- Significant improvements in the classroom social climate as reflected in students' reports of improved order and discipline, more positive social relationships, and more positive attitudes toward schoolwork and school.
- Greater support for students who are bullied and stronger, more effective interventions for students who bully.

## Prevent Flu in Schools How to Protect Students and Teachers

### Follow these simple steps:

- Encourage teachers and staff to wash their hands using soap and water before eating and after using the toilet. If soap and water are not available, use an alcohol-based hand rub. Keep alcohol-based rub out of reach of children.
- Encourage students to wash their hands before eating and after using the toilet.
- Teach students to wash their hands for 15 to 20 seconds, long enough to sing "Happy Birthday" twice.
- Ensure that sink locations and restrooms are stocked with soap and paper towels or working hand dryer.
- Encourage students, staff and teachers to use paper towel to open restroom doors after washing their hands. Place a garbage can inside each restroom close to the entrance to facilitate ease of paper towel disposal.
- Clean frequently touched surfaces and shared items daily using an Environmental Protection Agency (EPA)-registered disinfectant labeled for activity against bacteria and viruses, an EPA-registered hospital disinfectant, or EPA-registered chlorine bleach/hypochlorite solution. Follow instruction labels for use. Keep disinfectants out of reach of children.
- Encourage parents of sick students to keep their children home to prevent the spread of disease at school.
- Encourage sick staff and teachers to stay home. Establish non-punitive sick leave policies during a pandemic.
- Encourage staff and teachers to cover their coughs and sneezes using tissue or shirt sleeves, not their hands.
- Teach students to cover their coughs and sneezes and have teachers encourage this behavior in classrooms.
- Educate parents about respiratory etiquette and hand washing at home and their importance in disease prevention. Encourage parents to model the desired behavior for their children.

### Staff “Buddy” List

When necessary, a “buddy” or buddy group will take charge of the students of other classes.

Following the incident and a classroom status check; buddy teachers check with each other to determine: the health of each other, the need to assist with injuries, the need to stay with injured students, etc. Remember: the teacher’s responsibility is to do the greatest good for the greatest number. Students should practice exiting to the evacuation site without the teacher leading them. Teacher should stay back to check the classroom and close the door. (If buddy is not available, give class to another teacher who is remaining on the field and tell Command and Parent Emergency Pick Up who has your class).

- When student misconduct is revealed as a result of a school bus videotape or reported to the Superintendent or designee by a student, staff member or parent/guardian, students involved in the incident and their parents/guardians may ask the Superintendent or designee for an opportunity to view the videotape.

Students found to be in violation of the district's bus conduct rules shall be subject to discipline in accordance with district policy and regulations.

At the discretion of the Superintendent or designee, school bus video recordings also may be used to resolve complaints by students and/or parents/guardians and to help employees maintain discipline.

#### Reporting Process and Complaint Investigation and Resolution

Any student who believes that he/she has been subjected to sexual harassment or who has witnessed sexual harassment is strongly encouraged to report the incident to his/her teacher, the principal, or any other available school employee. Within one school day of receiving such a report, the school employee shall forward the report to the principal or the district's compliance officer identified in AR 1312.3. In addition, any school employee who observes an incident of sexual harassment involving a student shall, within one school day, report his/her observation to the principal or a district compliance officer. The employee shall take these actions, whether or not the alleged victim files a complaint.

In any case of sexual harassment involving the principal, compliance officer, or any other person to whom the incident would ordinarily be reported or filed, the report may instead be submitted to the Superintendent or designee.

When a report of sexual harassment is submitted, the principal or compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with the district's uniform complaint procedures.

If a complaint of sexual harassment is initially submitted to the principal, he/she shall, within two school days, forward the report to the compliance officer to initiate investigation of the complaint. The compliance officer shall contact the complainant and investigate and resolve the complaint in accordance with law and district procedures specified in AR 1312.3.

#### Confidentiality

All complaints and allegations of sexual harassment shall be kept confidential except as necessary to carry out the investigation or take other subsequent necessary action. (5 CCR 4964)

However, when a complainant or victim of sexual harassment notifies the district of the harassment but requests

confidentiality, the compliance officer shall inform him/her that the request may limit the district's ability to investigate the harassment or take other necessary action. When honoring a request for confidentiality, the district will nevertheless take all reasonable steps to investigate and respond to the complaint consistent with the request.

When a complainant or victim of sexual harassment notifies the district of the harassment but requests that the district not pursue an investigation, the district will determine whether or not it can honor such a request while still providing a safe and nondiscriminatory environment for all students.

#### Response Pending Investigation

When an incident of sexual harassment is reported, the principal or designee, in consultation with the compliance officer, shall determine whether interim measures are necessary pending the results of the investigation. The principal/designee or compliance officer shall take immediate measures necessary to stop the harassment and protect students and/or ensure their access to the educational program. Such measures may include placing the individuals involved in separate classes or transferring a student to a class taught by a different teacher, in accordance with law and Board policy. The school should notify the individual who was harassed of his/her options to avoid contact with the alleged harasser and allow the complainant to change academic and extracurricular arrangements as appropriate. The school should also ensure that the complainant is aware of the resources and assistance, such as counseling, that are available to him/her. As appropriate, such actions shall be considered even when a student chooses to not file a formal complaint or the sexual harassment occurs off school grounds or outside school-sponsored or school-related programs or activities.

3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved

### **28. Suspensions and Expulsion/Due Process – BP 5144.1**

The Governing Board desires to provide district students access to educational opportunities in an orderly school environment that protects their safety and security, ensures their welfare and well-being, and promotes their learning and development. The Board shall develop rules and regulations setting the standards of behavior expected of district students and the disciplinary processes and procedures for addressing violations of those standards, including suspension and/or expulsion.

To correct the behavior of any student who is subject to discipline, the Superintendent or designee shall, to the extent allowed by law, first use alternative disciplinary strategies specified in AR 5144 - Discipline. (Education Code 48900.5)

Alternatives to suspension or expulsion also shall be used with students who are truant, tardy, or otherwise absent from assigned school activities.

Except for single acts of a grave nature or offenses for which suspension or expulsion is required by law, suspension or expulsion shall be used only when other means of correction have failed to bring about proper conduct or the student's presence causes a continuing danger to himself/herself or others.

The grounds for suspension and expulsion and the procedures for considering, recommending, and/or implementing suspension and expulsion shall be those specified in law and administrative regulation.

District staff shall enforce the rules concerning suspension and expulsion of students fairly, consistently, and in accordance with the district's nondiscrimination policies.

### Due Process

The Board shall provide for the fair and equitable treatment of students facing suspension and expulsion by affording them their due process rights under the law. The Superintendent or designee shall comply with procedures for notices, hearings, and appeals as specified in law and administrative regulation. (Education Code 48911, 48915, 48915.5)

### Removal from Class by a Teacher and Parental Attendance

When suspending a student from class for committing an obscene act, engaging in habitual profanity or vulgarity, disrupting school activities, or otherwise willfully defying valid staff authority, the teacher of the class may require any parent/guardian who lives with the student to attend a portion of the school day in the class from which the student is being suspended, to assist in resolving the classroom behavior problems. (Education Code 48900.1)

Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the teacher and the student and his/her parents/guardians and to improve the student's behavior.

Any teacher requiring parental attendance pursuant to this policy shall apply the policy uniformly to all students within the classroom. (Education Code 48900.1)

When a teacher requires parental attendance, the principal shall send a written notice to the parent/guardian stating that his/her attendance is required pursuant to law. (Education Code 48900.1)

A parent/guardian who has received a written notice shall attend class as specified in the notice. After completing the classroom visit and before leaving school premises, the parent/guardian also shall meet with the principal or designee. (Education Code 48900.1)

At the meeting with the student's parent/guardian, the principal or designee shall explain the district's and school's discipline policies, including the disciplinary strategies that may be used to achieve proper student conduct.

When a parent/guardian does not respond to the request to attend school, the principal or designee shall contact him/her by telephone, mail, or other method that maintains the confidentiality of the student's records.

District regulations and school-site rules for student discipline shall include procedures for implementing parental attendance requirements. Parents/guardians shall be notified of this policy prior to its implementation. (Education Code 48900.1)

### Supervised Suspension Classroom "Alternative Academic Setting"

To ensure the proper supervision and ongoing learning of students who are suspended for any of the reasons enumerated in Education Code 48900 and 48900.2, but who pose no imminent danger or threat to anyone at school and for whom expulsion proceedings have not been initiated, the Superintendent or designee shall establish a supervised suspension classroom program which meets the requirements of law.

Except where a supervised suspension is permitted by law for a student's first offense, supervised suspension shall be imposed only when other means of correction have failed to bring about proper conduct. (Education Code 48900.5)

### Decision Not to Enforce Expulsion Order

On a case-by-case basis, the enforcement of an expulsion order may be suspended by the Board pursuant to the requirements of law and administrative regulations. (Education Code 48917)

## Monitoring the Use of Suspension and Expulsion

At the end of each school year, the Superintendent or designee shall present a report to the Board regarding the use of suspension and/or expulsion in district schools. The report shall include, but is not limited to, outcome data which the district is required by law to collect and data related to the effect of suspension and/or expulsion on the district's minority student populations or groupings.

### ***Safety Concern Area #1 - At the Bus Stop (Loading/Unloading)***

The driver of a school bus shall operate warning lights and signs at all school bus stops and at all times when the school bus is stopped for the purpose of loading and unloading pupils.

**This policy shall apply pursuant to Vehicle Code 22112,** for the purposes of loading and unloading pupils:

#### **Loading**

Be on time to your designated bus stop. Start well ahead of time, rather than hurrying and running... walk safely. Never run to or from the bus. A good habit is to arrive to your bus stop 5 minutes before the bus is due to arrive, but not too early! If you are riding a different route or using a different stop than your registered designated stop, bring a permission note from your parent.

Wait for the bus in a safe place, clear of traffic and away from where the bus stops. Avoid horseplay and respect the privacy and property of others while waiting for the bus. Form orderly lines facing the direction from which the bus will approach the stop.

