Agenda

- ✓ **Background information**
 - **Census 2010 data for SRCS**
 - **Redistricting criteria (legal and other)**

- ✓ **Preliminary Draft Plans**
 - **7-trustee Plans**
 - **Plan 1 - based on K-8 feeder boundaries**
 - **Plan 2 - Divides SRED among all the trustee areas**
 - **5-trustee Plans**
 - **Plan 1 - based on K-8 feeder boundaries**
 - **Plan 2 - Divides SRED among all the trustee areas**

- ✓ **Questions?**

Census 2010 Counts for SRCs

Census 2010 Population Counts for the District (adjusted)*

	Total Population		Aged 18+ Pop	
	Number	Percent	Number	Percent
Hispanic Origin	60,999	29%	38,359	24%
Non-Hispanic				
White	125,671	60%	105,925	65%
Black/African American	5,244	2%	3,591	2%
Native American	3,468	2%	3,468	2%
Asian	11,586	6%	8,565	5%
Hawaiian, Pacific Islander	1,093	1%	802	0%
Other	553	0%	363	0%
Other, Mixed Race	1,152	1%	684	0%
Total	209,766	100%	161,757	100%

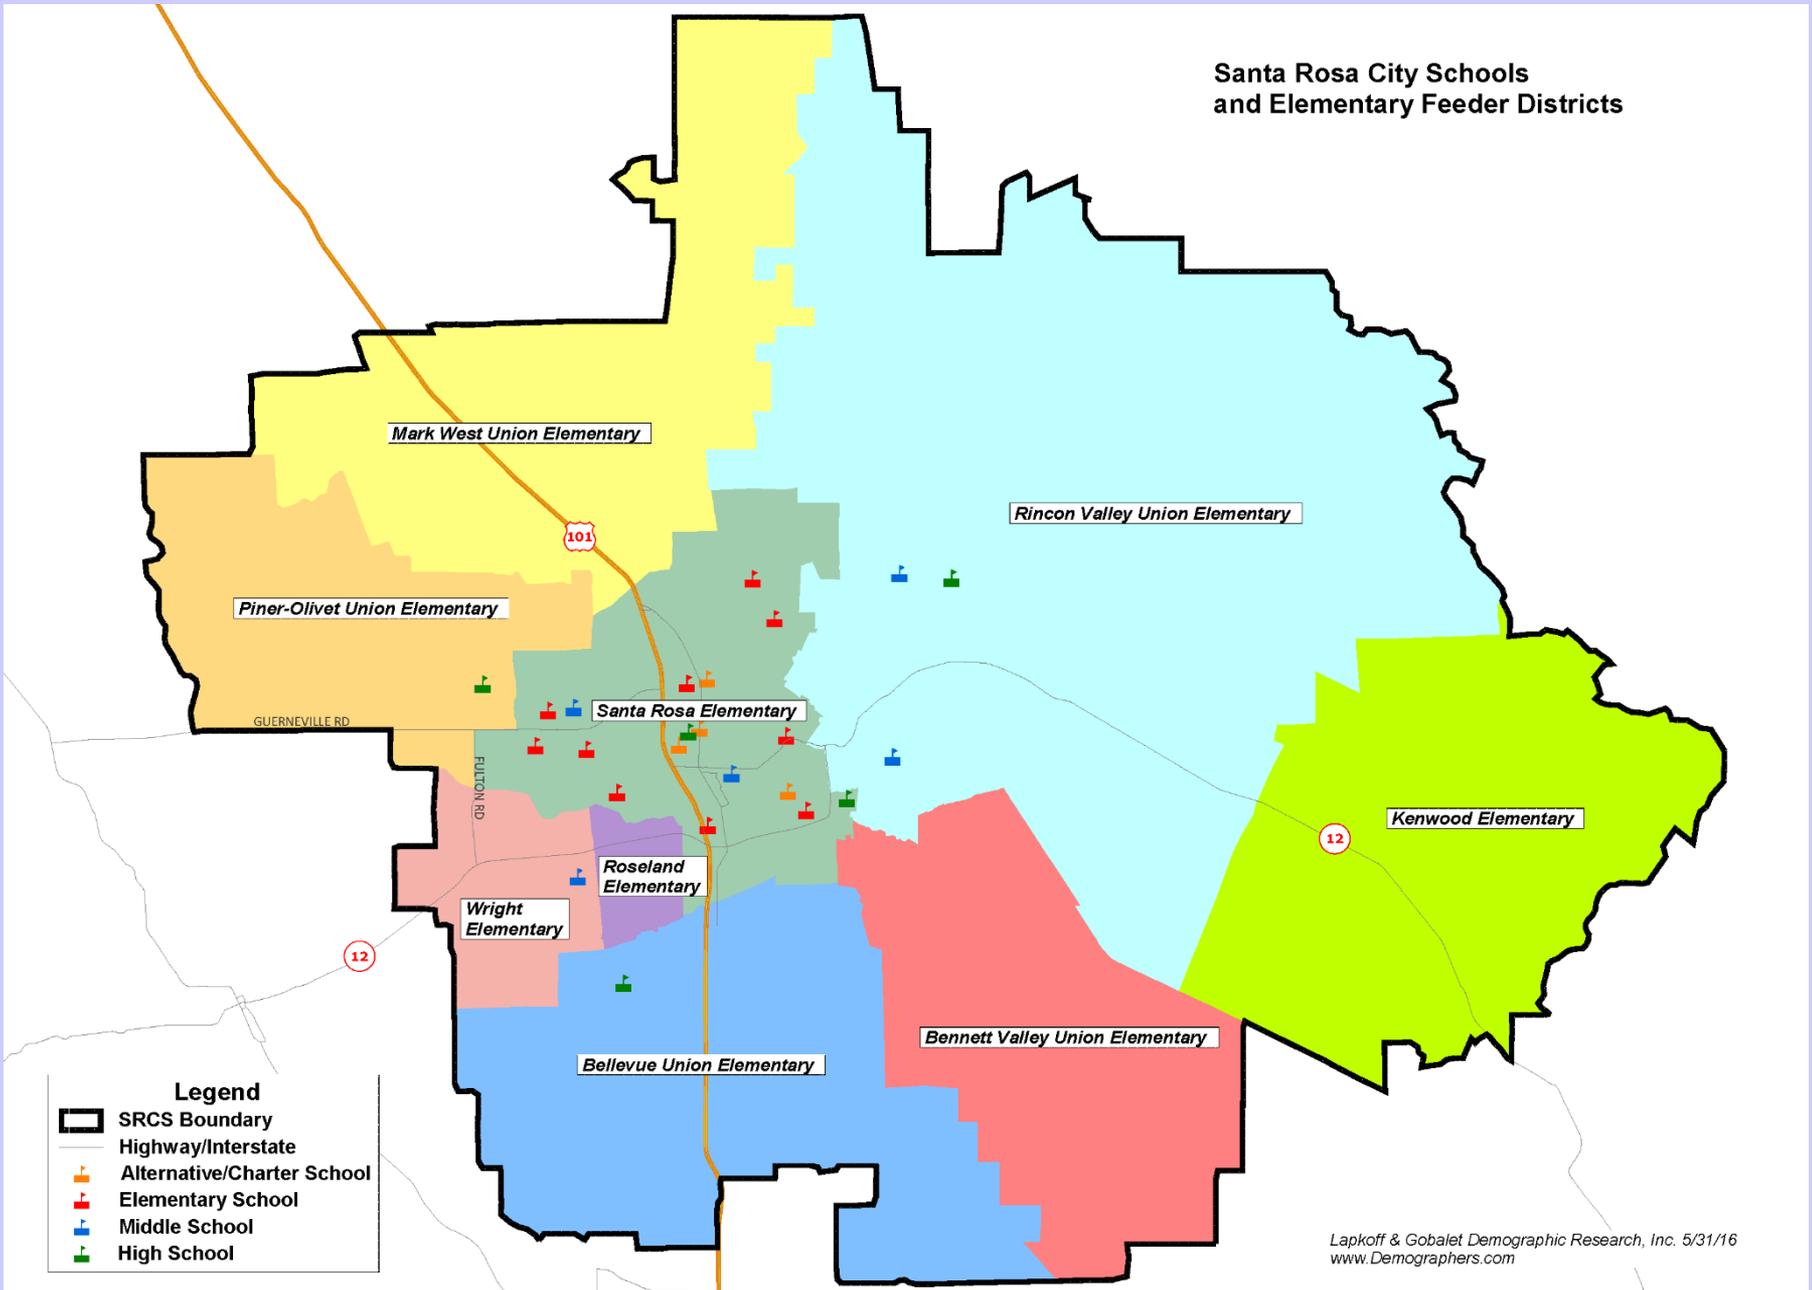

*Census 2010 count adjusted by using the local boundary for the district rather than the Census boundary.

Source: Census 2010 PL94-171 Redistricting data release

Percentages may appear to be incorrect because of rounding of the individual entries.

Background Information Required Districting Criteria

When trustee areas are created, they must be equal in total population:

- ✓ **Using latest U.S. Census data (2010 PL94-171 redistricting release)**
- ✓ **Each trustee area must have a proportionate share of the school district's total population**
