

LCFF Budget Overview for Parents

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

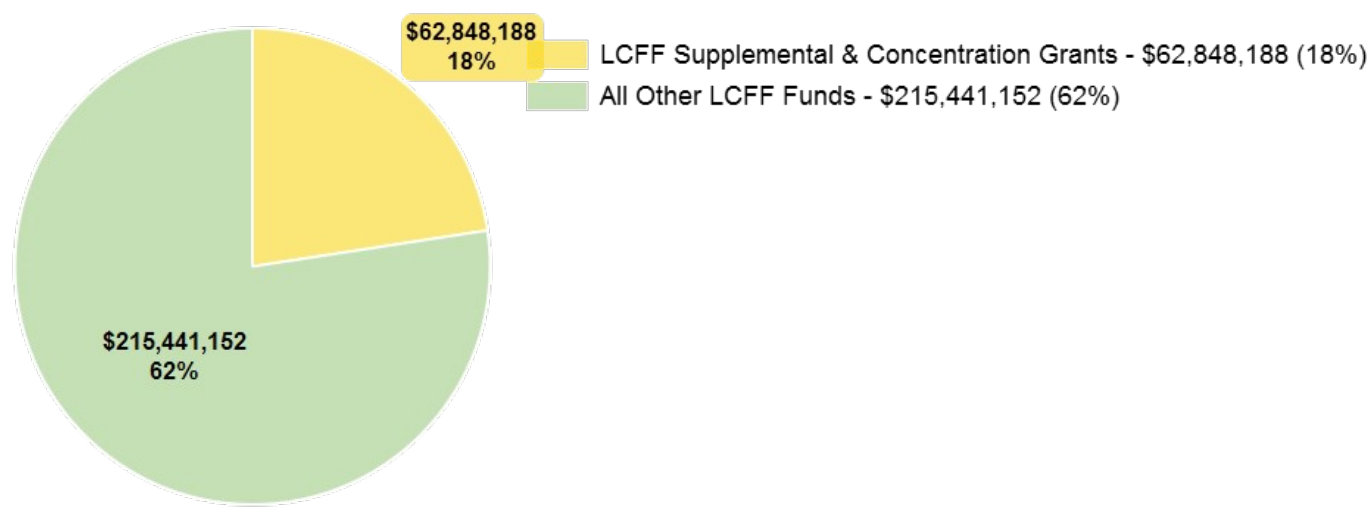

Budget Overview for the 2019-20 LCAP Year

Projected Revenue by Fund Source

Source	Funds	Percentage
All Other State Funds	\$41,233,701	12%
All Local Funds	\$3,478,719	1%
All Federal Funds	\$24,405,604	7%
Total LCFF Funds	\$278,289,340	80%

Breakdown of Total LCFF Funds

Source	Funds	Percentage
LCFF Supplemental & Concentration Grants	\$62,848,188	18%
All Other LCFF Funds	\$215,441,152	62%

These charts show the total general purpose revenue Twin Rivers Unified expects to receive in the coming year from all sources.

The total revenue projected for Twin Rivers Unified is \$347,407,364, of which \$278,289,340 is Local Control Funding Formula (LCFF), \$41,233,701 is other state funds, \$3,478,719 is local funds, and \$24,405,604 is federal funds. Of the \$278,289,340 in LCFF Funds, \$62,848,188 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures

Source	Funds
Total Budgeted General Fund Expenditures	\$345,709,961
Total Budgeted Expenditures in LCAP	\$305,143,127

This chart provides a quick summary of how much Twin Rivers Unified plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Twin Rivers Unified plans to spend \$345,709,961 for the 2019-20 school year. Of that amount, \$305,143,127 is tied to actions/services in the LCAP and \$40,566,834 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

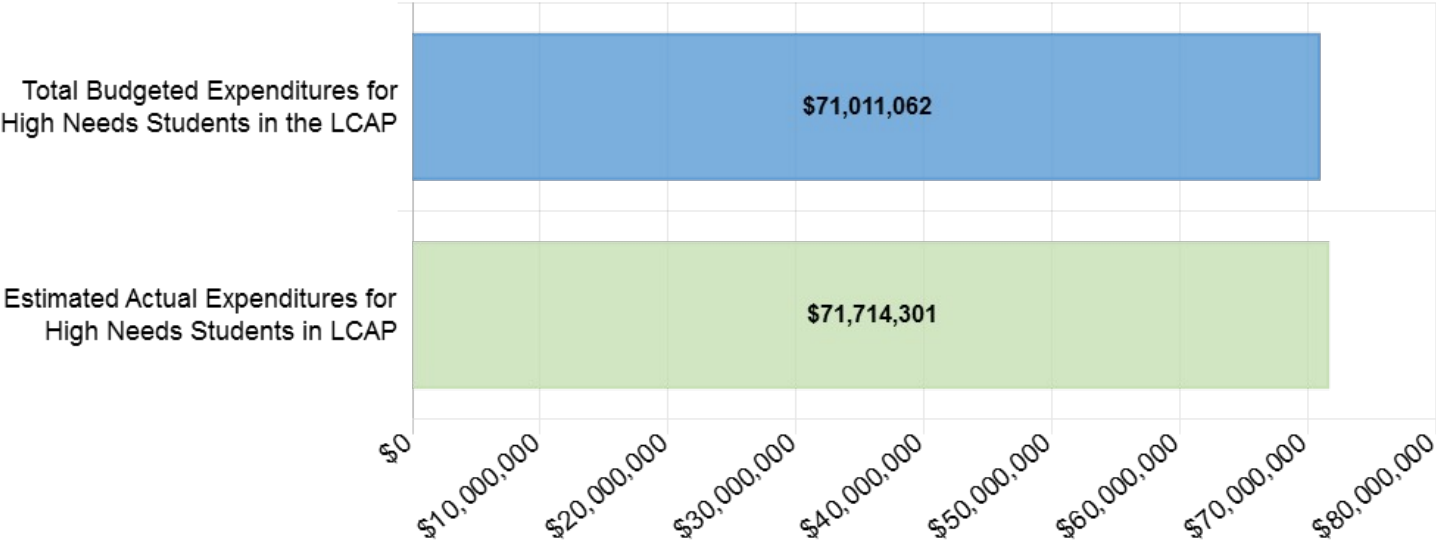

The LCAP initiatives (actions and services) include 88% of TRUSD's general fund budget expenditures. The budget expenditures not listed in the LCAP are mostly Federal and State categorical programs.

Increase or Improved Services for High Needs Students in 2019-20

In 2019-20, Twin Rivers Unified is projecting it will receive \$62,848,188 based on the enrollment of foster youth, English learner, and low-income students. Twin Rivers Unified must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP Twin Rivers Unified plans to spend \$75,642,878 on actions to meet this requirement.

Update on Increased or Improved Services for High Needs Students in 2018-19

Current Year Expenditures: Increased or Improved Services for High Needs Students

Source	Funds
Total Budgeted Expenditures for High Needs Students in the LCAP	\$71,011,062
Estimated Actual Expenditures for High Needs Students in LCAP	\$71,714,301

This chart compares what Twin Rivers Unified budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Twin Rivers Unified estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Twin Rivers Unified's LCAP budgeted \$71,011,062 for planned actions to increase or improve services for high needs students. Twin Rivers Unified estimates that it will actually spend \$71,714,301 for actions to increase or improve services for high needs students in 2018-19.

Local Control Accountability Plan and Annual Update (LCAP) Template

- LCAP Year:** 2019-20
- Addendum: General Instructions & regulatory requirements.
 - Appendix A: Priorities 5 and 6 Rate Calculations
 - Appendix B: Guiding Questions: Use as prompts (not limits)
 - LCFF Evaluation Rubrics: Essential data to support completion of this LCAP. Please analyze the LEA's full data set; specific links to the rubrics are also provided within the template.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

Twin Rivers Unified School District has an unwavering commitment to every student's journey to ensure all students graduate college and career ready. Today we are the 27th largest public school system in California—pre-K - 12 and adult education.

The district serves nearly 28,000 students (preschool, kindergarten through 12th grade and adult education) in northern Sacramento County who come from families that speak 47 different languages. We are proud to include among our 3,243 employees the 2011 California Teacher of the Year and the 2010 California Classified School Employee of the Year.

Our district includes 51 school sites—29 elementary, 5 middle, 4 comprehensive high schools, 7 charter sites and 6 alternative schools.

Twin Rivers serves an 82 square mile area covering the communities of Arden Fair, Del Paso Heights, Dos Rios, Elverta, Foothill Farms, Gardenland, McClellan Park, Natomas, Northgate, North Highlands, North Sacramento, Robla, Rio Linda and Woodlake.

Mission: To inspire each student to extraordinary achievement every day.

Vision: An unwavering focus on powerful and engaging learning that prepares students for college, career, and life success.

English Learners:
27% English Learners
46 languages spoken

Student Demographics:
45% Hispanic/Latino
22% Caucasian
15% African American
9% Asian
6% two or more races
2% Pacific Islander
1% Native American

Schools:
29 Elementary Schools

5 Junior High Schools
4 Senior High Schools
3 Charter schools operating on 7 sites
1 Adult Education Program
1 Independent Study High School
2 Continuation High Schools
2 Special Education Schools
18 Preschool sites

Points of Pride:

Increased Graduation Rate: 84.4% exceeds county and state averages)
8 gold ribbon schools
Largest deployment of electric school buses in the country (16)
Championship boys and girls athletics programs
21 Career Technical Education (CTE) programs
5 California Partnership Academies
9,684 district wide student field trips in 2016/2017 continued in 2017/2018 (grades 3-6)
135 students have earned the State Seal of Biliteracy
750 K-12 students participated in the Festival of the Arts
2016 California Model Continuation High School—Pacific Career and Technology High
29 schools received 2015 Healthier US School Challenge Awards
2 schools received State Civic Learning Award of Merit—CCAA, Rio Linda Prep
21 Del Scholars since 2008
College Board's Gaston Caperon Opportunity Honor Roll 2015
Meritorious Budget Award for Excellence for the 6th consecutive year (ASBOI)
2013 National Community Schools Award for Excellence Winner—Harmon Johnson
3 California Teachers of the Year (2011, 2003, 1998)
2010 Classified Employee of the Year
32 Sacramento County Classified School Employees of the Year
2 Kennedy Center for Performing Arts Partnerships
Award winning Criminal Justice Academy
College readiness program AVID (Advancement Via Individual Determination)
Model SARB
34 expanded learning sites
3 students per device
3,000 employees
52 National Board Certified Educators

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

Our LCAP features actions and services that follow the Twin Rivers Strategic Framework as we work toward our 5 goals. Through the use of collaboration (PLC's), professional development, and the implementation of rigorous yet engaging expectations and services for our students, we have been able to create an atmosphere of nurturing and academia which is conducive to student achievement, as we

work to close the achievement gaps and eliminate any disproportionalities.

