

BP 1113

Community Relations

Official District and School Web Sites

To enhance communication with students, parents/guardians, staff, and community members, the Governing Board encourages the Superintendent or designee to develop and maintain district and school web sites. The use of district and school web sites shall support the district's vision and goals and shall be coordinated with other district communications strategies.

Design Standards

The Superintendent or designee shall establish design standards for district and school web sites in order to maintain a consistent identity, professional appearance, ease of use and accessibility standards.

Guidelines for Content

The Superintendent or designee shall develop content guidelines for district, school and program web sites and shall assign staff to review and approve content prior to posting.

Privacy Rights

The Superintendent or designee shall ensure that the privacy rights of students, parents/guardians, staff, Board members, and other individuals are protected on district and school web sites.

Telephone numbers and home and email addresses of students and/or their parents/guardians shall not be published on district or school web sites.

Because of the wide accessibility of the Internet and potential risk to students, photographs of individual students shall not be published with their names without the prior written consent of the student's parent/guardian.

Photographs of groups of students, such as at a school event, may be published provided that students' names are not included.

Staff members' home addresses or telephone numbers shall not be posted on district or school web sites.
