#### District's Vision

"In order to empower students as co-creators of their own learning, the Millbrae School District commits to implementing the Common Core State Standards by engaging students in contemporary and authentic learning which propels them toward college and career readiness in preparation for active leadership in our global society."

#### **Executive Summary**

The Executive Summary is an overview of the financial data reported to the County of San Mateo Office of Education in the Standardized Account Code Structure (SACS) format. The following data and related exhibits are intended to assist all readers in understanding the information as reported.

The Millbrae School District financial status is comprised of three major components: (1) Fund Balance (Ending and Beginning Balance); (2) Revenues; and (3) Expenditures. The overall financial goal for the district is to maintain an appropriate level of reserves, maximize district revenues and expend district resources in areas achieving the highest educational value

Education Code 42300 requires California school districts to report its financial data twice a year. This report is referred to as the "Interim Report." The First Interim Report shall reflect changes to the board approved budget from July 1, 2016 through October 31, 2016: The Second Interim financial report shall reflect and report changes to the board approved budget from July 1, 2016 through January 31, 2017.

In addition to the Interim Reports, the District submits a Multiple Year Projection (MYP) report. These report examines the District's enrollment, spending pattern, ending fund balance, and reserve for economic uncertainties for the current fiscal year (FY 2016/2017) and the two (2) subsequent years (FY 2017/2018 & FY 2018/2019).

The objectives of reports are:

- 1. To provide a review of the District's financial condition at periodic intervals during the fiscal year.
- 2. To provide a status report to the Board of Education and the public of the financial condition of the District.
- 3. To determine necessary budget revisions as a result of current or projected financial information

#### **CERTIFICATION**

Based on the information contained in this report, the District's Board of Trustees must certify as to whether the District will be able to meet its financial obligations for the remainder of the current fiscal year (FY 2016/2017) and for the two (2) fiscal years following (FY 2017/2018 & FY 2018/2019).

The intent of the MYP report is to certify the District's ability to meet its financial obligations. The District will issue one of the following certifications:

- ➤ <u>Positive Certification</u>: The District **WILL MEET** their financial obligations for the current and two (2) subsequent fiscal years, OR
- ➤ Qualified Certification: The District MAY NOT MEET their financial obligations for the current or two (2) subsequent fiscal years, OR
- ➤ <u>Negative Certification</u>: The District **WILL BE UNABLE TO MEET** their financial obligations for the remainder of the current year or subsequent fiscal years based upon current projections (not meeting reserves in current year or negative fund balances in any year)

#### RECOMMENDATION

It is recommended that the Board:

- 1. Give a positive certification to the County Superintendent that the District can meet its financial obligations through the end of the fiscal year and for the subsequent two years.
- 2. Approve the budget revisions listed in the projected year totals.

#### **Financial Report Information:**

The District's Budget and Accounting format are based on the California School Accounting Manual (CSAM) and utilize the Standardized Account Code Structure (SACS). Accounting is the fiscal information system for business. The District's accounting, referred to as Governmental Accounting, is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitation.

#### General Fund (Fund 01)

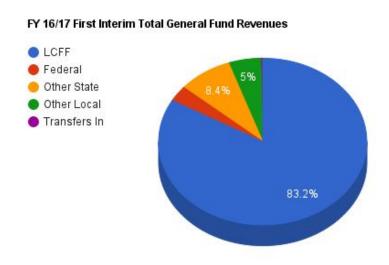

The General Fund is the main operating fund for the District. It is used to account for the ordinary operations of the District. All transactions, except those required or permitted by law to be in another fund, are accounted for in this fund. The General Fund consists of unrestricted and restricted funds

- ➤ General Fund, Unrestricted accounts for projects and activities that are funded with unrestricted revenues.
- ➤ <u>General Fund, Restricted</u> accounts for projects and activities that are funded by external revenue sources that are legally restricted or restricted by the grantor for specific purposes..

#### **Multi-Year Projections:**

The Multi-Year Projection (MYP), a required component of budget development and demonstrates the requirement that the District will meet its financial obligations in the current and subsequent two years. The Multi-Year Projection also indicates the District's ability to maintain the required reserve for economic uncertainties for the current and subsequent two years. The Multi-Year Projection for the First Interim Report has been created by utilizing recommendations from the School Service of California's Dartboard, San Mateo County Office of Education's Common Message and Fiscal Crisis Management Assistance Team's (FCMAT) LCFF calculator.

Listed below are highlights of the assumptions used for the MYP. Attached is the MYP Budget assumptions for FY 2016-17 1st INTERIM as submitted to San Mateo County Office of Education.

#### **Enrollment vs. ADA Trends**

The most significant characteristic for determining District income is the calculation of the average number of students who are in school and in attendance on a daily basis. This average daily attendance, or ADA, is multiplied by the District's LCFF rate per ADA to determine the total income for the District.

