

# A Cutting Edge Education With Cutting Edge Curriculum

The Online Curriculum Adoption committee is recommending that PRJUSD approves Edgenuity as the online curriculum provider for the district. After careful consideration, presentations by APEX and Edgenuity, and group discussions about advantages and disadvantages of each program, the committee determined Edgenuity would provide the best opportunity for our students.

Edgenuity provides several features that APEX could not offer. Edgenuity has a full range of courses from 6th grade through 12th grade covering both core classes and electives. The courses include teacher lectures, interactive activities, reading and writing that will prepare our students for success in career, college and as productive members of our community. Edgenuity also provides test-prep courses as well.

By approving the attached proposal, our district students will have far greater access to online courses and will be better prepared to access online courses for college or career training in the future.

## **Online Curriculum Adoption Committee Meeting Schedule/Summary**

#1: November 8, 2016

- Introductions
- Explanation of the online academy
- Set up company presentations from APEX and Edgenuity

#2: November 29, 2016:
