VII. SPECIAL REPORT

VII.1. UPDATE: (ESD/HSD): Labor Unions: CSEA, SRTA, SRFT

Minutes:
CSEA:

CSEA President Katina Pantazes expressed thanks for the All Staff Welcome Back event and the wonderful speakers. She provided a brief overview of the Job Shadowing Day from last spring, thanking Trustee Knell for his participation, and thanking Assistant Superintendent Amy Baer for her participation and coordination of the event.

There were no reports from SRTA or SRFT at this time.

VII.2. Update on College Of Marin Providing Access and Supporting Success (COMPASS) Program - Jonathan Eldridge, College of Marin

Minutes:

Jonathan Eldridge, Vice President of Student Learning and Student Services for the College of Marin (COM), was present to provide an update on the COMPASS program and other COM initiatives to support high school students.

COMPASS: TL Sophomores and Juniors, and SR Freshmen and Sophomores in the program this year; some have already earned 12 units before they will have ended high school; program has 100% retention; will expand to include more students next year in SRCS and neighboring districts; mostly low income and EL students participating; this summer 40 SRCS students took COM classes; COM tuition will be paid for high school students who graduate through the COMPASS program

Summer Bridge: this year 120 student participated in the program that includes intensive counseling and review in math and English LA; 2/3 of the students in the program are placing up, reducing the need for remediation when they move on to college

Summer Academies: offerings to provide a college and career options for high school students, including solar w/sun power, medical explorations, career explorations and other options for 10th and 11th graders; very popular with courses booking early in the spring; academies will be expanded with more space on the Indian Valley campus

REVISION TO MINUTES – AUGUST 28, 2017

Satellite classes at high school sites: more class offerings at TLHS than anywhere, tied to MSEL; computer information systems, Engineering 110 and Communications 160, also introductory courses such as medical assisting and auto tech courses; Counseling 133 at Madrone in the spring; possible late start course this fall and behavioral science in the spring; want to create rotating offerings around the county

Goals ahead: to have 200 students in the COMPASS program at SR and TL by 2020; established rotation of satellite courses by 2020; have 500 SRCS students concurrently enrolled at COM; have 30% of all high school graduates start at COM.

In response to trustee questions, Mr. Eldridge provided additional information regarding the decrease in remediation needed with the COMPASS program; the goal to have 100% of students continue through and graduate with a college degree; an MOU with Sonoma State University to offer degree completion programs; the addition of a newcomer academy, working with the county office to address the needs of EL learners; and a strong COMPASS program connection with PIQE to include parents to be involved with their students education as well as offering parents opportunities to look at their own educational plan and connecting them with resources.

President Kertz acknowledged incoming student board member from SRHS, Yesenia Hernandez, who was in the audience. It was clarified for Yesenia that she would be sworn into office at the September 11th meeting.

President Kertz also noted that the Citizens' Bond Oversight Committee (CBOC) was holding a meeting downstairs and would be taking a break and coming upstairs to join the Board meeting and hear the Capital Facilities Report.

M/S/c (Jackson, Knell) the Board voted 5-0 to move the Consent Agenda forward to this point while they waited for the CBOC to join the Board meeting, by the following vote:

Rachel Kertz - YES

Greg Knell - YES

Linda Jackson - YES

Maika Llorens Gulati - YES

Natu Tuatagaloa - YES

VII.3. UPDATE: (ESD/HSD) Capital Facilities Program

Minutes:

The Capital Facilities Program update was presented after the Board reviewed Consent Agenda items.

REVISION TO MINUTES – AUGUST 28, 2017

Senior Director Dr. Dan Zaich noted that CBOC members were in the audience, taking a break from their concurrent meeting to hear the CFP update.

Dr Zaich reported:

- The Education Specifications (Ed Specs) has been revised and finalized after further input which included suggestions from Trustees Jackson and Tuatagaloa; it is on this agenda for approval.
- The team worked overnight to get classrooms ready for the first day of school at SRHS; TL thermostats were tested the day before school to make sure they were ready for the first day of school
- A TL alum who works for the synthetic turf maintenance team, coordinated work on the TL field free of charge to patch the field and get it ready for students
- Training and directions on how to use the new AC thermostats will be provided for teachers and staff
- An independent auditor on site at SRHS will verify the work that is happening
- Mark Van Pelt provided a brief overview of the stadium project impacts that have shifted the timeline for completion to March 2018: a full EIR for the entire campus, not just the stadium which was finalized in March, followed by a month long challenge period that ended in May; legal counsel recommended waiting until the challenge period was over to begin construction; when the contractor came in \$3M over budget negotiations with the contractor took 2 1/2 weeks longer than anticipated to get to a project within budget, moving board approval to June. In response to **Trustee Llorens Gulati's question about whether rain would delay the estimated completion date**, Mr. Van Pelt **noted that** ~~provided additional information in response to questions from trustees:~~ rain days are factored into the contract so there should not be delays unless there is above average excessive rain. **He also noted in response to other trustee questions that** there are no must starts before Oct. 15 and spring sports can begin on the stadium grounds as soon it is completed. **Trustee Llorens Gulati requested that communications be shared with SRHS parents either at Back to School night, in newsletters, or coffee with the principal, regarding an update on the stadium completion date, and an explanation of funding for the stadium versus funding for programs.**
- The Bahia Vista shelter was delivered today
- Design updates were reviewed for DMS, Glenwood, LD, VV, SR, Madrone and TL
- This Consent Agenda includes a lease-leaseback selection process and criteria for DMS, LD and SP.
- Marcus Hibser of Hibser Yamauchi Architects reviewed the San Pedro School schematic design and the challenges in development. The project as it was reflected in the Master Facilities Plan was not within budget; higher costs with modulars and temporary housing. After review of criteria and taking into consideration the key points for what was needed at

REVISION TO MINUTES – AUGUST 28, 2017

the site, the current schematic design was brought in at \$11.3M, with a \$11.7M budget. The site facilities committee is happy with the new design; meeting with staff this week to review it. In response to Trustee Llorens Gulati's questions regarding whether an awning or covered walk path was included for the rain, can there be consideration of the garden farm to table program, do kinders have their own playground, and the possibility of kids breaking classroom windows when playing baseball, Mr. Hibser noted there are no canopies designed to provide rain coverage for students, they will need to continue doing what they have been doing; they can look into more integration of the farm to table garden program; kindergarteners do have their own playground; and balls hit by the youth team that uses the baseball field are not likely to reach the nearby classroom windows. In addition, he clarified that the need for temporary housing was eliminated with this new design, a cost savings; trying to preserve the Little League field, hopefully to regulation size; the new drop off/pick up design with added parking that takes all 11 buses off the street, should make a difference in traffic congestion;; the current design will need to be shared with the neighborhood association. Trustee Tuatagaloa noted he was contacted by the Loch Lommond HOA which is very interested in what the vision is for San Pedro. Trustee Jackson suggested with the excess budget that they look at building covered walkways to provide rain canopies for students, and making improvements to the MPR to make it more functional. In response to Trustee Tuatagaloa's questions regarding maintenance of the tunnel, Dr. Zaich noted that it is the City that maintains it; he will follow up with them at a meeting scheduled for this week.