Twin Rivers LCAP goals are:

1. Increasing Academic Achievement/ Decreasing Disproportionalities
2. College and Career Readiness
3. Improve Culture and Climate through Increased Student Engagement
4. Increase Parent Engagement
5. Provide Facilities that are Clean, Safe, and Conducive to Learning

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

We are most proud of the all student growth in Math and English Language Arts on the California State assessments. All student Math performance grew by 2.83% and our English Language Arts all student performance also grew by a total of 4.25%. This level of growth surpassed the State and local Sacramento County averages and was seen across our student sub groups including Low Income, English Learners, and Foster Youth which were marked as Yellow on the Dashboard indicating that they maintained growth along with our school district. As a Title 1 School District we pride ourselves in being a data-driven system that is dedicated to serving the needs of all of our students and we will continue to make improvements to the instructional program we offer our students by analyzing and responding to the data we receive from the State as well as our local benchmark indicators.

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

Based on the LCFF Evaluation Rubrics, the state indicators that are orange or below are; Chronic Absenteeism, Suspension Rate, and the Math academic indicator. The current district ELA status is 44.5 points below standard, with a change of +6.8 points, which is in the increased category. Looking further into the student group view, the African American student group is listed as red and the Asian, Homeless, Students with Disabilities and White student groups are listed as Orange. The current district Math status is 69 points below standard, with a change of +2.4 points, which is in the maintained category. Looking further into the student group view, the African American and the Students with Disabilities student groups are listed as red and the Asian, English Learners, Foster Youth, Homeless, Two or More Races,

Pacific Islander, Socioeconomically Disadvantaged and White student groups are listed as orange. The district suspension rate is 8.5%, which is high, with a decrease of -0.7%, which is listed in the maintained category. We have been identified as a district that is eligible Differentiated Assistance due to the performance of our African American and Students with Disabilities student groups. We are working with the Sacramento County Office of Education and we are utilizing our district administrative Summit and goal setting processes to focus our efforts. Through this work we recognize the critical needs of each school site and district department and we review our data and provide ongoing coaching and support for school sites and departments throughout the school year. This work helps to build upon strengths or relative strengths in an effort to improve our areas of weakness. We are also implementing district systems of support through the implementation of the Safe and Civil Schools, CHAMPS and Discipline in the Secondary Classroom programs. As well we are providing support for staff to ensure we are fully implementing our newly adopted materials for ELA/ELD and math; including program materials for our students with disabilities. Throughout this work we are also utilizing our district dashboard and local assessments to identify, support and monitor students in need of ELA and math intervention. This work will impact our district system to improve the support we provide teachers and school sites resulting in an increase in the achievement.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

Our district all-student ELA indicator is listed as yellow and the African American student sub group is listed as red which is two performance levels below All Students. In Math we do not have any subgroups that are two or more levels below the All Students sub group. The All Students math performance is listed as Orange.

We are a data driven school district and are intently focused on our areas of need. We are also working with the Sacramento County Office of Education for Differentiated Assistance and we are utilizing our district administrative Summit and goal setting processes to focus our efforts. Through this work we recognize the critical needs of each school site and district department and we review our data and provide ongoing coaching and support for school sites and departments throughout the school year. This work helps to build upon strengths or relative strengths in an effort to improve our areas of weakness. We are also implementing district systems of support through the implementation of the Safe and Civil Schools, Champs and Discipline in the Secondary Classroom programs. As well we are providing support for staff to ensure we are fully implementing our newly adopted materials for ELA/ELD and math; including program materials for our students with disabilities. Throughout this work we are also utilizing our district dashboard and local assessments to identify, support and monitor students in need of intervention. This work will impact our district system to improve the support we provide teachers and school sites resulting in an increase in the achievement.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

The following schools have been listed for Comprehensive Support and Improvement (CSI); Del Paso Heights Elementary School, Frederick Joyce Elementary School, Northwood Elementary School, Oakdale Elementary School, Harmon Johnson Elementary School, Martin Luther King Jr. Technology Academy Middle School, Elwood J. Keema High School, Pacific Career and Technology High School, and NOVA Opportunity School.

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

As a data driven school district we are intently focused on our Comprehensive Support and Improvement (CSI) Schools. We have applied for the additional Federal CSI Funding for each of these schools and will be using these additional resources to directly address the areas of identified weakness at each site. We are analyzing each school individually to locate their leverage points by focusing on any relative areas of strength which we will use to launch the start of our work. For the CSI schools we are providing additional planning, monitoring, and reporting structures including additional district administrative Summit updates as well as by providing additional coaching for the school site staff and site leaders. This work is supported through the joint and collaborative efforts of the Educational Services Department and the School Leadership Department.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

To support our CSI schools we have set up monitoring systems within our School Leadership and Educational Services Departments to ensure CSI school data is shared with district and site leadership on a ongoing basis to ensure we are moving in a positive direction with the academic and social-emotional performance indicators. Throughout this intensive work we are heavily focused on our District dashboard and local assessments to identify, support and monitor areas in need of intervention. This additional work impact our district system to improve the support we provide to the staff, students, parents, and community which will result in an increase in student achievement and success.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The overall implementation of goal 1 has been successful. There are numerous actions and services that we can be proud of as they've provided additional services and support for the academic achievement of our students. The MTSS initiative has continued at 10 school sites and is showing positive progress. Significant professional development has been offered on a variety of topics including two super saturday workshops as well as an additional safety focused day of learning.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Many of the actions and services of goal 1 have been effective. We continue to implement new curriculum utilizing best practices to support our staff and students. We have added a new LAB ELA model initiative to develop high quality lessons that are uniquely developed for the Twin Rivers K-8 staff.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

1.1 PLC specialist funding was less than expected

1.4 Increases due to unexpected training and planning costs

1.6 Increase due to change in certificated contract (March 5th, 2019 Board meeting). Teacher contract created a new base by increasing from 32 students to 34 students for TK - 6th grade, thus increasing the amount of teacher salaries to charge to S/C funds; class sizes were not increased.

1.7 Increase for Math Extreme Learning and upcoming summer programs.

1.20 Decrease; is within the 1.6 increase, \$1 million from three dependent charter S/C funds, and closed one classified management position and one open classified position due to declining enrollment and to assist with alleviating deficit spending.

1.21 Increase due to increased special education population and cost of service agreements.

1.25 Decrease; math adoption payment to be spread over three years instead of all in one year.

1.27 Increase: due to the behavioral needs of students in the general education setting.

1.28 Decrease; hired 5 instead of 10 positions. Anticipate to have 9 positions (with a different job title) for 2019/20.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Goal 1

1.6 Teacher contract created a new base by increasing from 32 students to 34 students for TK - 6th grade, thus increasing the amount of teacher salaries to charge to S/C funds; class sizes were not increased. (March 5th, 2019 Board meeting).

1.11 Centralized funding for this program will be discontinued in 2019-20 however sites may continue to fund locally

1.12 The program will be reduced from 5 FTE to 3 FTE Special Education TOSAs

1.14 The MTSS initiative will increase support to 5 additional sites for 19-20 and the universal screener support through iReady will be expanded to 29 elementary and K-8 school sites. No additional staffing positions will be added.

1.20 Reductions in FTE will take place for 2019-20 due to deficit spending

1.21 Twin Rivers is in the process of becoming it's own Special Education Local Plan Agency (SELPA). Due to this change we will receive funds directly from the state and thus will increase both the revenues and expenditures.

1.24 Additional staff will be provided in 19-20 with 4th grade service being added.

1.27 We will continue the additional support from our behavioral specialists to support our students.

1.28 A new job description was approved for the ELA Lesson Design Teacher. This position replaces the work previously completed by the LAB teachers.

1.29 6 additional PBIS sites will be added in 2019-20. No additional staffing positions will be added.

Goal 2

Ensure all Students Graduate College and Career Ready

3.19) .

This year the additional Behavior Coordinator was added to support students that had previously attended Pathways Community Day School and general education students.

Elementary counselors continue with the monthly PLC and have developed monthly themes to ensure consistent services throughout the district.

Elementary counselors continue to receive professional development on the topics of suicide prevention how to conduct social emotional groups human trafficking and CHAMPS management support.

Action 4**Planned Actions/Services****Actual Actions/Services****Budgeted Expenditures****Estimated Actual Expenditures**

Planned Actions/Services

The basic school counseling ratio is changed to: High School- 700:1, Middle School- 750:1 to meet the academic and socio-emotional needs of students. Alternative education sites also receive counseling services. The cost of the basic counseling services are a part of 1.20.

Supplemental services will continue to reduce counseling to student ratios at high schools to 350:1 and a minimum of 1 counselor or 500:1 over 1 FTE at each middle school.

Actual Actions/Services

3.4
Supplemental services/positions continue to reduce the counseling to student ratios below the base staffing handbook ratio. Also, an additional .1 FTE social emotional counselor has been added at the district level (expenditure accounted for at 3.5). To support secondary counselors with suicide assessments and threat assessments.

Budgeted Expenditures

\$1,423,816 S/C

Estimated Actual Expenditures

\$1,415,513 S/C

Action 5**Planned Actions/Services****Actual Actions/Services****Budgeted Expenditures****Estimated Actual Expenditures**

Continue supplemental Vice Principals at elementary schools with 600-749 students to support instructional program and school needs.

Continue supplemental to the basic Secondary Vice Principal ratio, each middle school will have a minimum of 1 Vice Principal. Total supplemental VPs = 14.2 FTE

1 FTE Guidance Learning Specialist -District to support principals, parents, and community members with identifying potential services to support students, and address questions and concerns from parents who call into the district office.

3.5
Supplemental services/positions continue to provide Vice Principal above and beyond the base staffing handbook. Total supplemental VPs = 16.20 FTE

We also have two Guidance Learning Specialists that are each split 50/50 between student services and sites.

Action 6

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Planned Actions/Services

Continue VAPA teachers to support Arts Program K -12.

- Visual Arts (TK – 2)
- Music (3 – 6)
- Band and Choir (7 – 8)
- Choir (9 – 12)

24.4 FTE VAPA teacher

.33 FTE Coordinator

.40 FTE Clerical

Supplies and materials provided to support VAPA program.

