Royal King
Scope of Work

Royal King and Associates will provide Music and Dance programs that are tailored to the specific community depending on the needs and focus of the administration of that school. Each grade level will learn and produce different dances based on modern and partner standards from a regional to international perspective while considering students' motor skills level. The culmination performance highlights the effort and development of the students' achievement. California state standers for physical education will be implemented and surpassed at each grade level.

The following schools will be provided the music and dance program with 1-2 instructors. Cost is based on the amount of students and programs selected.

The music and dance program will be scheduled at sites within the time periods listed below.