Don't move toward the bus until it is completely stopped and the door is opened. The driver must stop the bus a minimum of 10' away from the first student... So, be safe, stay back and wait for your signal that the driver is ready for you to board... The door is opened.

Enter the bus in an orderly manner, use the handrail, and go directly to an available or assigned seat.

Never chase a bus after it has pulled away from the bus stop. Even with multiple large mirrors and intensive safety training, a driver may not see a small child who is very near the body of the bus.

If you are late as the bus arrives and must cross the street to the bus stop... Wait!! Do not run across!! The "Flashing Red Lights and Stop Arm" must be activated! Your driver will secure the bus, check traffic, turn lights/arm, come out with the stop sign and tell you when it is safe to cross in front of the bus to board.

## **Unloading**

Remain seated until the bus is completely stopped and the door is opened.

Exit the bus in an orderly manner... No jumping or skipping steps... Use the handrail.

Alternate seats when leaving. Exit first seat first (those in back should not immediately stand until the seat in front of them empties!).

Move completely away from the bus and out of the danger zone.

Never touch or grab the bus. Never crawl or reach under the bus (to retrieve an object you've dropped)... Ask the driver for help!

The law mandates that all pupils at or below the 8th grade must be escorted by the driver who shall carry a hand-held stop sign, under the protection of flashing red lights and stop signal arm (if equipped) at any stops requiring students to cross the roadway upon which the bus is stopped. PASO ROBLES SCHOOLS go one safety step further: all of our school buses have been fitted with "stop signal arms" and drivers escort pre-kindergarten thru 12th grade.

For Safety and Expediency:

- Crossers should rise and come to the front of the bus first.
- Wait for the driver to tell you to cross.
- Walk promptly, straight across the street, between the driver and front of the bus.

## ***SAFETY CONCERN AREA #2 - Inside the Bus (Safety, Order, Rights of Others)***

School bus rider rules fall into 3 main categories:

- The first is related to those behaviors that could compromise the safety of others.
- The second focuses on those behaviors that interfere with timely and orderly service.
- The third aims at those behaviors that interfere with the rights of others.

Always listen to and cooperate with your bus driver, who is in charge at all times. Learn and obey the standard School Bus Rules that are posted inside the bus. Parents: You can be very helpful by supporting your child's bus driver and backing up his/her authority.

Take your seat, face forward, feet on the floor, and remain seated at all times when your bus is in motion. The school bus has automatic passive protection built into it (compartmentalization which is most effective when students remain seated properly).

Keep your head, arms and feet inside the bus at all times. Do not throw or pass objects to someone outside the bus.

Be courteous to your school bus driver and fellow passengers. Be respectful of the rights of everyone on the bus by not using profanity, talking quietly with fellow students on appropriate topics, and keeping your hands to yourself.

Never throw things in the bus. Balls, etc. will not be allowed on the bus without being in a backpack or bag. If wearing a cap or hat, keep it on your head or put away in your bag. Take litter with you as you get off the bus.

Remain silent at all railroad grade crossings.

Do not allow large objects to block the aisle or emergency exits. Examples are musical instruments and athletic equipment.

Learn emergency exits and drill procedures. Be a responsible bus rider! And remember... Bus riding is a privilege!

## ***SAFETY CONCERN AREA #3 - Outside the bus (The Danger Zone)***

Most injuries and deaths involving school buses occur outside the bus. Even though there are mirrors, sometimes the

driver can't see people close to the bus.

Children that don't move completely away from the bus could have their jacket or backpack snagged on the bus. They could be pushed down by the front part of the bus and then crushed by the rear tires. Students should never, never reach under the bus to get something they have dropped!! Always get help from the driver.

Never touch parts of the bus exterior, or try to ride the bumper, or race the bus! You could lose your footing, fall and be run over by the bus.

#### ***SAFETY CONCERN AREA #4 - Emergency Situations (Be Prepared)***

**This policy shall apply pursuant to Education Code 398315.5, Section (a):**

A school bus is actually safer to ride in than a family car -- but accidents can still happen. If there's an accident:

- Stop talking.
- Stay calm and listen for your driver's instructions.
- Don't touch emergency equipment unless told to do so.

The driver may tell you to evacuate if

- There's a fire (or the danger of one).
- The bus is in an unsafe position - such as on the edge of a cliff, or in the middle of heavy traffic or a railroad grade crossing.

If you have to evacuate:

- Don't crowd the aisle.
- Keep going toward the exit - don't stop to watch what your friends are doing. - Wrap any loose clothing around you so you won't get caught on the handrail, door or other parts of the bus.
- Keep your hands free - leave belongings behind.
- Duck your head and bend your knees if you have to jump from an exit.

During practice drills, your driver will show you where to find the first-aid kit and fire extinguisher, and how to use them. You will also be shown how to open emergency exits, set the emergency parking brake and make an emergency call on the two-way radio. If your driver is ever injured in an accident, he or she might need your help! TAKE EVACUATION DRILLS SERIOUSLY!