Actual Actions/Services

3.6

All VAPA positions were filled but one. Students in TK-2 receive 30 minutes weekly of visual arts instruction. Students in grades 3-6 receive 30 minutes weekly of music instruction. Students in Jr High and High School have expanded access to choir and Jr Highs have additional band courses. Materials and supplies support band, choral and visual arts classes. The coordinator and clerical support provide professional development, coordination and central support for district wide program. Additional courses, professional development and coaching have been offered for teachers to increase student achievement. We are in year two of assessment to measure students growth in the arts.

Budgeted Expenditures

\$2,683,193 S/C

Estimated Actual Expenditures

\$2,740,860 S/C

Action 7

Planned Actions/Services

Continue and fill 1 FTE Student Services Program Specialist position to assist with student transitions between Alternative Education, Court Community Schools, and district comprehensive school programs.

Actual Actions/Services

3.7
DCOST transfer meetings continue to be held twice a month and are facilitated by this position. The number of DCOST meetings are expected to increase as Keema High School Independent Study program has requested to have more meetings to meet request for entry into the program and need to increase enrollment. This position also continues to process expulsion referrals and we anticipate that end of year service will exceed previous years service in this area. Also the student services program specialist position continues to process the program placement for court community school students both entering and exiting the district school programs.

Budgeted Expenditures

\$134,767 S/C

Estimated Actual Expenditures

\$134,767 S/C

Action 8

Planned Actions/Services

Support the TRUSD Festival of the Arts.
 The Festival of the Arts is an annual district-wide event held in the spring (Youth Arts Month/ Music in Schools Month) designed to exhibit the before, during and after school Visual and Performing Arts programs. The goal of the festival is to showcase all talents of our PreK-12 students at a local venue.

Actual Actions/Services

3.8
 The Festival of the Arts is an annual district wide event held in the spring (Youth Arts Month/Music in Schools Month) designed to exhibit the before, during and after school Visual and Performing Arts programs. The goal of the festival is to showcase all talents of our Pre-K-12 students at a local venue. Festival of the Arts took place February 28. Every school K-12 had a visual art on display with over 1,000 pieces displayed. Elementary students will performed and played their recorders. There were performances from an all district junior high band, all district junior high choir, all district high school band and all district high school choir. In total over 700 students performed. over 1200 community members attended. The Festival is documented and captured by the Foothill High

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

There continues to be significant opportunity for students and parents to be engaged and empowered in the educational process in Twin Rivers. Our Parent Leadership Academy has been successful and has given parents and community members a greater role in the development of our LCAP, district committees, and in their students' learning.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Students and staff across the district have benefited from the additional supports we have provided. The additional site program and supervision staffing we've provided has been well received. Survey results show that the additional professional development for staff has lead to new and improved learning opportunities within our classrooms and programs. Students have numerous opportunities to engage in creative learning opportunities within and outside of their schools. All students now have access to direct art instruction and opportunities for before, during, and after school activities. Increased student engagement and support has lead to a decrease in the District Chronic Absenteeism rate from 15.23% to 14.21%. Also the graduation rate has increased from 84.3% to 85.1%. We are proud of these areas of progress and we look to building upon these successes.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

3.2 - Decrease; less available due to decrease in S/C funds (decrease in the UP%),
3.13 - Decrease; open position savings; not all positions were filled.
3.19 - Decrease; actual person less than original budget.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

3.11 This program is being discontinued for 2019-20

3.13 - 2 less FTE will be allocated for this goal for 2019-20 due to deficit spending.

Goal 4

Increase Parent Engagement

 - o All other expenditures= \$365,369

- Insurance and Utilities=

Custodial services are provided to all facilities based on site square footage and site enrollment. Maintenance services are provided based on individual site needs, based on submitted work orders. Work orders are prioritized in three (3) categories, priority 1 are life & safety requests, priority 2 is for other urgent or critical needs and priority 3 is for routine work.

\$9,417,068 LCFF Base (RRMA)

\$9,100,000 LCFF Base (RRMA)

\$10,186,178

Action 2

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
--------------------------	-------------------------	-----------------------	-------------------------------

TRUSD will continue improving existing facilities to provide for an equitable learning environment for all students with an emphasis on unduplicated students.

- Facilities improvements based upon needs including modernization of aging facilities and improvements due to class-size reduction.
- Student achievement scores tend to decrease as school buildings age.
- Physical environments needing improvement are strongly associated with truancy and other behavior problems in student.

School facilities in good repair are associated with safe effective learning environments that support academic achievement.

- Additional custodians to provide more service to support facility needs including extended-day and summer learning opportunities.

5.2

Creating a warm, safe & dry learning environment for our staff and students, with an emphasis of unduplicated students, is our primary goal.

The District has 39 +/- Facility Improvement projects planned at various sites throughout the District for 2018-19 school years. Departments and Board of Trustees have identified and prioritized facility projects. The main focus for this funding source is HVAC, roofing, painting and paving.

Supplemental services/positions continue to support additional custodial positions.

\$10,503,011 S/C

\$10,496,267 S/C

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

We continue to show progress with our annual Williams audit however we have not reached our goal yet. We also continue to value the importance of high functioning school sites and know that the environment plays a critical role in the educational development of our students.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

We continue to make positive progress towards this goal. Our custodial and maintenance staffing and support for facilities improvements are a great support for our students.

- AG percentages have increased
- Enrollment in AP courses have increased
- PSAT scores have increased
- Participation in SAT has increased
- State and District Assessment Performance has increased

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

5.1 Decrease due to open position savings; not all positions were filled for the entire year and closed 1.5 FTE management positions and 1 FTE classified open position due to declining enrollment and to assist in alleviating deficit spending.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

5.1 We will have less FTE allocated to Maintenance and Facilities in 2019-20 due to district deficit spending.

June 3, 2019 - Superintendent's written responses to questions posted on district website

June 18, 2019 - Public hearing of LCAP and Budget

June 25, 2019 - Board Adoption of LCAP and Budget

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

Over 7,000 thoughts and 90,000 ratings were gathered from stakeholders through the use of Thought Exchange software, surveys, and in person forums and meetings.

The following themes emerged from the analysis:

Appreciations

Academic Success

Quality Teachers & Staff

Student Engagement

College and Career Readiness

Critical Thinking and Problem Solving

Administration & Leadership

Extracurricular & Experiential Learning

- Curriculum & Planning
- Student Behavior & Discipline
- Homework & Assessment
- Independence & Motivation
- Curriculum & Programming
- Ideal Graduate
- Life Skills
- Reading & Writing
- Collaboration & Teamwork

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEA’s goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Unchanged

Goal 1

Increase Academic Achievement and Decrease Disproportionalities

State and/or Local Priorities addressed by this goal:

State Priorities: 1, 2, 4

Local Priorities: TRUSD Core Beliefs 1,6,7

Identified Need:

Improved standardized test results, CELDT/ELPAC results for English Learners, and standardized assessments for all students are essential to measure progress toward goals. There are disparities between subgroups, not only in performance on standardized tests, but also in academically rigorous pathways, as measured by enrollment in courses like AP, and in A-G completion rates. These disparities are representative of the academic achievement gap. In addition, significant disproportionalities exist between student subgroups in both academic and behavior data. Many of our actions and services are specifically targeted to student groups showing greater need. Among these are our African American students, as well as homeless and foster youth. Williams instructional materials reports measure access to curricular materials.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
40%, or more, of all students will score at or above the Meets performance level in English Language Arts and Mathematics on the CAASPP.	2016-17: ELA: 31% Math: 24%	Target ELA: 40% Math: 40% Actual ELA: 35.06% Math: 26.79%	ELA: 40% Math: 40%	Target ELA: 40% Math: 40%

District-wide student achievement data on CAASPP, ELA-ELD, math, and NGSS grades 3-8 and 11, will show minimum annual increase of 5 percentage points as evidence of deepening implementation of SBE-adopted standards.

2016-17:
ELA: 31%
Math: 24%

Target
ELA: 40%
Math: 40%

Actual
ELA: 35.06%
Math: 26.79%

ELA: 40.06%
Math: 31.79%

Target
ELA: 40.%
Math: 40%

Teacher mis-assignment rate will be zero.

2016-2017
Elementary: 0%
Secondary Math: 0%
Secondary ELA: 0%
Secondary Science: 0%

Elementary: 0%
Secondary Math: 0%
Secondary ELA: 0%
Secondary Science: 0%

Elementary: 0%
Secondary Math: 0%
Secondary ELA: 0%
Secondary Science: 0%

Elementary: 0%
Secondary Math: 0%
Secondary ELA: 0%

Goal 2

Ensure all Students Graduate College and Career Ready

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 5, 7, 8

Local Priorities: Core Beliefs: 1,4,6,7

Identified Need:

Early literacy skills (grades K-3) and foundational math skills (grades K-5) are strong indicators of college and career readiness. Districtwide,, literacy and math skills are below proficiency (CAASPP 16-17 ELA 31%, Math 24%). Programs to support student academic interventions to increase the rate of student learning to close this gap are essential.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
--------------------	----------	---------	---------	---------

EAP will demonstrate 2 percent growth in passage rate.	2016-17 ELA: 12.62% Math: 3.21%	ELA: 14.62% Math: 5.21%	ELA: 16.62% Math: 7.21%	ELA: 18.62% Math: 9.2%
The graduation rate will increase a minimum of 2.0% annually and maintain a minimum status level of 90% thereafter.	2015-2016 (16/17 data expected June 2018) 84.3%	86.3%	88.3%	90.0%
The percentage of students completing a CTE Pathway will increase by 3%.	16/17 147 students	151 students	155 students	159 students
UC A – G completion rate will increase by at least 5 percent.	2016-2017 27.4%	32.4%	37.4%	42.4%

AP passage rates of 3+ will increase district wide by 5 percent

Goal 3

Improving Culture and Climate through increased Student Engagement

State and/or Local Priorities addressed by this goal:

State Priorities: 5, 6

Local Priorities: TRUSD Core Beliefs: 2,3,6

Identified Need:

TRUSD must continue to focus on student engagement and culture and climate in order to increase student success. This is measured by chronic absenteeism rates, district attendance rates, favorable student response on surveys measuring school safety and connectedness, positive responses on parent surveys, middle school dropout rates, cohort dropout rates, suspension rates, and expulsion rates.

Expected Annual Measureable Outcomes

Goal 4

Increase Parent Engagement

State and/or Local Priorities addressed by this goal:

State Priorities: 3

Local Priorities: Core Beliefs 4,6

Identified Need:

Community forums and parent meetings continuously reveal and cite a need for parent involvement and engagement. Progress will be measured by the percentage of parents attending workshops and the diversity of parents attending engagement activities.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
--------------------	----------	---------	---------	---------

The percentage of parents engaged in ELAC, SSC and parent workshops designed to provide learning strategies to support their children's learning will increase by 10%, as measured by attendance at workshops.

