2015-2016 School Accountability Report Card

I. DATA AND ACCESS

SARC Data

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. Under the new Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

Additional Information

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- View this SARC online at the school and/or LEA Web sites.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

II. ABOUT THIS SCHOOL

School Description and Mission Statement (Most Recent Year)

The mission of San Rafael High School is for each student to acquire college and career-ready skills and knowledge, and to contribute to society while recognizing the dignity and worth of each individual.

San Rafael High School is located 18 miles north of San Francisco in Marin County's oldest city and its county seat. Established in 1888, San Rafael High has been in its current location since 1924, where its campus occupies 33 acres east of downtown San Rafael. The school serves the most economically, ethnically, and culturally diverse population in Marin. The majority of students enter San Rafael from Davidson Middle School, the largest sixth through eighth-grade middle school in San Rafael. The school also receives students from Venetia Valley K-8 School and local private schools.

San Rafael is committed to providing a rigorous and relevant curriculum for all students, allowing and encouraging them to achieve the goal of college and career readiness. We offer a wide range of rigorous courses from AP/Honors and college prep classes in all academic disciplines, and an English Learner Program. The school continues innovation efforts to meet student learning needs and future goals. This includes our three interdisciplinary academies: Media Academy Experience (MAX), a junior/senior English, social studies, and technology program; Applied Physics and Technology Academy, a sophomore/junior/senior applied physics and applied arts/technology program; and Banyan, a two-year program blending ninth and tenth grades that includes English, social studies, and health. Students master the content and skills of these core disciplines and complete three to four collaborative interdisciplinary projects each year. The Applied Physics and Technology Academy was recognized as a model program for the State of California, bringing both California Department of Education (CDE) representatives and educators from other schools throughout the state to view and learn more about this exciting opportunity for students. Our AVID program and college access partnerships prepare and advise students for entry into two- and four-year colleges and universities.

II. ABOUT THIS SCHOOL

Student Enrollment by Group (School Year 2015-2016)

This table displays the percent of students enrolled at the school who are identified as being in a particular group.

Group	Percent of Total Enrollment	Group	Percent of Total Enrollment
Black or African American	1%	Two or More Races	0.4%
American Indian or Alaska Native	0.1%	Other	0%
Asian	4.5%	Socioeconomically Disadvantaged	61.4%
Filipino	0.2%	English Learners	20.8%
Hispanic or Latino	64.2%	Students with Disabilities	8.4%
Native Hawaiian or Pacific Islander	0.2%	Foster Youth	0.4%
White	29.4%		

III. CONDITIONS OF LEARNING

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Teacher Credentials (Three-Year Comparison)

This table displays the number of teachers assigned to the school with a full credential, without a full credential, and those teaching outside of their subject area of competence.

Teachers	School			District
	2014-2015	2015-2016	2016-2017	2016-2017
With Full Credential	64	66	76	142
Without Full Credential	0	0	0	0
Teaching Outside Subject Area of Competence (with full credential)	0	0	0	0

Teacher Misassignments and Vacant Teacher Positions (Three-Year Comparison)

A “teacher misassignment” refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc. A “vacant teacher position” is one in which a single designated teacher has not been assigned to teach an entire course at the beginning of the school year or semester. This table displays the number of teacher misassignments and vacant teacher positions for the most current three-year period. Note: *Total Teacher Misassignments* includes the number of *Misassignments of Teachers of English Learners*.

Indicator	2014-2015	2015-2016	2016-2017
Misassignments of Teachers of English Learners	0	0	0
Total Teacher Misassignments	0	0	0
Vacant Teacher Positions	0	0	0

III. CONDITIONS OF LEARNING

Core Academic Classes Taught by Highly Qualified Teachers (School Year 2015-2016)

The Federal Elementary and Secondary Education Act (ESEA) of 2005-2006 requires that core academic subjects be taught by Highly Qualified Teachers (HQT), defined as having at least a bachelor’s degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. This table displays the percent of classes in core academic subjects taught by and not taught by Highly Qualified Teachers in the school, in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. High-poverty schools are defined as those with student eligibility of approximately 40% or more in the free and reduced price meals program. Low-poverty schools are those with student eligibility of approximately 39% or less in the free and reduced price meals program. For more information, see the *Improving Teacher and Principal Quality* Web page at <http://www.cde.ca.gov/nclb/sr/tq>.

Quality and Currency of Textbooks and Instructional Materials (Most Recent Year)

Curriculum development is a district-wide effort. Teachers and administrators from all subject areas form working committees to draft recommendations on courses of study, appropriate textbooks, and other instructional materials.

The California Department of Education has determined textbook selection and adoption schedules. The district follows the state schedule for these adoptions and has purchased textbooks from the most recent state-approved lists. All approved instructional materials are aligned with California content standards for core academic areas.

The High School District Curriculum Advisory Council, composed of administrators, teachers, counselors, students, and parents representing each school in the district, reviews curriculum recommendations and revisions for all courses of study, appropriate textbooks, and other materials utilized in the support of the instructional program.

