2017-20 Plan Summary

THE STORY

Briefly describe the students and community and how the LEA serves them.

Santa Rosa City Schools district has a long, rich history serving students in Sonoma County, in the largest California city north of the Golden Gate Bridge. Our district was founded in 1858 with 50 students. Today, we welcome more than 16,000 students to our 26 schools. Our community is diverse. Students and families speak 52 languages, with the majority speaking English and/or Spanish. We have 3,500 English learners. We value diversity and have been recognized statewide for our Equity and Social Justice Initiative. That initiative has been embraced by our 1,600 teachers and staff, who have adopted the district's motto of "Every Student, Every Possibility, No Matter What." Learning begins with healthy students and families. We partner with community organizations to provide services that go beyond academics, such as parent education, health services, and counseling. Bilingual family engagement facilitators help our families make connections. Santa Rosa City Schools' campuses include 10 elementary schools, five middle schools, five high schools and one continuation high school. We also have five dependent charter schools, including French and Spanish immersion schools, a K-8 charter school for the arts, and a nationally recognized accelerated charter school. The mission of our schools is to provide active, involved learning to prepare each of our students for college and career. To that end, we have Career Technical Education programs, Magnet programs that partner with our local junior college and university, an award-winning high school arts program, and an International Baccalaureate Program. After 160 years, Santa Rosa City Schools continues to value its position in this community, entrusted with providing our next generation the tools they need to lead us into the future.

LCAP HIGHLIGHTS

Identify and briefly summarize the key features of this year's LCAP.

Goal 1: Provide a coherent, rigorous and relevant teaching and learning program to graduate college and career ready students.

The district supports high-quality classroom instruction and curriculum that promotes college and career readiness with academic interventions in place to eliminate barriers to student success.

Santa Rosa City Schools supports Collaborative Curriculum Design (CCD) work in all core subject areas. The focus on the California ELD Standards will continue to be enhanced with additional GLAD training and in-classroom support through Teachers on Special Assignment (TOSA). Training for Next Generation Science Standards and C3 Framework for Social Studies State Standards receives TOSA support in the classroom.

Santa Rosa City Schools supports a focus on STEM training through Maker projects in K-8 schools. SRCS supports a partnership with Michael Fullan, with the focus on coherence, systems, and building capacity.

Goal 2: Increase student and family wellness and engagement through the full-service community school model. The district ensures that all schools have a safe, welcoming and inclusive climate for all students and families so that all students are in their classes and ready to learn.

The commitment to ensure that every student attends a school that is safe, clean and healthy can be seen in SRCS's work to improve the climate at our schools through the district's receipt of the School Climate Transformation Grant which focuses on BEST Plus (Positive Behavior Intervention and Strategies, Restorative Practices and behavioral health services).

Through restorative practices, centralizing attendance letters, SOLL (Supporting Our Language Learners) counselors, family engagement staff and student engagement activity workers we see a positive impact on students and families. This is evidenced by the reduction of suspensions and expulsions, increases in restorative interactions with students, increased contact with families regarding attendance, 25% of teachers attending the Museum of Tolerance training, the identification of nine BEST Plus schools and their training with an increased number of students receiving mental health services.

REVIEW OF PERFORMANCE

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Math:

This year at the elementary level, we have piloted Common Core aligned math programs as part of a curriculum adoption process. We are pleased that through this process, we have selected new curricular materials to adopt for the 17-18 school year, KA-6.

Writing:

Our teachers have participated in professional learning and meaningful collaboration through our work with Lucy Calkins' Units of Study in Writing. Their success has been

GREATEST PROGRESS

demonstrated through a significant overall improvement in students' writing. When looking at the District benchmark assessments in writing, teachers report an increase in student fluency, volume, organization, and elaboration. Throughout the year, student and teacher achievement has steadily increased and is evident in the environment of the classroom and when interacting with the community.

CCD:

Based on teacher feedback from surveys, one of our most successful professional development ELA/ELD initiatives has been the Collaborative Curriculum Design (CCD). This initiative is Common Core aligned and has been teacher-led and teacher inspired. The CCD work is large in scope and is in its beginning stages of implementation. One reason our CCD Units of Study developed by teachers for teachers and students has a positive impact on the skills and concepts students learn is because SRCS teachers know their students better than any publisher possibly could. The CCD developed learner-centered units with appropriate differentiation and scaffolding strategies embedded within to support students as they acquire the 21st Century skills and the mindset needed for College and Career success.