Goal 5

Provide Facilities that are Clean, Safe, and Conducive to Learning

State and/or Local Priorities addressed by this goal:

State Priorities: 1

Local Priorities: Core Belief 2

Identified Need:

TRUSD facilities are in poor condition as outlined in the 2015 Long-Range Facility Master Plan which identifies 2.6 billion dollars needed to bring facilities up to meet basic services.

Community reports of facility concerns have also been noted. Progress will be noted through Williams’ facility reports, work order completion rates, and continued facility audits.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
--------------------	----------	---------	---------	---------

By June 2018, Williams’ facility reports will demonstrate an increase in the percentage of “Exemplar” findings from 4% in 2016-2017 to 24% in 2017-2018, as measured by the external third party Williams’ facility audit.	2016-2017 4%	4%	24%	24%

2017-18 Actions/Services

5.2 TRUSD will continue improving existing facilities to provide for an equitable learning environment for all students with an emphasis on unduplicated students.
• Facilities improvements based upon needs

2018-19 Actions/Services

TRUSD will continue improving existing facilities to provide for an equitable learning environment for all students with an emphasis on unduplicated students.
• Facilities improvements based upon needs

2019-20 Actions/Services

5.2 TRUSD will continue improving existing facilities to provide for an equitable learning environment for all students with an emphasis on unduplicated students.
• Facilities improvements based upon needs

including modernization of aging facilities and improvements due to class-size reduction.

- Student achievement scores tend to decrease as school buildings age.
- Physical environments needing improvement are strongly associated with truancy and other behavior problems in student. School facilities in good repair are associated with safe effective learning environments that support academic achievement.
- Additional custodians to provide more service to support facility needs including extended-day and summer learning opportunities.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: 2017-18

Estimated Supplemental and Concentration Grant Funds	Percentage to Increase or Improve Services
\$ 53,055,780	29.32%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds.

Twin Rivers Unified School District’s estimated Supplemental and Concentration grant funding calculated on the number of unduplicated low income, foster youth, and English learner pupils is \$53,055,780. TRUSD’s unduplicated pupil count is projected at 87.02%. There are specific services principally directed towards low income students, foster youth, and English Learners, however, because TRUSD has such a high percentage of unduplicated pupils, many of the services described will affect other students. Specific attention has been given to the equity of outcomes for students with overlapping significant subgroups including English Learners, students with disabilities, foster youth, students from low income families, and racial and ethnic subgroups. All 52 Twin Rivers school sites but 1 have an unduplicated pupil count of 75% or higher. The one school which is lower has an unduplicated pupil count of 59%. Twin Rivers Unified School District is expending their funds based upon clear goals as established in the LCAP process.

There are specific actions related to low income students, foster youth, and English learners that are specific to these subgroups, however, because

TRUSD has such a high percentage of unduplicated students, many of the actions and services described will benefit all students. The LEA is providing more than 29.32% of increased or improved services above the base program.

Goal 1: Improve academic performance and reduce disproportionalities

Professional Development for staff: Professional development is provided on key initiatives through Professional Learning Communities (PLC's), Systems Thinking, CCSS Based Assessments, Instructional Best Practices, High Quality First Instruction, and other means to ensure increased academic performance for all students, with an emphasis on unduplicated students. Twin Rivers Unified School District will continue implementation of Professional Learning Communities (PLCs) and subsequent professional development, as well as the collaboration, and data analysis that results from the system. Deliberate actions will further be identified to reduce a variety of disproportionalities, including subgroup data tied to suspensions and expulsions, identification for Special Education, and subgroup enrollment from rigorous courses such as AP.

For low- income pupils and specific unduplicated student groups, training and services will be provided to improve student access, enrollment and success in rigorous courses, UC A-G rates, and other indicators of academic success.

Instructional Support Team K-12: Funds will continue to be expended on an instructional support team to improve instruction across the Twin Rivers Unified School District. With the demands of the Common Core, and the need to increase student achievement districtwide, the instructional support team will continue to model lessons, provide feedback to teachers, co-teach, and support professional development across the district to improve the learning of unduplicated students. This team of teachers, which are principally directed to unduplicated students, will continue to be located centrally to respond to any district need. They will also be assigned specifically to a school site to support individual sites and principals with professional development. This centralized support will continue and has been positively embedded in TRUSD.

Kindergarten class size reduction: Twin Rivers Unified School Districts unduplicated count is projected at 87.02%, as a result, every school has unduplicated students enrolled. Research show that lower class size in the early years supports increased academic performance. Kindergarten teacher ratio will be a 20:1 district-wide.

Research generally agrees that lower class size at least in the earliest grades, are linked to positive educational benefits such as better test scores, fewer drop outs, and higher graduation rate, especially for disadvantaged children.

Summer School, tutoring and enrichment opportunities: Summer school, enrichment, tutoring, and opportunities to access UC A-G courses during extended times during the school year are provided to ensure students have access and opportunity for success.

Illuminate: Twin Rivers Unified School Districts unduplicated count is projected at 87.02%, as a result, every school has unduplicated students enrolled. The data management program Illuminate, a CCSS based testing and assessment program to monitor student learning and inform instruction. This program provides a tool to identify specific gaps in learning for students to ensure teachers have the information they need to support increasing student achievement. This tool will support teachers in narrowing the achievement gap.

Additional school day minutes: Twin Rivers unduplicated count is projected at 87.02%, as a result, every classroom has unduplicated students enrolled. Expanding the instructional minutes of the day directly affects all unduplicated students. TRUSD will recruit new teachers, and develop all teachers to support improved student achievement in an expanded school day through:

- Continue with additional 7 instructional minutes to each school day.
- Continue additional student free professional development day for school site instructional staff
- Continue with higher beginning teacher salaries to attract more candidates to TRUSD.

Both research and practice indicate that adding time to the school day and/or year can have a meaningfully positive impact on student proficiency and, indeed upon a child's entire educational experience.

Supplemental materials for special education students: Additional supplemental materials, supplies and professional development time to support STAR/LINK curriculum program implementation. This program is offered to some special education students, in addition to, their core programs as stated in their IEP, with an emphasis on unduplicated students.

RipTide: Extended learning time and differentiated intervention for English Learners will be provided for grades 2-12 in the Summer RipTide program. This program provides a bridge between school years so that EL students do not lose learning. Studies show that students with low income or low language acquisition benefit greatly from a summer bridge program. The program also parallels CCSS and is an integrated literacy and science program.

Multi-Tier System of Supports (MTSS): CAASPP proficiency scores show 29% ELA and 24% math for TRUSD students. Interventions are needed in both behavioral and academic areas. Funds will be used to implement the MTSS initiative with Intervention Specialists at 10 elementary schools during the 2017-2018 school year. These Intervention Specialists will work with sites teams and students and teachers to improve academic achievement with an emphasis on unduplicated students. They will also introduce tools and supports into the system to provide resources throughout the district.

Allocation and support to school sites: Twin Rivers Unified School Districts unduplicated count is predicted 86.22%, as a result, every school has

unduplicated students enrolled. TRUSD will continue the per student allocation to school sites to maintain the day-to-day functions of a school site with an emphasis on unduplicated students.

English Learner Services: The basic services provided for all English Learners K – 12 are standards-based ELD classes, certificated teachers, bilingual paraprofessionals, and appropriate curricular materials. Programs and activities to ensure increased EL access to rigorous academic content, including college prep courses for middle schools and high schools will be continued in the 2017-2018 school year. Services for EL's are based on all EL's being assessed appropriately on an annual (summative), and on an ongoing basis (formative) on language development and being placed in appropriate programs. This will be facilitated through collaboration with the following positions. 10 new Academic Intervention Specialists, Bilingual Language classes for students: Twin Rivers Unified School District will continue to provide World Language and Native Speaker courses at all secondary sites. This supports students gaining UC A-G courses in the middle schools, as well as primary language development in the Native Speaker courses. It increases pathways to AP courses and the opportunity to learn a third language in high school if desired. Twin Rivers Unified School District will also expand the bilingual opportunities at two elementary schools by increasing to three grade levels of Dual Immersion at each site. Research supports the need to increase the access to advanced placement and A-G courses.

Behavior Intervention Coordinators: Maintain two Behavior Intervention Coordinators to further support the social-emotional needs of Special Education students, with an emphasis on unduplicated students. The Coordinators assess and monitor students, and provide support and professional development to teachers in an effort to build capacity in the general education classroom to support all student, focusing on the special education population.

Special Education Coordinator: Continue 1.95 FTE Special Education Coordinator positions to provide educationally related mental health services with a tiered intervention model that addresses socioemotional learning of all students. Will also assist with the Vineland Preschool and Miles P. Richmond School, both schools provide services to maximum independence, continued learning, and personal growth for students with differing intellectual disabilities, which focus on unduplicated students.

LTEL Classes for students: Twin Rivers Unified School District will continue supplemental courses for Long Term English Learners in the 2016-2017 school year at all secondary sites to support secondary language development for English Learners. These classes offer specific strategies targeted towards supporting LTELs as they move to reclassification as English Proficient and prepare them for college.

Pathways Support: To ensure student success and improve academic alignment for students transitioning in and out of its program, an additional teacher for Pathways will be provided.

Support for school sites: To ensure sites have the support services they need in the area of professional learning and extended-supplemental services, central office support is needed to ensure students, parents, staff and administration have the support they need to ensure narrowing the achievement

gap. Providing resources to individual sites allows for local decision making to ensure individual school needs are met. School sites practice a cycle of continuous improvement and work with teams such as ELAC and SSC to engage in data analysis, program monitoring, and to complete needs assessments.

Goal 2: Ensure all students graduate college and career ready.

CTE Programs: Funding to support Career Technical Education (CTE) programs such as California Partnership Academies, Project Lead the Way, Business academy, Multi Media programs, and Skills USA. The focus for the academies are on the unduplicated students in our secondary schools.

PSAT and SAT: In order to increase the college going atmosphere at all high schools through actual, meaningful activities, Twin Rivers Unified School District will continue to provide and expand accessibility for the PSAT to all 8th through 11th grade students. In addition, all 12th grade students will be provided access to the SAT during the 2017-2018 school year. The unduplicated TRUSD students did not have easy accessibility to these assessments before the 2015-2016 school year due to testing sites being far away from school sites and the cost being prohibitive for unduplicated students. Data gleaned from the exams will be used to assist unduplicated students in understanding strengths and areas of need, measuring growth, and also identifying unduplicated students who may not otherwise understand their potential to take Advanced Placement courses.