The Curriculum Council recommendations are forwarded to the Board of Education for final approval. This is an ongoing process, assuring that all textbooks and instructional materials are systematically reviewed, updated, and supplemented.

Due to the nature of high school, with different subjects being taught at different grade levels, the list of textbooks and resources is too numerous to include here. **A comprehensive list of textbooks and instructional materials for each grade level is available for review in the San Rafael City Schools District Office and on the district website at www.srcs.org/hscourses.**

III. CONDITIONS OF LEARNING

Availability of Textbooks and Instructional Materials (Most Recent Year)

With textbook funding assistance from the state and other sources, the district has been able to purchase sufficient materials to provide one textbook per student in all core subject areas. The Board of Education last approved the sufficiency of textbooks and instructional materials for the San Rafael City Schools High School District on October 10, 2016.

School Facility Conditions and Planned Improvements (Most Recent Year)

At San Rafael High School, the campus is orderly, and students feel safe on campus before, during, and after school. District and school staff work as partners with the San Rafael police and fire departments to maintain a safe community environment. Supervision begins thirty minutes before the opening of school and continues throughout the day into after-school hours and at school sponsored events.

District and school policy require that during the school day all guests to the campus check in at the school office and obtain a "visitor pass" to identify them for security personnel and all staff and students.

The physical quality of the school campus influences teaching and learning. All students and faculty have a reasonable amount of classroom and open space.

San Rafael High School moved to its current location in 1924. The school has a total of 84 classrooms. With monies from voter-approved school bond measures and state modernization funds, the school underwent multiple phases of modernization that began in 2001 and were completed in 2008. Improvements included modernization of the main buildings that include all classrooms, library, theatre, offices, restrooms and special program buildings such as technology, music, art and the entire gymnasium facility. Additionally, modernization was completed on the industrial arts shops, cafeteria, the surrounding grounds, and parking lot.

The district strives to ensure that all schools are clean, safe, and functional. All bathrooms, classrooms, and offices are cleaned daily. Students are encouraged to help keep the campus clean by recycling. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. An on-line maintenance order request process ensures efficient service and that emergency repairs are given the highest priority.

The state's School Deferred Maintenance Program, which provided state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components, became inoperative effective July 1, 2013. However, the district continues to make an annual contribution to support capital improvement projects, including deferred maintenance projects.

San Rafael voters approved Measure B in November 2015 to fund capital facilities projects to improve our school facilities. Measure B provides \$161 million to update: San Rafael High School, Terra Linda High School and Madrone High School.

Over the next eight years, SRCS' bond program will provide much needed capital improvements to our facilities to create safe, innovative learning environments and to provide instructional technology to support 21st century learning. Additional classrooms, labs and equipment will reduce overcrowding in our schools and will meet the growing demand for hands-on science, technology, engineering, arts and math (STEAM) classes.

IV. PUPIL OUTCOMES

State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Statewide Student Assessments

The Standardized Testing and Reporting (STAR) Program was last administered during the 2012-2013 school year. California’s new statewide student assessment system, the California Assessment of Student Performance and Progress (CAASPP), was established January 1, 2014 and first administered during the 2013-2014 school year. The CAASPP comprises the following assessments:

- Smarter Balanced Summative Assessments for students in the general education population for English language arts/literacy (ELA) and mathematics given in grades 3 through 8 and 11;
- California Alternate Assessments (CAAs) for ELA and mathematics given in grades 3 through 8 and 11. The CAAs have replaced the California Alternate Performance Assessment (CAPA) for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards (CCSS) for students with significant cognitive disabilities; and
- Science assessments including California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA), in grades 5, 8, and 10.

Note on ELA and Mathematics tests: results include both the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Note on Science tests: results include CST’s, CMA, and CAPA. The “Percent Proficient or Advanced” is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores.

Note on all tests: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. Double dashes appear (—) when the number of students tested is ten or less.

CAASPP Test Results in ELA and Mathematics for All Students (Two-Year Comparison)

This table displays the percent of students meeting or exceeding the state standards on the CAASPP in the areas of English language arts/literacy and mathematics.

IV. PUPIL OUTCOMES

Career Technical Education Programs (School Year 2015-2016)

San Rafael High School students may select a combination of college prep and general classes that will give them a good foundation for college and career. High school courses are grouped with some regional occupation programs (ROP) and community college courses into clusters: communication; engineering and technology; fine arts and entertainment; science and math; and social science. These clusters explore career fields and prepare students for an academic or occupational path. The broadcasting class prepares students to enter the work world with marketable skills in lucrative fields. The career center supports students by providing information on a multitude of careers and colleges and also offers internships to students in various fields. The school has two academies that integrate academic courses with career preparation and/or preparation for work. The media academy experience (MAX) offers a two-year academy program for juniors and seniors that combines college preparatory English language arts, social studies, and media technology curriculum. The applied physics and technology academy is a three-year blended program for grade 10-12 students focusing on applied physics and technology, industrial arts, and a career path internship. Both academies extend opportunities to work with professional mentors and partners in our surrounding community.