FOSS Science:

This year, we began the transition to the use of FOSS Science Kits in grades K-6. The first phase of implementation was completed this year with the purchase, training, and implementation of Physical Science kits in grades K-5. To support the integrated model at Middle School, 6th-grade teachers received all 3 FOSS Science Kits (Life, Physical and Earth) so that current 6th graders would transition to Middle School with experience with and understanding of all content. Feedback from teachers and students is that the FOSS kits create much higher engagement in science. The hands-on, interactive approach to teaching science supports content knowledge and provides students the opportunity to engage in the Science & Engineering Practices that are such an important addition the Next Generation Science Standards.

English Learners:

Approximately 600 students, district-wide, have met the reclassification criteria this year. This is 200 more students than the totals for 2014-2015 and 2015-2016. This is in part due to the revised criteria, which now includes multiple measures for the basic skills section (i.e. Let's Go Learn (LGL), Developmental Reading Assessment (DRA), Smarter Balanced Assessment of Consortium (SBAC)) as well as the support and intervention students are getting to develop their English language proficiency and academic skills. Further, much has been done to educate parents through English Language Advisory Councils (ELACs) and the District English Language Advisory Council (DELAC) meetings. Parents are informed of the benefits of being reclassified as Fluent English Proficient (R-FEP) and are highly encouraged to meet with teachers and the administration if their student is not making progress towards being reclassified.

The Family Engagement Facilitators (FEFs) have removed the language barriers that Spanish-speaking families previously faced. Consequently, parents are more engaged and more aware of the offerings provided by the schools and the district. They are able to have meetings with monolingual (English-speaking) teachers and administrators to inquire about their students' challenges and successes, in order to work collaboratively to support improved outcomes for the students.

This year, as a result of the Federal Program Monitoring process, all special education staff was trained in how to support English Learners who have Individualized Education Plans (IEPs). The training addressed how to write linguistically appropriate learning

goals for all content areas and also how to write English Language Development (ELD) goals. Further, all special education staff was informed that all English Learners must be provided access to the core content as well as both integrated and designated English Language Development (ELD).

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Moving forward for next school year, it will be important to provide professional development for teachers in the newly adopted curriculum as well as the English Language Arts/English Language Development (ELD) Standards and Framework to support the implementation of integrated and designated ELD. California School Board Dashboard student group reports show that our English Learners, Socioeconomically Disadvantaged, Students with Disabilities, American Indian, Hispanic performance levels are in the red and orange English Arts (3-8) category.

Schools must ensure that all English Learners are receiving well designed, comprehensive, and integrated ELD in all content areas. The California School Dashboard reflects the fact that our English Learner Progress is in the orange performance level. Schools must ensure that EL students are provided designated ELD, a protected time in the regular school day, where ideally students are grouped by their English language proficiency levels and teachers use the CA ELD Standards as the focal standards in ways that build into and from content instruction to develop critical language ELs need for content learning in English.

To support this area of need, Designated ELD lessons tied to the CCD units will be created and uploaded to Haiku. Hence, we will need to identify a team to create these.

The California School Dashboard data reflects orange and red performance levels for Mathematics (3-8) in the following subgroups: Socioeconomically disadvantaged, students with disabilities, and our American Indian student populations. The Make the Way professional development focused on providing access to rigorous grade level content for our most underserved populations and we saw significant performances by students with teachers involved in this project in comparison to these students' counterparts. Planning professional development similar to Make the Way that provides deep and sustained learning activities to implement curriculum thoughtfully will help to continue improving student achievement outcomes. Planning professional development that is comprehensive, engaging and supportive of reflection will be critical. The selection of the new materials is a good first step to strengthening mathematics education in SRCS, however, developing a plan for on-going professional development and collaboration around mathematics instruction is a priority in support of teachers and students.

The Collaborative Curriculum Design unit development will continue next year with the development of additional units of study. This work will require that the CCD teams have the time and support to continue developing and sharing the newly written units with their colleagues. This work is critical to continuing the focus on student-centered learning and coherence across the elementary district. A next step will be to develop trimester assessments that can provide the necessary feedback on student learning around the

GREATEST NEEDS

standards and content taught through these units.