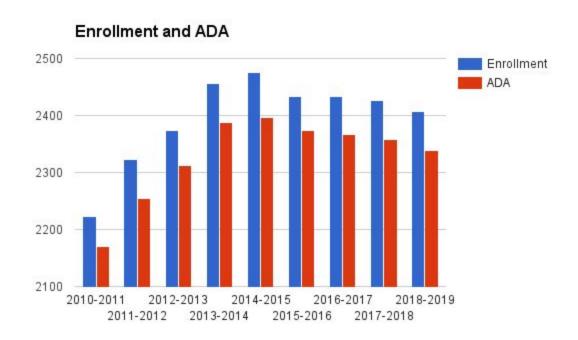

Since ADA is such an important part of the District's income base, the projection of ADA for the next fiscal year and subsequent years is an important part of projecting the District's income. Even small fluctuations in the District's ADA can mean a gain or loss of tens of thousands of dollars in income. District attendance records are monitored monthly and ADA is updated throughout the year to ensure that the projected LCFF income matches the District's budgeted or revised projections.

Enrollment is reported each October. The Average Daily Attendance (ADA) is prepared to the State three (3) times during the fiscal year.

- → P1 1st period: The average attendance over the first four (4) months of school,
- → P2 2nd period: The average attendance for the first eight (8) months of school,
- → Annual: The average attendance for the entire school year.

Public schools are the only agencies that receive income based on the population they serve. Cities or counties, as an example, do not have either increases or decreases in their revenue based on the number of citizens in their community. Public schools, however, receive most of their income based on attendance. The state does not pay the District for enrollment—just attendance. Therefore of the costs of setting up the instructional program will be a loss unless the student attends every day.

The following chart illustrates the School District's enrollment and ADA over the last 6 years and estimated current plus 2 years out.

This fund is used primarily to account separately for moneys received from fees levied on development projects as a condition of approval (*Education Code* sections 17620–17626 and *Government Code* Section 65995 et seq.). The authority for these levies may also be county or city ordinances (*Government Code* sections 65970–65981) or private agreements between the LEA and the developer. Interest earned in the Capital Facilities Fund (Fund 25) is restricted to that fund (*Government Code* Section 66006).

Expenditures in Fund 25, Capital Facilities Fund, are restricted to the purposes specified in *Government Code* sections 65970–65981 or *Government Code* Section 65995 et seq., or to the items specified in agreements with the developer (*Government Code* Section 66006). Costs of justifying and adopting fees may be paid from Fund 25 (*Education Code* Section 17620). Administrative costs of collecting fees may be reimbursed from Fund 25 within the limitations of *Education Code* Section 17620. Eligible expenditures incurred in another fund may be reimbursed to that fund by means of an inter-fund transfer of direct costs (see Procedure 615).

#### **Guidance from San Mateo County Office of Education**

The level of LCFF funding is subject to economic conditions as well as political decisions by the Governor and Legislature. Under the LCFF there are not State statutes that specify an annual appropriation to the the LCFF. Therefore, the annual LCFF entitlement will be determined by "any available appropriations": (Ed code 42238.03 (b) (3)) Therefore adequate reserves will be crucial to guard against fiscal volatility. Continued cooperative efforts and sound decision making by the Board and staff will be key to the District's long-term financial health.

The following comments were extracted from San Mateo County Office of Education's letter dated September 15, 2016 <u>Adopted Budget - Fiscal Year 2016-2017</u> letter:

- SMCOE is concerned about the growing deficit in the Unrestricted General Fund. The district needs to monitor and identify measures to address deficit spending and maintain its fiscal health.
- In the projection years, funding growth is expected to be limited as target funding approaches. (LCFF gap funding)
- It is critical the district makes effective use of one-time funding: Support on-going expenditures with on-going revenues (independent of one-time funds).
- District employer contributions to retirement benefits are scheduled to rise. Additionally, consider increases to rising health care costs and the ongoing implementation of the Affordable Care Act.
- Exercise caution and maintain flexibility in the collective bargaining process.
- Maintain reserves much greater than the minimum requirement.

#### **Next Steps**

As stated in the introduction, this report is intended to provide information to assist all readers of the District's First Interim Report for fiscal year 2016-2017 and the Multi Year Projection (MYP) report. In the projection years, funding growth is expected to be limited as target funding under the LCFF implementation approaches. Additionally, employer contributions to retirement benefits are scheduled to rise along with other costs. Special attention must be paid to future year projections and the contributing factors both within and outside of the District's decision makers. To maximize success, Millbrae School District will need to make deliberate use of resources and, collectively, prudent fiscal decisions will need to be made as requirements to improve academic performance increase.

In January the Board will be considering the implication of the Governor's budget proposals and new State Budget announcements, and will be working toward policy level decisions that will guide the development of the budget for FY 2017-2018 and beyond. The 2nd Interim Report will be presented to the Board in March of 2017.