The College and Career Center (CCC) advisor assists students with information on career decision-making, post high school training/educational options, and occupational information. She works closely with the academic counseling department and the school-to-career liaison to coordinate CCC efforts. Programs with the school-to-career liaison include but are not limited to: co-teach, an internship orientation class required to prepare the students for internships; collaboration with employer/community resources for classroom speaking, internships, job shadows, and informational interviews; and assisting more seniors, especially the non-college bound, in developing a plan for after high school.

Career Technical Education Participation (School Year 2015-2016)

This table displays information about participation in the school's CTE programs.

Measure	CTE Program Participation
Number of Students Participating in CTE	238
Percent of Students Completing a CTE Program and Earning a High School Diploma	29%
Percent of CTE Courses Sequenced or Articulated between the School and Institutions of Postsecondary Education	0%

Courses for University of California and/or California State University Admission (School Years 2014-2015 and 2015-2016)

This table displays, for the most recent year available, two measures related to the school's courses that are required for University of California (UC) and/or California State University (CSU) admission. Detailed information about student enrollment in, and completion of, courses required for UC/CSU admission can be found at <http://dq.cde.ca.gov/dataquest/>.

UC/CSU Course Measure	Percent
2015-2016 Students Enrolled in Courses Required for UC/CSU Admission	97%
2014-2015 Graduates Who Completed All Courses Required for UC/CSU Admission	23%

IV. PUPIL OUTCOMES

State Priority: Other Pupil Outcome

The SARC provides the following information relevant to the Other Pupil Outcomes State Priority (Priority 8):

- Pupil outcomes in the subject area of physical education.

California Physical Fitness Test Results (School Year 2015-2016)

The California Physical Fitness Test is administered to students in grades five, seven, and nine only. This table displays by grade level the cumulative percent of students meeting the fitness standards for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found on the CDE Physical Fitness testing Web page at <http://www.cde.ca.gov/ta/tq/pf>.

Note: Percentages are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. Double dashes appear (—) when the number of students tested is ten or less.

Grade Level	Cumulative Percent of Students Meeting Fitness Standards		
	Four of Six Standards	Five of Six Standards	Six of Six Standards
9	87.9%	70.9%	51.5%

V. ENGAGEMENT

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (Most Recent Year)

Contact Person Name: Rachel von Doepp

To Reach Contact Person: Vondoeppwearesr@gmail.com

Parent involvement is a vital component of the educational program at San Rafael High School. San Rafael City Schools would not be what it is today without the contributions of countless parents and guardians who give their time and expertise as volunteers and who share their financial resources to support the goals and aspirations of San Rafael schools.

At San Rafael High School, specific opportunities for parent participation include the Site Leadership Team (SLT), WeAreSR! (parent-teacher-student association), School English Language Advisory Council (SELAC), grade level class advisors and support parents, and the following five parent booster groups: athletic, music, drama, art, and cheerleading. Parents also participate on other site committees such as the Site Facilities Team that oversees ongoing facility improvements/modernization and many subcommittees that address specific program needs.

Parents are also made to feel welcome through various informational and community-building events, including back-to-school nights, eighth-grade orientation night, college information nights, special parent education nights, concerts, plays, musicals, and other artistic and athletic performances.

School Safety Plan (Most Recent Year)

Date Reviewed and Updated: August, 2015

Date Discussed with School Faculty: August, 2015

San Rafael High School has a comprehensive school safety plan covering all aspects of planning for emergency response and student safety. This plan is based on and coordinated with the district and county emergency preparedness plans. The plan is reviewed with school staff at the start of the school year. The plan is updated annually to increase preparedness for any emergency, including storms, fire, earthquake, or intruders on campus. The school has staff members who are trained in cardiopulmonary resuscitation (CPR) and first aid. Disaster drills are held once a semester throughout the year. The school also participates in an annual county-wide disaster preparedness drill.

While the school has a safety plan in place, it is important to note that we are working constantly to update it to meet the requirements established by the Marin County Office of Education with regards to armed people on campus and other areas of concern.

VI. OTHER SARC INFORMATION

Professional Development (Three-Year Comparison)

Teachers and other key school staff members have opportunities for participation in professional development activities through district, school, categorical, grant, foundation, and parent-teacher organization funds. Professional development is focused to support the mission and goals of the district and each school site plan and may include site and district training, county offerings, state and national conferences, and workshops as appropriate. Last year, San Rafael High School partnered with UC Berkeley to provide professional development focused on implementing Common Core. In addition, the school funded several teacher coaches/coordinators on special assignment to focus specifically on literacy, math, and English Language Development. These staff facilitated professional development on special release days, staff and department meetings, or in-class coaching.

DataQuest is an online data tool that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners). The DataQuest Web page is located at <http://dq.cde.ca.gov/dataquest/>.

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