California School Dashboard data reflects suspension rates for all students (K-12) in the orange performance level. Santa Rosa City Schools will continue to make headway in this category with responses to instruction and intervention. This Multi-tiered System of Support (MTSS) with BEST Plus which is a hybrid of Positive Behavior Intervention Strategies, Restorative Practices, and behavioral health support with 3 elementary schools in Cohort 1, 4 elementary schools in Cohort 2, and 7 elementary schools in Cohort 3.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

PERFORMANCE GAPS

There is no denying that there are performance gaps between our English Learners and the general Santa Rosa City Schools student population. We also recognize that much has changed in regards to the California Standards and that strong first instruction is critical to student achievement and school improvement. We understand the need for sound and systematic intervention programs for our English Learners and that a more robust monitoring system must be implemented in order to ensure students are making the necessary gains in language acquisition as well as academic achievement in content standards. Further, we fully understand that more must be done to engage parents as partners in this important work.

We recognize that our English Learner Services need to be strengthened in order to meet our Annual Measurable Achievement Objectives (AMAOs), but more importantly, to meet the needs of our students.

Data from the CDE DataQuest website for all students affiliated with Santa Rosa City Schools shows the A-G completion rate with the following performance gaps:

Hispanic A-G Completion Rate.....	District A-G
2010-11 ~ 9.5%.....	2010-11 ~ 20.6%
2011-12 ~ 9.3%.....	2011-12 ~ 21.9%
2012-13 ~ 17%.....	2012-13 ~ 29.1%
2013-14 ~ 16.9%.....	2013-14 ~ 31%
2014-15 ~ 18.1%.....	2014-15 ~ 28.7%
2015-16 ~ 19.5%.....	2015-16 ~ 28.5%

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

Based on staff and stakeholder feedback and research on effective practices we are implementing 18 Actions/Services in Goal 1 and 9 Actions/Services in Goal 2 to improve services for the Low Income, English Learner and Foster Youth, including using a portion of the LCFF Supplemental dollars for site allocations based on the number of unduplicated youth served to allow sites to implement site specific solutions based on unique site needs and site stakeholder input. Three significant actions to improve services are:

E110: Implement the English Learner Master Plan to guide the instructional program to ensure EL students are progressing and reclassification rates are increasing while reducing Long Term

English Learner rates. Provide support services for Long Term English Learners and Migrant students to accelerate their ELA and math proficiency.

E114: Increase extended learning opportunities in all disciplines for all students, including after-school tutoring for identified students, which include unduplicated student counts.

E128: Decentralize funding to school sites to implement services to FY, LI, and EL students and families as described in their school site plans (SPSA). Each school SPSA is aligned to the LCAP goals with a strategic focus on the site's specific needs. Progress monitoring of the SPSA goals will occur throughout the year

E203: Provide 1 Classified Family Mentor to assist with Foster Youth and Homeless Liaison between District and Schools.

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

The Santa Rosa community approved two Prop 39 General Obligation Bonds for Santa Rosa City Schools: Measure L for the Santa Rosa Elementary School District

*Providing a Safe and Modern Learning Environment

*Current and Reliable Technology and Labs

*School Repair Measures to Support Student Success

The Santa Rosa City Schools Elementary School District plans to spend an additional \$43,409,843 in addition to what is shown here in this LCAP document. These additional expenditures will go towards our basic services, special education programs, and additional instruction programs such as our Federal No Child Left Behind services. Of this \$43,409,843, 75% is for our employee salaries and benefits, 5% is for materials and supplies and 20% is for contracted services.

ACTUAL

The Elementary Collaborative Curriculum Design teams were formed in February of 2016 and during the 2016-2017 school year developed integrated units of study in grades Kinder Academy through 6th. Grounded in the CCSS standards, the KA-6th-grade teams began their work determining the ELA standards that would be integrated into English, Science, History and Social Studies as the foundation of their units. Although California Standards and Next Generation Science Standards was a part of the CCD, their main focus was the ELA Standards.

These units included: engaging questions to support inquiry and critical thinking, opportunities for students to work collaboratively, rich literature and informational readings, hands-on learning experiences, technology and a focus on formative learning.

ACTUAL

The District continued to provide professional development on cultural proficiency, unconscious bias, and culturally relevant practices. Some specifics: Over 600 members attended the two-day Museum of Tolerance: Tools for Tolerance for Educators Professional Development training. This professional development included exploration of exhibitions at the Museum of Tolerance related to the Holocaust, oppression, genocide, bias, Immigration and Civil Rights. The two days also provided an exploration of data regarding Santa Rosa City Schools' students both served and underserved.

In partnership with CTA's Office of Civil Rights and the Santa Rosa Teachers Association, Santa Rosa City Schools offered seven, two-day Unconscious Bias training for staff. Over 250 SRCS staff participated in these workshops.

