

**Pleasanton Unified School District**  
**Public Notice**  
**Procedures for Disposal of Obsolete Textbooks and Instructional Materials for**  
**Grades K-12**  
**2018-2019**

1. The Board of Education declared on May 7, 2019 , that the current adopted California Science textbooks and instructional materials will be obsolete at the close of the 2018/19 school year and approved disposal of these materials. Needed materials for students enrolled in Summer School 2019 will be maintained until the program concludes on July 18, 2019. This Public Notice regarding the disposal will be posted in at least three locations, including on the PUSD website, until June 15th (over 30 days).
2. At the close of the 2018/19 school year, site staff may make these materials available to students, parents/guardians, and community members. Information on the logistics (date, time, and location) of the release of obsolete textbooks and materials will be made public in advance. Donated materials must be labeled “obsolete” or “discard” before they are released to the public. Stamp, printed labels, or marker may be used to label books obsolete.
3. It is the responsibility of the school site to box remaining obsolete materials for recycling pick up and have boxes/pallets ready for pick up in the site’s designated area. Materials set to be recycled do not need to be labeled “obsolete.” Boxes will be ordered for school sites. If needed, additional boxes can be requested through the Media Services Department for this purpose.
4. Joanne Dumanski, Library/Media Technician, will arrange for a recycling pick up of all obsolete materials and notify school sites of the pick up dates. Please contact Joanne at 925-426-4430, or Jonathan Green, Executive Secretary for Curriculum and Instruction, at 925-426-4328.

**Obsolete Science Instructional Materials  
End of 2018-19 School Year**