- ✓ **There is a bit of leeway (up to 10% total deviation is permitted)**

Background Information

Required Districting Criteria

- ✓ **Jurisdictions must comply with Section 2 of the *federal Voting Rights Act*:**
 - ✓ **Single-member election districts should be drawn so that members of protected groups will have the ability to elect representatives of their choice if:**
 - ✓ the protected minority group is sufficiently large and geographically compact to constitute a majority in a single-member district
 - ✓ the protected group is politically cohesive
 - ✓ there has been a history of racially polarized voting
- ✓ **Under the *California Voting Rights Act*, there need to be single-member trustee areas:**
 - ✓ Even if the protected group is neither geographically compact nor politically cohesive.
- ✓ **Supreme Court Cases**
 - ✓ *Shaw v. Reno and other cases* held that race may not be the “predominant” factor when redistricting, unless there is a “compelling state interest.”

Background Information

Traditional Districting Criteria

(from the California Election Code)

- **Topography**
- **Geography**
- **Cohesiveness, contiguity, integrity, & compactness of territory**
- **Communities of interest include:**
 - **K-8 feeder districts**
 - **Cities**
 - **Socioeconomic groups (groups protected under the federal Voting Rights Act, income category)**

Background Information

Additional Factors Approved by the Courts

- **Respect for boundaries of political subdivisions (feeder district boundaries, city boundaries, precinct boundaries, etc.).**
- **Using whole pieces of Census geography (not dividing census blocks).**
- **Avoiding head-to-head contests between incumbents.**
- **Anticipating future population shifts.**
- **Respecting other criteria that address unique local concerns.**

Background Information

Another Consideration

Current trustees serve out their terms of office if the change to district election occurs. The new trustee areas are “phased in.”

Background Information

Future Considerations

After each decennial Census, California school districts that elect trustees by district must

- **Measure whether trustee area populations are disparate enough to make it necessary to revise boundaries (deviation exceeds 10%)**
- **If necessary, revise boundaries to comply with the requirements for**
 - **population equality**
 - **Federal Voting Rights Act**
- **Must complete redistricting by March 1, 2022 (after the U.S. Census Bureau releases 2020 Census redistricting data)**

Plan Development

We identified communities of interest (including population concentrations of groups protected by the federal Voting Rights Act)

All of the draft plans include a trustee area that maximizes Hispanic voting strength while respecting other criteria. The Hispanic-concentrated district is called TA 1 in all plans.