Goal 3: Improve Culture and Climate through increasing Student Engagement

Duty Assistants: Duty assistants will be funded to ensure all schools have the necessary supervision to ensure the maintenance of safe school environments. Research shows that students who feel safe at school show higher rates of academic achievement.

Attendance Monitoring: Twin Rivers Unified School Districts unduplicated count is projected at 87.02%, as a result, every school has unduplicated students enrolled. TRUSD will continue to monitor attendance and communicate with parents regarding truancy and absenteeism with the A2A system. This system will be used to improve attendance and reduce chronic absenteeism, as well as improve academic achievement.

Transportation: Research shows that students in high poverty rural areas have a greater need for access to transportation. Providing transportation has a direct effect on student attendance. Twin Rivers Unified School Districts unduplicated count is projected at 87.02%, as a result, every school has unduplicated students enrolled.

Counselors: TRUSD will maintain increased support services to the highest need elementary schools, as measured by the number of unduplicated students and academic achievement, to ensure socioemotional needs of students are supported.

- 6 Elementary Counselors
- 1 Social Worker-Pathways

Research indicates that students that are supported with their social emotional needs through counseling services, and students that are high risk have a higher rate of emotional needs.

Secondary Counselors: The basic school counseling ratio is: High School- 450:1, Middle School- 500:1, K-8- .5 FTE, and K-6- (700+ students) .5 FTE, to meet the academic and socio-emotional needs of students. Alternative education sites also receive counseling services.

Supplemental services will continue to reduce counseling to student ratios at high schools to 350:1 and a minimum of 1 counselor or 500:1 over 1 FTE at each middle school, which will focus on the unduplicated students.

- 3.4 FTE High School Counselors
- 1 FTE Middle School Counselor
- 2.2 FTE Alternative School Counselor

Research shows that decreasing the counselor to student ratio positively affects academics and reduces disciplinary actions.

Vice Principals: Twin Rivers Unified School Districts unduplicated count is projected at 87.02%, as a result, every secondary school has unduplicated students enrolled.

Continue Vice Principals at elementary schools with 600-749 students to support instructional program and school needs, with the focus on unduplicated students.

- 7 FTE Vice Principals

Supplemental to the basic Secondary Vice Principal ratio, each middle school will have a minimum of 1 Vice Principal.

- .50 FTE Middle School Vice Principal

With the implementation of CCSS teachers need additional supports in the classroom. VPs in TRUSD are expected to be instructional leaders and as such support veteran teachers with the implementation of CCSs and provide intensive support to our growing new teacher pool.

Visual and Performing Arts (VAPA): Twin Rivers Unified School Districts unduplicated count is projected at 87.02%, as a result, every school has unduplicated students enrolled. TRUSD will continue VAPA teachers to support Arts Program K -12. Research indicates:

- Visual Arts (K – 3)
- Music (4 – 6)
- Band and Choir (7 – 8)
- Choir (9 – 12)

24.2 FTE VAPA teacher (1.5 FTE New S/C)

.33 FTE Coordinator

.40 FTE Clerical

Supplies and materials will be provided to support VAPA program. Research shows that students having access to the arts positively effects student achievement and enrollment therefore providing opportunities to reduce disproportionalities and providing equity for unduplicated students.

Student Services Program Specialist: Continue 1 FTE Student Services Program Specialist position to assist with student transitions between Alternative Education, court Community Schools, and district comprehensive school program, focusing on unduplicated students.

Festival of the Arts: The Festival of the Arts is a district wide festival wherein all students participate in showcasing a piece of art work: visual and/or preforming. Research shows that the Arts play a critical role in the mental development of students. Twin Rivers Unified School Districts unduplicated count is predicted 86.22%, as a result, every school has unduplicated students enrolled, thus, the majority of unduplicated students will have this opportunity.

Research shows that students having access to the arts positively effects student achievement and enrollment therefore providing opportunities to reduce disproportionalities and providing equity for unduplicated students.

Student Engagement: Funds will be used to continue the position of Executive Director of Student Engagement, and Co-Curricular Director to continue expanding the academic and enrichment programs for students with an emphasis on unduplicated students. Research shows that students who are more active and involved in schools perform better academically. Academic activities will include grade level anchor activities, trips, and clubs. In addition, students will be provided with opportunities for academic competitions and athletics. Research has historically indicated strong correlations between student engagement and student achievement.

Student Alliance: The Student Alliance course is designed to support high-risk students in reengaging in the schooling process. This new course will work with middle and high school students around mindset, decision-making, and skill building. This program also provides culturally responsive pedagogy and restorative skills lessons. Research shows the students benefit from building skills in the social emotional realm and social justice practices. The Student Alliance course will teach skills sets in both areas.

Activities Directors: All secondary schools have Activity Directors at each of the middle and high schools. The purpose of the Activity Directors is to: Support a positive school climate, increase student participation in academic competitions, increase student engagement with school sponsored clubs, support the teaching and learning environment through classroom competitions and academic recognitions. Research shows that students that are engaged in school have an increased attendance rate and thus have an increased opportunity to learn.

Restorative Practices: Continue to provide Restorative Practices professional development and the Safe School ambassador program at the

secondary school sites. Continue Restorative Practices to the all K-8 sites. This work will focus on unduplicated students at these sites.

Campus Safety Specialists: A safe learning environment is essential for student success. To this end, base staffing (per the staffing handbook) for Campus Safety Specialists is maintained. Additional staffing levels of Campus Safety Specialists at sites to assist all students with an emphasis on unduplicated students. Campus Safety Specialists provide mentoring, and life modeling. They assist with restorative justice implementation and action.

Dispatcher: A safe learning environment is important for students' academic achievement. A dispatcher for police services will be provided to assist all students with an emphasis on unduplicated students. This additional position allows for video surveillance monitoring and review as well as monitoring and interaction with Catapult EMS system implementation.

City of Sacramento Interns: 1000 Strong initiative is a countywide initiative focused on providing 11th grade students summer opportunities in workforce development with local business and industry. Student experiences such as these support increased knowledge in the area of Career Technical Education (CTE) and support students in college and career readiness.

Professional Development: The contributions of all employees are valued and considered critical to the success of all students with an emphasis on unduplicated students in our district. To ensure the growth and development of our district, up to one additional day for professional development will be offered to CSEA employees to be completed by January 1, 2018.

Psychologists: Continue psychologist ratio 1:1000 to better meet the socioemotional needs of students with an emphasis on unduplicated students. These psychologists will support students with counseling services, behavior supports, and interventions.

Goal 4: Increase Parent Engagement

Twin Rivers Unified School District provides involvement opportunities for parents at both the site and central office levels. Funds will continue to be expended to support the work of the Parent Involvement Coordinator and support staff. This department will facilitate functions such as Parent University and the Parent Leadership Academy, and support the work of engaging all community members, with an emphasis on unduplicated students and families.

Goal 5: Provide facilities that are clean, safe, and conducive to student learning

In the report entitled, Expert Report of Glen I Earthman, G. Earthman, from Virginia Polytechnic Institute, states, "Based on my own studies, my review of pertinent research studies, and my background and experience in the field, my conclusion is that school facility conditions do affect student

academic achievement.” He further states “...Correlation studies show a strong positive relationship between overall building conditions and student achievement” (p. 4). He further states, “All of the studies cited in this report demonstrate a positive relationship between student performance and various factors or components of the built environment (p.5). Cash and Twilford (2009) further support these claims in improving student achievement and school facilities in a time of limited funding. Cash and Twilford summarized their study by reporting that the cumulative effect of a school’s facility condition has been related directly to student outcomes. Vandiver (2011) further supports this claim in, The impact of school facilities on the learning environment. Vandiver concluded that the quality and educational adequacy of educational facilities are related to a statistically significant increase in the percent of students passing the mathematics, social studies and English language arts portions of state achievement tests and significantly decreased teacher transfer rates.

The following research provides additional justification of the effectiveness of these services in meeting Goal 5 for our unduplicated students and demonstrates how these services are principally directed towards our unduplicated students based on that status. In the absence of these services, our unduplicated students will not have access to the same educational opportunities as their peers attending schools in wealthier communities throughout the Sacramento area. In a 2015 study¹ of spending on K-12 public school facilities in California, researchers from UC Berkeley, Center for Cities and Schools, found that “poor facility conditions disproportionately affect students and educators in low-wealth communities and undermine the educational equity priorities that are fundamental in LCFF.” The study found that “low income and minority students are more likely to attend schools with poor physical conditions.” The reason is “there has not been a statewide school construction bond measure on the ballot since 2006 which has increased reliance on local funds, without addressing disparities in local ability to pay relative to local needs.” The findings revealed a relationship between community property values and expenditures on capital outlays. “Districts with more taxable property value per student have, on average, raised more capital funds to pay for facility needs than districts with less taxable property value per student.”

The study also found, “Facility maintenance and operations is a higher budget burden in school districts serving low income students. Many of these districts are disproportionately drawing more from their general operation budgets to pay for M&O than districts serving higher income students. School buildings and their operations cost more in poorer districts, leaving fewer dollars for education programs.” Districts with higher percentages of low income students spent less on capital outlays per student and more on M&O per student than districts serving higher income students. This cycle of inadequate capital investments in aging facilities leads to more expensive emergency repairs and an over-compensation with higher M&O spending out of the operating budget, leaving fewer dollars for educational programs. Low income and minority students are more likely to attend schools with poor physical conditions, which exacerbates educational inequities.

In a 2004 study² of the effects of school facilities on teacher retention in urban districts, it was found that schools with poor physical conditions are associated with increased teacher absenteeism, reduced teacher effectiveness, and reduced teacher retention. While all students in TRUSD will have access to clean, safe facilities, the factors identified in this study are highly detrimental to the success of our unduplicated students whose academic achievement is dependent on high quality teaching and quality relationships with their teachers. To ensure our unduplicated students are guaranteed access to a healthy, safe learning environment and an equitable learning environment with high levels of teacher effectiveness and retention, TRUSD is

investing in modernization of their facilities that are in disrepair in order to break out of the cycle of inadequate capital investments in facilities.

1(2015) Going it Alone: Can California’s K-12 School Districts Adequately and Equitably Fund School Facilities? (UC Berkeley, Center for Cities & Schools)

2(2004) The Effects of School Facility Quality on Teacher Retention in Urban School Districts: Washington, DC: National Clearinghouse for Educational Facilities. (Buckley, Schneider & Shang)

LCAP Year: 2018-19

Estimated Supplemental and Concentration Grant Funds	Percentage to Increase or Improve Services
\$63,027,857	33.80%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds.

