There were no comments from CSEA or SRFT at this time.

IX.2. PRESENTATION: (ESD) Full-Day Kindergarten

Minutes:

Dr. Watenpugh introduced this item noting that the high percentages of incoming kindergarteners who do not have preschool, or are EL learners, or socially disadvantaged, need additional time to benefit students and their families. He noted the demographic coming into K is different than in the past because of the state change in start date to September 2 for kindergarteners.

Dr. Perez provided a brief overview of research from 2006 regarding the benefits of full day K for students, parents and teachers. She cited the work of an AdHoc committee that has been meeting regularly to prepare for the transition to full-day K. They have recommended that all sites need to go to full-day K for a 90 minute longer day; 30 minutes of art, 30 minutes of physical education and 30 minutes of library. Administration would offer additional support in the first weeks of school and teachers can provide feedback at grade level meetings.

The following individuals addressed the Board on this item:

- Ally Mitchell, teacher at SV, on the negotiations team and AdHoc committee: regarding disappointment that the Board did not use the collective input and experience of kindergarten teachers in decisions; no transparency
- Jo Shae Atkinson, Coleman teacher: regarding lack of communication, no support, moving backwards
- Kelly Dupree, most senior kindergarten teacher in the District: regarding history of am/pm and extended day K in the past; no collaboration, reconsider decision and take all issues into account
- Kelly Albrecht, SR City Childcare Program: impacts on the program when school schedules change, would like to be included earlier in the process to prepare for changes
- Theresa Fullmer, working with the City on the Coleman campus: on the need to preserve free play time for kindergarteners
- Sara Sonnet, parent and district employee: socio- emotional issues full-day K can create for some students

Trustees noted their appreciation to those who came out to express their views on full-day K. President Kertz noted that no decision or action is agendaized for this evening. Trustee Jackson expressed her belief in the benefits of full-day K; our schools can do more for socio-economically disadvantaged kindergarteners; look at getting the most out of the additional 90 minutes.

- reviewed mitigation of traffic impact for the stadium project
- reviewed the possibility of relocation of MHS as a mitigation
- EIR is going out on Dec. 15, followed by a 45 day period for written comment, then responses will get written for Board review. Any changes in the project will come through this process. Minutes:

Assistant Superintendent, Business Services Doug Marquand provided an overview for the ESD and the HSD of: the state budget process and timelines; the November tax collection information for the HSD and economic predictors; basic aid vs. state funding with LCFF which will be fully funded in 2021; ADA for the ESD is projected to be at 4623, 33 less than was budgeted; HSD projected to be at 2406, 112 increase from 15/16 and 33 greater than budgeted; based on current assumptions for property tax growth, it is highly unlikely that the High School District will fall out of basic aid in 2021.

He also reviewed:

- combined general fund revenue which makes the ESD a \$54.6M organization, and the HSD a \$33.5M organization
- the percentages of employee costs in the budgets for both districts
- deficit spending in both the ESD and HSD, in particular the HSD savings is dwindling which presents a problem in multi-year projections

- Multi-year projections for this year and two years out were reviewed with an assumed 5.5% property tax in the HSD, the impacts of STRS and PERS, a possible 1% salary increase in the HSD

- ESD budget does not include the potential 4.5% increase for teachers, classified or unrepresented

- recommendations for potential reductions in ESD and the HSD to address deficit spending were reviewed. Superintendent Watenpaugh noted that class size issues will need to be tightened up with staff assigned more efficiently

Mr. Marquand recommended a positive certification in both districts at first interim, but noted that serious reductions will need to be made at second interim in the HSD. Dr. Watenpaugh noted that staff will look at class sizes and essential services in classrooms and central reductions.

Trustees discussed the importance of communication regarding needed budget reductions.
