Dear Bob,

We are please to submit this proposal to provide additional services for the Borel Middle School, and Park Elementary School.

SCOPE OF SERVICES

As directed by the district and reviewed by our structural engineer at a recent site visit the path of travel along the front of existing building "G" will be made accessible through the addition of a new stair lift and modifications to existing conditions where we are introducing a stair lift will be redesigned. This includes a new layout and design of the stair, landings, and coordination with the lift manufacturer. These documents are to be submitted to DSA and CCD for approval. We have included C.A. and closing of project services.