Extensive training and coaching were provided to each site's leadership teams to facilitate a strategic focus on goals and actions that would move the sites forward in providing best first instruction and support services. Each site leadership team provided a progress report two times during the year with an analysis of the progress using a qualitative and quantitative date. All sites showed growth as

ANALYSIS

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	The district implemented all actions and services as planned. By continuing and increasing services to our English Learners, foster youth, and low income students we were able to pinpoint specific needs in order to ensure that these students were college and career ready. Specifically, the focus on our English Language Learners and a close look at our reclassifications this year helped us to develop and implement systems in place to ensure they are correctly placed academically. Implementing collaboration and PD throughout the disciplines continues to directly affect student outcomes as the work on their desk begins to change and reflect a more sequenced problem and solution based format.
Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.	The district has made great strides in collecting and using the data available to assist in assessing the success of the actions of the SPSA and LCAP. Those actions to increase student proficiency for ELA and Math were measured by CELDT data, reclassification data results on Let's Go Learn, increased access to the core curriculum, teacher collaboration in professional development to identify priority standards and create curriculum. For this year, the actions of the LCAP have achieved the desired metric results.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	E104: Ticket to Success Program at SSU was canceled, leaving a balance remaining. E105: We did not offer some of the professional development to offset our structural deficit. Therefore, some contractual expenses were less, as were the sub and extended day costs. E106: Cost of training materials was less than originally budgeted. E108: Secretary in this position moved to another department, this position was not refilled, leaving a balance. E110: Professional development was provided. The technology was not purchased in 2016-17. Will be purchased in 2017-2018.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

E111: Did not hire a third instructional assistant.

E113: Less educational opportunities.

E114: Supplemental funding was combined with Migrant Ed funds.

There were differences in dollar amounts budgeted and expended as a result of the changes needed to accommodate some services not occurring and budget reductions. This meant less training, less extra duty pay for teachers and fewer materials purchased.

E 104 was eliminated as it did not occur in the 2016-2017 school year.

E 108 was changed as to eliminate the Secretary 1 position.

E 120 was changed as the coordinator position was eliminated.

ANALYSIS

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Actions and services for the goal were implemented as planned. Ensuring that every student attends a school that is safe, clean and healthy is a top priority for Santa Rosa City Schools.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The implementation of restorative practices, centralizing attendance letters, the addition of the family engagement staff, restorative specialists, mental health services, professional training for classified and certificated staff in Trauma Informed Care, circle community building, restorative practices, well-being and positive behavior interventions have all had a positive impact on students and families as evidenced by the reduction of suspensions and expulsions.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

E205: The events related to this action were held during the day, therefore the cost of subs or extended day pay for classified staff was not needed.
E206: Translation Services were not needed at all meetings
E208: School Climate Grant supplemented costs for professional development, materials & supplies, contracted services

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

As part of the fiscal stabilization plan for Santa Rosa City Schools, the Santa Rosa School Board adopted the Best Possible Solutions on May 1, 2017. These solutions outlined changes to the district LCAP.
There were differences in dollar amounts budgeted and expended as a result of the changes needed to accommodate some services not occurring and budget reductions. This meant less training, less extra duty pay for teachers and fewer materials purchased.

2018-19

2019-20

INVOLVEMENT PROCESS FOR LCAP AND ANNUAL UPDATE

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

After gathering feedback about the stakeholder engagement process, it was determined that more feedback from more stakeholders would occur if it took place at the school sites and through district meetings. A protocol for all site principals was developed to assist in monitoring the progress of the LCAP actions through the alignment to the Single Plan for Student Achievement (SPSA). This alignment created a strategic focus for each of the sites to monitor progress and have site level conversation with all members of their school community about the how the services being provided were achieving the intended outcomes of the LCAP/SPSA. The various stakeholder meetings had in attendance Board of Trustees members, DAC representatives, certificated and classified leadership group members, administrators, community members, and students. Principals from our 26 schools came together two times during the year to share and collaborate in an inquiry seminar format, separated into elementary, middle and high school groups and also feeder patterns. They shared and received feedback on their identified foci, the intended outcomes, the metrics used to measure (both quantitative and qualitative) the feedback from stakeholders, and finally their discovery based on the results, the process itself, and the feedback. The process has provided more stakeholders a rich and meaningful way in which to engage in the LCAP/SPSA as well as provide relevant feedback for the individual school communities that make up SRCS. The other forms of outreach communication consisted of using the phone, email, web, radio, newspaper, Twitter, etc. to inform the public, collect input and determine any modification needed to the LCAP. SRCS hosted three Stakeholder's Unity Meeting (SUN) for the community at large. The collection of input was comprised of online surveys, community meeting, student surveys, parent groups' surveys and staff surveys. Stakeholder surveys this year included the Thought Exchange process which went out in three phases. The first phase was held from March 15-29 in which 5,717 written "thoughts" were collected from parents, site and district staff, and students (from the secondary level) as well as community members at large. The second phase took place from April 4-18 wherein these thoughts were aggregated into themes and sent out to our stakeholders again for them to "star" or prioritize what they felt was most important. The third phase to occur was released on May 4th when the actual survey results were reported based on the data collected during phase one and two.

The SRCS Strategic Planning process has also gathered a great deal of information from students, families, and community members and has been incorporated into the LCFF required Local Control Accountability Plan (LCAP).

The draft LCAP was posted on Wednesday, May 24th at the regular board meeting for public comment. Stakeholders were informed of the public comment window through SRCS website, a flyer and an automated phone message in both Spanish and English. Stakeholders were invited to visit schools and review a paper copy of the draft LCAP or SRCS website. DELAC and DAC reviewed and provided feedback to the LCAP draft on Thursday, May 18, 2017.

The Superintendent received no questions and comments during the public viewing of this draft LCAP. A community report was developed to provide

information about the LCAP. The community report was posted on the website and at each school and is also translated into Spanish. The public hearing for both the LCAP and the Budget was conducted on Wednesday, June 14, 2017.

The LCAP and budget were approved on Wednesday, June 28, 2017.

Meetings were advertised through mailers sent home, flyers at school sites, district website and an automated phone message to all homes in both Spanish and English. All meetings offered childcare; bilingual English and Spanish presentations and oral interpretation.

Union consultation took place on March 6, 2017, April 17, 2017, May 1, 2017, and May 15, 2017, with certificated and classified units.

Where applicable, agendas and other materials were provided for all meetings in both Spanish and English, and opportunities to ask questions and engage in discussion regarding the new law and funding formula was provided.

IMPACT ON LCAP AND ANNUAL UPDATE

How did these consultations impact the LCAP for the upcoming year?

As a result of the feedback from the various stakeholder groups:

Continue to train on and implement the California Standards, the Next Generation Science Standards, and the newly adopted English Language Development standards.

Increased depth in the implementation of Family Engagement in the form of training for parents to become leaders in the advocacy of children and the services provided.

Develop protocols and surveys that are user-friendly and that will identify stakeholder type and be relevant to the particular group.

LCAP outreach will take place in the community rather than at the district office.

Provide metric outcomes throughout the school year.

Create more effective ways to educate and communicate with parents and students about their role with the LCFF and LCAP.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year	2017-18	2018-19	2019-20
Estimated Supplemental and Concentration Grant Funds:	\$ 7,562,447.00	Percentage to Increase or Improve Services:	26 %

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

The services described in this plan are intended to increase and improve services to English Learners (EL), Redesignated Fluent English Proficient (RFEP), Low Income (LI) Pupils, Foster Youth (FY) and students with disabilities by a minimum of 9.70% in the 2017-18 school year as compared to services provided to all students. The proportionality percentage was met by increasing the amount spent on 100% of Supplemental funds to provide increased or improved services for these pupils. This exceeds the 9.70% minimum proportionality percentage.

We will be offering increased services for our English Learners, RFEP, Low Income, Pupils, Foster Youth and students with disabilities in the following manners:

1. Providing counseling services at all of our elementary schools
2. Providing student engagement workers
3. Providing family engagement workers
4. Continuing full-time bilingual outreach positions which will supplement the services previously provided.
5. Continuing Restorative Response Specialist positions to serve students and families in the 2nd and 3rd level of a multi-tiered intervention and support system.
6. Up to 10 Teachers on Special Assignment to curriculum, instruction, assessment, and intervention to meet the needs of targeted students through support and training of classroom teachers to implement the California Standards and NGSS standards.

The addition of these services for our EL, RFEP, LI, FY students and students with disabilities will be delivered through a Multi-Tiered System of Support (Response to Intervention & Instruction) which is a comprehensive system of differentiated supports that includes evidence-based instruction, universal screening, progress monitoring, formative assessments, research-based interventions matched to students needs, and educational decision-making using student outcome data.

The increased instructional time, professional development, additional staff and sections in the master schedule for student support exceeds the 9.70% required minimum proportionality percentage by providing increased and improved services for our identified unduplicated (EL, FY, LI, RFEP) students as compared to the services provided to all pupils in the LCAP in the year 2017-18 The cost of these services is equal or exceeds the number of supplemental grant funds received.
