5. What do you see as the basic purpose of the public schools?

I would hope we could go beyond basics. Students should learn to read, write and develop communications skills as well as fundamental mathematics. But there is much more, such as preparation for trades, college and university. We should not neglect the arts. Students lives will be richer and better prepared with exposure to music, drama etc.

6. What is the role of the school board in the fulfillment of that purpose?

The role is to give the Superintendent guidance, support and accountability. Also to be a source of input from parents and the community. An additional role is fiscal responsibility with close monitoring of the budget and expenditures.

7. What should be the relationship between the board members and the administration in the handling of school concerns?

Involvement and communication regarding matter of concern. I would hope the relationship would be reasonable amicable and cooperative to move toward the Guiding Principles clearly stated on the District's web-site.

8. What is the single most critical issue facing the District in the immediate future and how would your background and experiences help the District to meet this challenge?

You have asked for the single critical issue. There are several critical issues but I would select this as the most critical issue. Fiscal reality and adequate financial planning for the future. As a business manager I believe I could provide fiscal insight to staff and board.

9. What do you see as the strengths of PRJUSD?

Paso Robles Joint Unified School District GUIDING PRINCIPLES are impressive and laudable. I see those principles and objective as a great strengths. It tells me the vision is strong, but it would take additional familiarization for me to see how well the District is fulfilling those GUIDING PRINCIPLES.