Twin Rivers Unified School District’s estimated Supplemental and Concentration grant funding calculated on the number of unduplicated low income, foster youth, and English learner pupils is \$63,027,857. TRUSD’s unduplicated pupil count is projected at 87.57%. There are specific services principally directed towards low income students, foster youth, and English Learners, however, because TRUSD has such a high percentage of unduplicated pupils, many of the services described will affect other students. Specific attention has been given to the equity of outcomes for students with overlapping significant subgroups including English Learners, students with disabilities, foster youth, students from low income families, and racial and ethnic subgroups. All 52 Twin Rivers school sites but 1 have an unduplicated pupil count of 74% or higher. The one school which is lower has an unduplicated pupil count of 63%. Twin Rivers Unified School District is expending their funds based upon clear goals as established in the LCAP process.

There are specific actions related to low income students, foster youth, and English learners that are specific to these subgroups, however, because

TRUSD has such a high percentage of unduplicated students, many of the actions and services described will benefit all students. The LEA is providing more than 33.80% of increased or improved services above the base program.

Goal 1: Improve academic performance and reduce disproportionalities

1.1 Professional Development for staff: Professional development is provided on key initiatives through Professional Learning Communities (PLC's), Systems Thinking, CCSS Based Assessments, Instructional Best Practices, High Quality First Instruction, and other means to ensure increased academic performance for all students, with an emphasis on unduplicated students. Twin Rivers Unified School District will continue implementation of Professional Learning Communities (PLCs) and subsequent professional development, as well as the collaboration, and data analysis that results from the system. Deliberate actions will further be identified to reduce a variety of disproportionalities, including subgroup data tied to suspensions and expulsions, identification for Special Education, and subgroup enrollment from rigorous courses such as AP.

For low- income pupils and specific unduplicated student groups, training and services will be provided to improve student access, enrollment and success in rigorous courses, UC A-G rates, and other indicators of academic success.

1.4 Secondary Redesign: Secondary Redesign incorporates a Multiple Tiered System of Support with strategic intervention strategies, to support both the academic and socio emotional needs of our middle schools with an emphasis on unduplicated students.

1.5 Illuminate: Twin Rivers Unified School Districts unduplicated count is projected at 87.57%, as a result, every school has unduplicated students enrolled. The data management program Illuminate, a CCSS based testing and assessment program to monitor student learning and inform instruction. This program provides a tool to identify specific gaps in learning for students to ensure teachers have the information they need to support increasing student achievement. This tool will support teachers in narrowing the achievement gap.

1.6 Twin Rivers Unified School Districts unduplicated count is projected at 87.57%, as a result, every school has unduplicated students enrolled. Research shows that lower class size in the early years supports increased academic performance. Research generally agrees that lower class size at least in the earliest grades, are linked to positive educational benefits such as better test scores, fewer drop outs, and higher graduation rate, especially for disadvantaged children. Kindergarten teacher ratio will be a 20:1 district-wide. Additionally TK through 12th grade student to teacher averages are less than the amount of the teacher contract.

1.7 Summer School, tutoring and enrichment opportunities: Summer school, enrichment, tutoring, and opportunities to access UC A-G courses during extended times during the school year are provided with an emphasis on unduplicated students to ensure all students have access opportunities for

success.

1.10 Additional school day minutes: Twin Rivers is a diverse school district and our unduplicated student count is projected at 87.57%. As a result, every classroom has unduplicated students enrolled including those who need language support, academic challenges, as well as foster youth, and those who are socio-economically disadvantaged. Expanding the instructional minutes of the day directly affects all unduplicated students. TRUSD will recruit new teachers, and develop all teachers to support improved student achievement in an expanded school day through:

- Continue with additional 7 instructional minutes to each school day.
- Continue additional student free professional development day for school site instructional staff
- Continue with higher beginning teacher salaries to attract qualified staff that can meet the unique and diverse needs of our students.

Both research and practice indicate that adding time to the school day and/or year can have a meaningfully positive impact on student proficiency and, indeed upon a child's entire educational experience.

1.12 Special Education TOSAs (5 FTE), materials, supplies, and professional development for program implementation. Programs will be used with some students who have been identified with autism, with an emphasis on special education unduplicated students. Although some special education students use core curriculum, TOSAs provide coaching around specific techniques and evidence based practices appropriate to high risk behaviors and populations with an emphasis on unduplicated students.

1.13 Extended learning time and differentiated intervention for English Learners will be provided for grades 2-12 in the Summer RipTide program. This program provides a bridge between school years so that EL students do not lose learning. Studies show that students with low income or low language acquisition benefit greatly from a summer bridge program. The program also parallels CCSS and is an integrated literacy and science program.

1.14 Multi-Tier System of Supports (MTSS): CAASPP proficiency scores show 35.06% ELA and 26.79% math for TRUSD students. Interventions are needed in both behavioral and academic areas. Funds will be used to implement the MTSS initiative with Intervention Specialists at 7 elementary schools during the 2018-2019 school year. These Intervention Specialists will work with sites teams and students and teachers to improve academic achievement with an emphasis on unduplicated students. They will also introduce tools and supports into the system to provide resources throughout the district. The use of tools such as specific classroom management techniques have shown to benefit at risk and unduplicated students.

1.15 Central office support, training, and supplemental services to address the academic needs of all students, with an emphasis on unduplicated students will continue to be provided and will adjust and pivot based on the evidence of need for high risk and unduplicated students.

1.17 Twin Rivers Unified School Districts' unduplicated count is projected at 87.57%. As a result, every school has unduplicated students enrolled. TRUSD will continue the per student allocation to school sites based on their unduplicated students to support academic improvement efforts as documented in each school site's School Plan for Student Achievement (SPSA).

Supplemental concentration funds, with an emphasis on unduplicated students, are allocated to school sites based on their unduplicated students to support academic improvement efforts for subgroups; included in the sites School Plan for Student Achievement (SPSA). Items include, but not limited to, field trips, supplemental instructional materials and software licenses, laptops/tablets, supplies for parent involvement meetings, student awards/recognition, positions above base staffing (i.e., counselors, duty assistants, academic and behavior assistants).

1.18 English Learner Services: The basic services provided for all English Learners K – 12 students, are standards-based ELD classes, certificated teachers, bilingual paraprofessionals, and appropriate curricular materials. Programs and activities to ensure increased EL access to rigorous academic content, including college prep courses for middle schools and high schools will be continued in the 2017-2018 school year. Services for EL's are based on all EL's being assessed appropriately on an annual (summative), and on an ongoing basis (formative) on language development and being placed in appropriate programs. This will be facilitated through collaboration with the following positions. 10 new Academic Intervention Specialists, Bilingual

1.19 Language classes for students: Twin Rivers Unified School District will continue to provide World Language and Native Speaker courses at all secondary sites. This supports students gaining UC A-G courses in the middle schools, as well as primary language development in the Native Speaker courses. It increases pathways to AP courses and the opportunity to learn a third language in high school if desired. Twin Rivers Unified School District will also expand the bilingual opportunities at two elementary schools by increasing to three grade levels of Dual Immersion at each site. Research supports the need to increase the access to advanced placement and A-G courses.

1.22 Behavior Intervention Coordinators: Maintain two Behavior Intervention Coordinators to further support the social-emotional needs of Special Education students, with an emphasis on unduplicated students. The Coordinators assess and monitor students, and provide support and professional development to teachers in an effort to build capacity in the general education classroom to support all student, focusing on the special education population.

1.23 Special Education Coordinator: Continue 1.95 FTE Special Education Coordinator positions to provide educationally related mental health services with a tiered intervention model that addresses socioemotional learning of all students. Will also assist with the Vineland Preschool and Miles P. Richmond School, both schools provide services to maximum independence, continued learning, and personal growth for students with differing intellectual disabilities, which focus on unduplicated students.

1.24 Research has shown the benefits of Dual Immersion have proven effective as the acquisition of strong language and literacy skills in a student's native language translates to any new language that a student is learning. We provide these programs with an emphasis on our unduplicated students.

1.26 LTEL Classes for students: Twin Rivers Unified School District will continue supplemental courses at all secondary sites to support secondary language development for English Learners. These classes offer specific strategies targeted towards supporting students as they move to reclassification as English Proficient and prepare for college.

1.28 Lab Teachers: 10 laboratory teachers will develop lessons and implement them with partner teachers in the classroom. Short cycle assessments will be developed to measure student learning. Professional development for laboratory teachers and partner teachers will be provided. Focus on CCSS lesson development and short term (formative) assessment will provide data and information to use with a focus on unduplicated and high risk students.

1.29 PBIS Specialists: Three Positive Behavior Support Intervention (PBIS) Specialists will work with cohorts of school sites to support district-wide implementation of this initiative with mentoring, support, training, and collaboration. This critical work supports our unduplicated students by providing a system of school-wide procedures and protocols that allow students and staff to positively interact which enhances the school environment and culture. Evidence suggests that PBIS schools ultimately see growth in academic achievement and reduction in loss of educational time due to suspension.

1.30 Short Term Independent Study: Short term independent study will be provided to students (TK-8) who are absent from school for five or more days. This will give them the opportunity to complete independent study curricula, for the purpose of ensuring students don't fall behind in their current academic program. The additional level of support especially benefits our unduplicated students by providing them additional learning if they miss school or are in transition.

Goal 2: Ensure all students graduate college and career ready.

2.1 CTE Programs: Funding to support Career Technical Education (CTE) programs such as California Partnership Academies, Project Lead the Way, Business academy, Multi Media programs, and Skills USA. The focus for the academies are on the unduplicated students in our secondary schools.

2.2 PSAT and SAT: In order to increase the college going atmosphere at all high schools through actual, meaningful activities, Twin Rivers Unified School District will continue to provide and expand accessibility for the PSAT to all 8th through 11th grade students. In addition, all 12th grade students will be provided access to the SAT during the 2017-2018 school year. The unduplicated TRUSD students did not have easy accessibility to these assessments before the 2015-2016 school year due to testing sites being far away from school sites and the cost being prohibitive for unduplicated students. Data gleaned from the exams will be used to assist unduplicated students in understanding strengths and areas of need, measuring growth, and also identifying unduplicated students who may not otherwise understand their potential to take Advanced Placement courses.

