Question 2 feedback highlights some areas where refinement is suggested. I have made note of the suggestions on the summary of feedback for this question.

Question 3 feedback also highlights some suggested new implementation items. There were responses this year that scored higher than they have in previous years:

- PE Specialist - dropped from 11 to 9 to 6
- Sports - elementary after school, smaller scale than private organizations - 9
- After school tutoring - 8
- Clubs - 8
- All other feedback recommendations had 6 or less responses.

Three additional documents provide individual responses for each of the three questions.
