D. Discussion/Action

Discussion:

California Healthy Kids Survey – There was in-depth conversation regarding attitudes toward drugs and vaping. While there are programs in place to deter students from using drugs and tobacco products, there is a need to track and measure success.

Goals and Actions – We started to look through Goal 1 but ran short on time. We will pick up where we left off at the next meeting. The suggestion was made to add an Action Item to Goal 3 of the LCAP to address substance use issues as well as assess and evaluate the effectiveness of such a program.

There was further discussion regarding overall data use to determine two or three areas of need that can be really focused upon. The use of “strategic” vs “operational” planning was discussed with the idea to build common understanding and implementation.

Discussion involving the Technology department’s vision. It was stated that the Technology Advisory Committee meeting is open to anyone who is interested. Their next meeting is scheduled for Thursday, February 22, 2018 at 3:30 pm in the Board Room at Malaga Cove.

Next Steps: Goals 2 and 3 will be sent to committee members for preview prior to the next meeting.

E. Adjournment