2.3 WIN Academy: The TR What I Need (WIN) Academy is a weekend program that is a blend of enrichment and academic opportunities designed to provide extended learning for all Twin Rivers Unified School District students with an emphasis on unduplicated students. TR WIN Academy teachers engage students through meaningful and fun instruction that may cover math, reading, science, history, arts, social skills, physical education, research engineering, and much more. Our primary goal is three pronged: 1) increase student learning by reclaiming missed school days of instruction 2) increase student engagement 3) reduce chronic absenteeism by providing student instruction through meaningful weekend learning and engagement activities.

2.4 Full Day Kindergarten: Full-day kindergarten programs close achievement gaps between young children from minority and low-income families and their peers. By providing a solid foundation of learning to children from all backgrounds, full-day kindergarten programs ensure all students' academic, social, and emotional success.

Goal 3: Improve Culture and Climate through increasing Student Engagement

3.1 Duty Assistants: Duty assistants will be funded to ensure all schools have the necessary supervision to ensure the maintenance of safe school environments. Research shows that students who feel safe at school shower higher rates of academic achievement.

Attendance Monitoring: Twin Rivers Unified School Districts unduplicated count is projected at 87.57%, as a result, every school has unduplicated students enrolled. TRUSD will continue to monitor attendance and communicate with parents regarding truancy and absenteeism with the A2A system. This system will be used to improve attendance and reduce chronic absenteeism, as well as improve academic achievement.

3.2 Transportation: Research shows that students in high poverty rural areas have a greater need for access to transportation. Providing transportation has a direct effect on student attendance. Twin Rivers Unified School Districts unduplicated count is projected at 87.57%, as a result, every school has unduplicated students enrolled.

3.3 Counselors: TRUSD will maintain increased support services to the highest need elementary schools, as measured by the number of unduplicated students and academic achievement, to ensure socioemotional needs of students are supported.

- 6 Elementary Counselors
- 1 Social Worker-Pathways

Research indicates that students that are supported with their social emotional needs through counseling services, and students that are high risk have a higher rate of emotional needs.

3.4 Secondary Counselors: The basic school counseling ratio is: High School- 450:1, Middle School- 500:1, K-8- .5 FTE, and K-6- (700+ students) .5 FTE, to meet the academic and socio-emotional needs of students. Alternative education sites also receive counseling services.

Supplemental services will continue to reduce counseling to student ratios at high schools to 350:1 and a minimum of 1 counselor or 500:1 over 1 FTE at each middle school, which will focus on the unduplicated students.

- 3.4 FTE High School Counselors
- 1 FTE Middle School Counselor
- 2.2 FTE Alternative School Counselor

Research shows that decreasing the counselor to student ratio positively affects academics and reduces disciplinary actions.

3.5 Vice Principals: Twin Rivers Unified School District's unduplicated count is projected at 87.57%, as a result, every secondary school has unduplicated students enrolled. With the implementation of CCSS, teachers need additional supports in the classroom. VPs in TRUSD are expected to be instructional leaders and as such support veteran teachers with the implementation of CCSs and provide intensive support to our growing new teacher pool. Assistance from VPs will directly support unduplicated students by providing them access to more resources throughout their school day.

Continue Vice Principals at elementary schools with 600-749 students to support instructional program and school needs, with the focus on unduplicated students.

- 7 FTE Vice Principals

Continue supplemental Vice Principals at elementary schools with 600-749 students to support instructional program and school needs.

Continue supplemental to the basic Secondary Vice Principal ratio, each middle school will have a minimum of 1 Vice Principal.

Total supplemental VPs = 14.2 FTE

1 FTE Guidance Learning Specialist -District to support principals, parents, and community members with identifying potential services to support students, and address questions and concerns from parents who call into the district office.

3.6 Visual and Performing Arts (VAPA): Twin Rivers Unified School Districts unduplicated count is projected at 87.57%, as a result, every school has unduplicated students enrolled. TRUSD will continue VAPA teachers to support Arts Program K -12. Research indicates:

- Visual Arts (K – 3)
- Music (4 – 6)
- Band and Choir (7 – 8)
- Choir (9 – 12)

24.2 FTE VAPA teacher (1.5 FTE New S/C)

.33 FTE Coordinator

.40 FTE Clerical

Supplies and materials will be provided to support VAPA program. Research shows that students having access to the arts positively effects student achievement and enrollment therefore providing opportunities to reduce disproportionalities and providing equity for unduplicated students.

3.7 Student Services Program Specialist: Continue 1 FTE Student Services Program Specialist position to assist with student transitions between Alternative Education, court Community Schools, and district comprehensive school program, focusing on unduplicated students.

3.8 Festival of the Arts: The Festival of the Arts is a district wide festival wherein all students participate in showcasing a piece of art work: visual and/or performing. Research shows that the Arts play a critical role in the mental development of students. Twin Rivers Unified School Districts unduplicated count is predicted 87.57%, as a result, every school has unduplicated students enrolled, thus, the majority of unduplicated students will have this opportunity.

Research shows that students having access to the arts positively effects student achievement and enrollment therefore providing opportunities to reduce disproportionalities and providing equity for unduplicated students.

3.9 Student Engagement: Funds will be used to continue the position of Executive Director of Student Engagement, and Co-Curricular Director to continue expanding the academic and enrichment programs for students with an emphasis on unduplicated students. Research shows that students who are more active and involved in schools perform better academically. Academic activities will include grade level anchor activities, trips, and clubs. In addition, students will be provided with opportunities for academic competitions and athletics. Research has historically indicated strong correlations between student engagement and student achievement.

3.11 Student Alliance: The Student Alliance course is designed to support high-risk students in reengaging in the schooling process. This new course will work with middle and high school students around mindset, decision-making, and skill building. This program also provides culturally responsive

pedagogy and restorative skills lessons. Research shows the students benefit from building skills in the social emotional realm and social justice practices. The Student Alliance course will teach skills sets in both areas.

3.10 Activities Directors: All secondary schools have Activity Directors at each of the middle and high schools. The purpose of the Activity Directors is to: Support a positive school climate, increase student participation in academic competitions, increase student engagement with school sponsored clubs, support the teaching and learning environment through classroom competitions and academic recognitions. Research shows that students that are engaged in school have an increased attendance rate and thus have an increased opportunity to learn.

3.12 Restorative Practices: Continue to provide Restorative Practices professional development and the Safe School ambassador program at the secondary school sites. Continue Restorative Practices to the all K-8 sites. This work will focus on unduplicated students at these sites.

3.14 Campus Safety Specialists: A safe learning environment is essential for student success. To this end, base staffing (per the staffing handbook) for Campus Safety Specialists is maintained. Additional staffing levels of Campus Safety Specialists at sites to assist all students with an emphasis on unduplicated students. Campus Safety Specialists provide mentoring, and life modeling. They assist with restorative justice implementation and action.

3.15 Dispatcher: A safe learning environment is important for students' academic achievement. A dispatcher for police services will be provided to assist all students with an emphasis on unduplicated students. This additional position allows for video surveillance monitoring and review as well as monitoring and interaction with Catapult EMS system implementation.

3.16 Psychologists: Continue psychologist ratio 1:1000 to better meet the socioemotional needs of students with an emphasis on unduplicated students. These psychologists will support students with counseling services, behavior supports, and interventions.

3.18 We have completed a 1 year offering of additional growth and development courses for all staff for additional pay outside the work day. This planned 1 year initiative included a catalog of courses that staff could select from to support their growth and development. Courses provided supports specifically designed to assist unduplicated pupils. Course Catalog examples include: Accutrain Self Regulation- In this one-day training workshop, you will be given recommendations and strategies to use with all students and in particular with those who have behavioral and/or emotional self-control needs.

Essential Components for Early Literacy Instruction- Join us for a day of analyzing, creating and preparing for your daily early literacy lessons. We will give supports for your struggling students from whole group instruction to small-group and teacher-led activities. These skills will help you address the specific phonological and literacy needs of your students.

3.19 SEL Counselor: Central Counselor for social emotional needs will be provided for mental health services to Twin Rivers students with a focus on 7 TR elementary schools that do not have an assigned counselor and with an emphasis on unduplicated students.

Goal 4: Increase Parent Engagement

Twin Rivers Unified School District provides involvement opportunities for parents at both the site and central office levels. Funds will continue to be expended to support the work of the Parent Involvement Coordinator and support staff. This department will facilitate functions such as Parent University and the Parent Leadership Academy, and support the work of engaging all community members, with an emphasis on unduplicated students and families.

Goal 5: Provide facilities that are clean, safe, and conducive to student learning

In the report entitled, Expert Report of Glen I Earthman, G. Earthman, from Virginia Polytechnic Institute, states, "Based on my own studies, my review of pertinent research studies, and my background and experience in the field, my conclusion is that school facility conditions do affect student academic achievement." He further states "...Correlation studies show a strong positive relationship between overall building conditions and student achievement" (p. 4). He further states, "All of the studies cited in this report demonstrate a positive relationship between student performance and various factors or components of the built environment (p.5). Cash and Twilford (2009) further support these claims in improving student achievement and school facilities in a time of limited funding. Cash and Twilford summarized their study by reporting that the cumulative effect of a schools facility's condition has been related directly to student outcomes. Vandiver (2011) further supports this claim in, The impact of school facilities on the learning environment. Vandiver concluded that the quality and educational adequacy of educational facilities are related to a statistically significant increase in the percent of students passing the mathematics, social studies and English language arts portions of state achievement tests and significantly decreased teacher transfer rates.

The following research provides additional justification of the effectiveness of these services in meeting Goal 5 for our unduplicated students and demonstrates how these services are principally directed towards our unduplicated students based on that status. In the absence of these services, our unduplicated students will not have access to the same educational opportunities as their peers attending schools in wealthier communities throughout the Sacramento area. In a 2015 study(1) of spending on K-12 public school facilities in California, researchers from UC Berkeley, Center for Cities and Schools, found that "poor facility conditions disproportionately affect students and educators in low-wealth communities and undermine the educational equity priorities that are fundamental in LCFF." The study found that "low income and minority students are more likely to attend schools with poor physical conditions." The reason is "there has not been a statewide school construction bond measure on the ballot since 2006 which has increased reliance on local funds, without addressing disparities in local ability to pay relative to local needs." The findings revealed a relationship

between community property values and expenditures on capital outlays. “Districts with more taxable property value per student have, on average, raised more capital funds to pay for facility needs than districts with less taxable property value per student.”

