

Manage progress toward your most important goals.

Mosaic District Progress Monitoring provides a curated view of your district's results in real-time so that you can manage progress toward your most important goals.

Align your team & track your progress in real time.

- ▶ Clearly define success for your schools with configurable goals
- ▶ Use state accountability-aligned indicators to keep progress in context
- ▶ See results by student group to identify what is working and how to best support all students

Make data-informed decisions that improve outcomes.

- ▶ Strengthen your cabinet meetings with holistic data on all of your most important goals
- ▶ Drill down to the school or student level within three clicks so you can quickly investigate hypotheses and target resources for impact
- ▶ Enable school leaders to track their results in real-time and make data-informed decisions that drive continuous improvement

Show results with visuals anyone can understand.

- ▶ Showcase your progress with interactive district report profiles that highlight growth trends over time
- ▶ Engage parents with holistic student profile reports that highlight the strengths, development areas, and overall progress of their child
