**I-Ready Data: Grade 5 Standard Detail**

Domain	Standard	Skill	School Average score	% proficient	%Students progressing towards proficiency	% Students beginning to progress towards proficiency
Language	L.5.5	Figurative Language and Word Relationships	87%	94%	5%	2%
Language	L.5.4	Context: Roots, and Reference Materials	72%	68%	30%	2%

**Summary:** The above results were from the most recent assessment in fifth grade and shows how students are progressing towards their mastery of grade level standards. The scores are promising as they show a high % rate of students who are already at proficient in Standard L.5.5 and L.5.4. We were very pleased that the number of students who were far below was at 2% in both standards. Our students in fifth grade are utilizing I-ready reading and the Ready workbook in addition to certain select chapter books to support their ELA instruction. The fifth grade team has partnered collaboratively to design a rigorous Common Core aligned program to meet all their students' diverse needs.