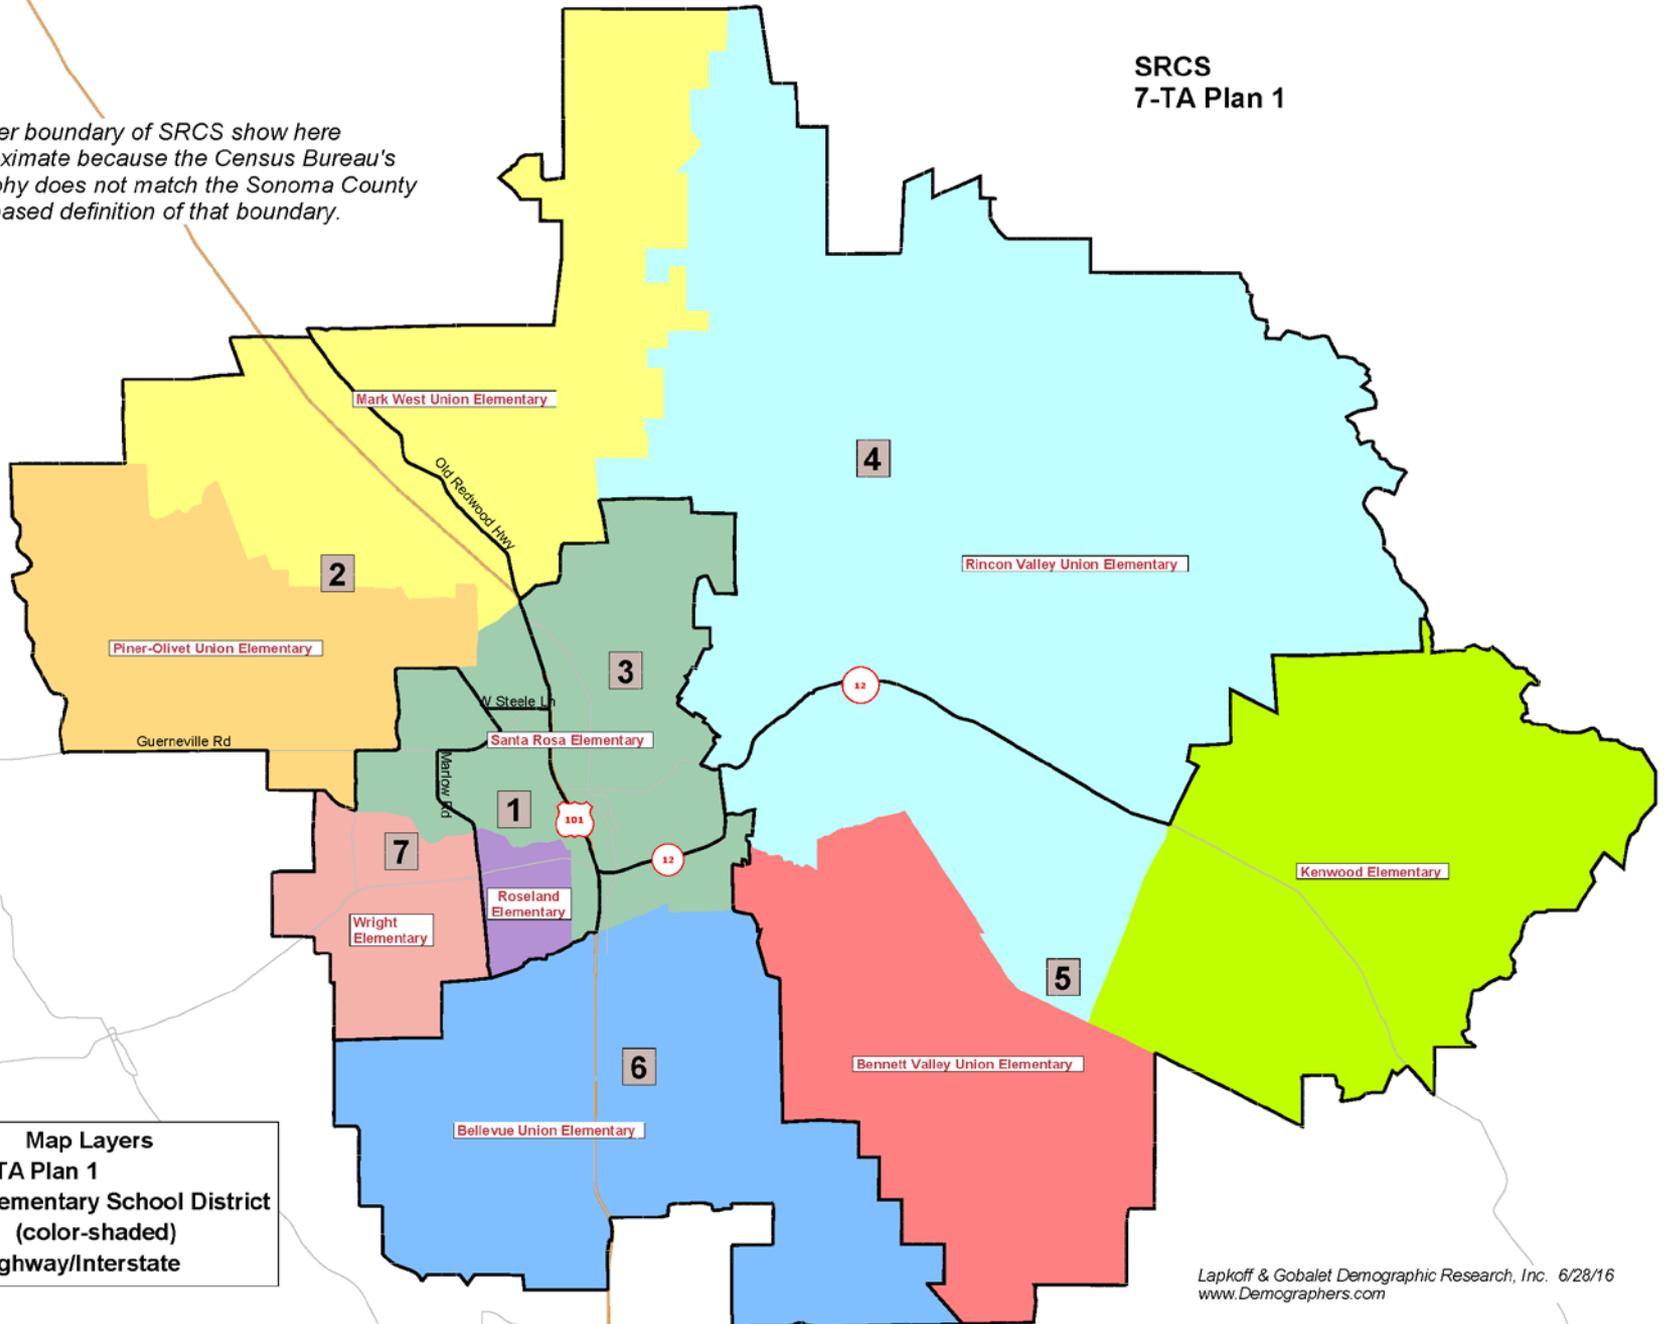

In Plans 1 (with 7- and 5-trustees), whenever possible, we kept feeder districts in a single trustee area.

In Plans 2 (with 7- and 5-trustees), we allocated a portion of SRED to each trustee area.

SRCS Preliminary Draft Plan: 7-TA Plan 1

The outer boundary of SRCS show here is approximate because the Census Bureau's geography does not match the Sonoma County parcel-based definition of that boundary.