The study also found, “Facility maintenance and operations is a higher budget burden in school districts serving low income students. Many of these districts are disproportionately drawing more from their general operation budgets to pay for M&O than districts serving higher income students. School buildings and their operations cost more in poorer districts, leaving fewer dollars for education programs.” Districts with higher percentages of low income students spent less on capital outlays per student and more on M&O per student than districts serving higher income students. This cycle of inadequate capital investments in aging facilities leads to more expensive emergency repairs and an over-compensation with higher M&O spending out of the operating budget, leaving fewer dollars for educational programs. Low income and minority students are more likely to attend schools with poor physical conditions, which exacerbates educational inequities.

In a 2004 study(2) of the effects of school facilities on teacher retention in urban districts, it was found that schools with poor physical conditions are associated with increased teacher absenteeism, reduced teacher effectiveness, and reduced teacher retention. While all students in TRUSD will have access to clean, safe facilities, the factors identified in this study are highly detrimental to the success of our unduplicated students whose academic achievement is dependent on high quality teaching and quality relationships with their teachers. To ensure our unduplicated students are guaranteed access to a healthy, safe learning environment and an equitable learning environment with high levels of teacher effectiveness and retention, TRUSD is investing in modernization of their facilities that are in disrepair in order to break out of the cycle of inadequate capital investments in facilities.

1(2015) Going it Alone: Can California’s K-12 School Districts Adequately and Equitably Fund School Facilities? (UC Berkeley, Center for Cities & Schools)

2(2004) The Effects of School Facility Quality on Teacher Retention in Urban School Districts: Washington, DC: National Clearinghouse for Educational Facilities. (Buckley, Schneider & Shang)

LCAP Year: 2019-20

Estimated Supplemental and Concentration Grant Funds	Percentage to Increase or Improve Services
\$62,848,188	33.51%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or

quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

Twin Rivers Unified School District's estimated Supplemental and Concentration grant funding is calculated on the number of unduplicated low income, foster youth, and English learner pupils and is \$62,848,188. TRUSD's unduplicated pupil percentage (3 year rolling percentage) is projected at 86.54%. There are specific services principally directed towards low income students, foster youth, and English Learners, however, because TRUSD has such a high percentage of unduplicated pupils, many of the services described will affect other students.

Specific attention has been given for students with overlapping significant subgroups including English Learners, students with disabilities, foster youth, students from low income families, and racial and ethnic subgroups. Twin Rivers school sites have an unduplicated pupil percentage of 73% or higher except for one school which is at 64%. Twin Rivers Unified School District is expending funds based upon clear goals as established in the LCAP process. Because TRUSD has such a high percentage of unduplicated students, many of the actions and services described will benefit all students. The LEA is providing more than 33.51% of increased or improved services above the base program.

Goal 1: Improve academic performance and reduce disproportionalities

1.1 Professional Development for staff: Professional development is provided on key district initiatives to a variety of staff. Through these learning opportunities, staff develop skills and build knowledge that allows them to provide additional support for low-income pupils and specific unduplicated student groups. These learning opportunities impact all aspects of student success.

1.4 Secondary Redesign: Secondary Redesign incorporates an on going intervention system for students including strategic intervention in both academic and socio-emotional areas for our middle school students with an emphasis on unduplicated students.

1.5 Illuminate: Twin Rivers Unified School Districts unduplicated pupil count is projected at 86.54%, as a result, every school has unduplicated students enrolled. The data management program Illuminate, a CCSS based testing and assessment program is used to monitor student learning and to support targeted instruction.

1.6 Twin Rivers Unified School Districts unduplicated pupil count is projected at 86.54%, as a result, every school has unduplicated students enrolled. Research shows that lower class size in the early years supports increased academic performance. Research generally agrees that lower class size

at least in the earliest grades, are linked to positive educational benefits such as better test scores, fewer drop outs, and higher graduation rate, especially for disadvantaged children. Kindergarten teacher ratio will be a 20:1 district-wide. Additionally TK through 12th grade student to teacher averages are less than the amount of the teacher contract.

1.7 Summer School, tutoring and enrichment opportunities: Summer school, enrichment, tutoring, and opportunities to access UC A-G courses during extended times during the school year are provided with an emphasis on unduplicated students to ensure all students have access opportunities for success.

1.10 Additional school day minutes: Twin Rivers is a diverse school district and our unduplicated pupil count is projected at 86.54%. As a result, every classroom has unduplicated students enrolled including those who need language support, academic challenges, as well as foster youth, and those who are socio-economically disadvantaged. Expanding the instructional minutes of the day directly affects all unduplicated students. TRUSD will recruit new teachers, and develop all teachers to support improved student achievement in an expanded school day through:

- Continue with additional 7 instructional minutes to each school day.
- Continue additional student free professional development day for school site instructional staff
- Continue with higher beginning teacher salaries to attract qualified staff that can meet the unique and diverse needs of our students.

Both research and practice indicate that adding time to the school day and/or year can have a meaningfully positive impact on student proficiency and, indeed upon a child's entire educational experience.

1.12 Special Education TOSAs (3 FTE), materials, supplies, and professional development for program implementation. Programs will be used with some students who have been identified with autism, with an emphasis on special education unduplicated students. Although some special education students use core curriculum, TOSAs provide coaching around specific techniques and evidence based practices appropriate to high risk behaviors and populations with an emphasis on unduplicated students.

1.13 Extended learning time and differentiated intervention for English Learners will be provided for grades 2-12 in the Summer Support program. This program provides a bridge between school years so that EL students do not lose learning. Studies show that students with low income or low language acquisition benefit greatly from a summer bridge program. The program also parallels the Common Core State Standards and is an integrated literacy and science program.

1.14 Multi-Tier System of Supports (MTSS): Interventions are needed in both behavioral and academic areas. Funds will be used to implement the MTSS initiative with Intervention Specialists at 15 elementary schools during the 2019-2020 school year. These Intervention Specialists will work with

sites teams and students and teachers to improve academic achievement with an emphasis on unduplicated students. They will also introduce tools and supports into the system to provide resources throughout the district. The use of tools such as specific classroom management techniques have shown to benefit at risk and unduplicated students.

1.15 Central office support, training, and supplemental services to address the academic needs of all students, with an emphasis on unduplicated students will continue to be provided and will adjust and pivot based on the evidence of need for high risk and unduplicated students.

1.17 Twin Rivers Unified School Districts' unduplicated pupil count is projected at 86.54%. Twin Rivers school sites have an unduplicated pupil percentage of 73% or higher except for one school which is at 64%. Supplemental concentration funds, with an emphasis on unduplicated students, are allocated to school sites based on their unduplicated students to support academic improvement efforts for subgroups. Items include, but not limited to, field trips, supplemental instructional materials and software licenses, laptops/tablets, supplies for parent involvement meetings, student awards/recognition, positions above base staffing (i.e., counselors, duty assistants, academic and behavior assistants).

1.18 English Learner Services: The basic services provided for all English Learners K – 12 students, are standards-based ELD classes, certificated teachers, bilingual paraprofessionals, and appropriate curricular materials. Programs and activities to ensure increased EL access to rigorous academic content, including college prep courses for middle schools and high schools will be continued in the 2019-2020 school year. Services for EL's are based on all EL's being assessed appropriately on an annual (summative), and on an ongoing basis (formative) on language development and being placed in appropriate programs. This will be facilitated through collaboration with the Academic Intervention Specialists Bilingual (AISBs)

1.19 Language classes for students: Twin Rivers Unified School District will continue to provide World Language and Native Speaker courses at all secondary sites. This supports students gaining UC A-G courses in the middle schools, as well as primary language development in the Native Speaker courses. It increases pathways to AP courses and the opportunity to learn a third language in high school if desired. Twin Rivers Unified School District will also expand the bilingual opportunities at two elementary schools by increasing to three grade levels of Dual Immersion at each site. Research supports the need to increase the access to advanced placement and A-G courses.

1.22 Behavior Intervention Coordinators: Maintain two Behavior Intervention Coordinators to further support the social-emotional needs of Special Education students, with an emphasis on unduplicated students. The Coordinators assess and monitor students, and provide support and professional development to teachers in an effort to build capacity in the general education classroom to support all student, focusing on the special education population.

1.23 Special Education Coordinator: Continue Special Education Coordinator positions to provide educationally related mental health services with a tiered intervention model that addresses socioemotional learning of all students.

1.24 Research has shown the benefits of Dual Immersion have proven effective as the acquisition of strong language and literacy skills in a student's native language translates to any new language that a student is learning. We provide these programs with an emphasis on our unduplicated students.

1.26 LTEL Classes for students: Twin Rivers Unified School District will continue supplemental courses at all secondary sites to support secondary language development for English Learners. These classes offer specific strategies targeted towards supporting students as they move to reclassification as English Proficient and prepare for college.

1.27 Support for high needs general education students to improve the academic and social needs of our students.

1.28 ELA Lesson Design Teachers: Laboratory teachers will develop lessons and implement them with partner teachers in the classroom. Short cycle assessments will be developed to measure student learning. Professional development for laboratory teachers and partner teachers will be provided. Focus on CCSS lesson development and short term (formative) assessment will provide data and information to use with a focus on unduplicated and high risk students.

1.29 PBIS Specialists: Three Positive Behavior Support Intervention (PBIS) Specialists will work with cohorts of school sites to support district-wide implementation of this initiative with mentoring, support, training, and collaboration. This work supports our unduplicated students by providing a system of school-wide procedures and protocols that allow students and staff to positively interact which enhances the school environment and culture. Evidence suggests that PBIS schools ultimately see growth in academic achievement and reduction in loss of educational time due to suspension.

1.30 Short Term Independent Study: Short term independent study will be provided to students (TK-8) who are absent from school for five or more days. This will give them the opportunity to complete independent study curricula, for the purpose of ensuring students don't fall behind in their current academic program. The additional level of support especially benefits our unduplicated students by providing them additional learning if they miss school or are in transition.

1.31 TK and kindergarten classes and student support. The services provided support are unduplicated students as we are School wide Title I district with 86.54% unduplicated students.

Goal 2: Ensure all students graduate college and career ready.

2.1 CTE Programs: Funding to support Career Technical Education (CTE) programs such as California Partnership Academies, Project Lead the Way, Business academy, Multi Media programs, and Skills USA. The focus for the academies are on the unduplicated students in our secondary schools.

2.2 PSAT and SAT: In order to increase the college going atmosphere at all high schools through actual, meaningful activities, Twin Rivers Unified School District will continue to provide and expand accessibility for the PSAT to all 8th through 11th grade students. In addition, all 12th grade students will be provided access to the SAT during the 2017-2018 school year. The unduplicated TRUSD students did not have easy accessibility to these assessments before the 2015-2016 school year due to testing sites being far away from school sites and the cost being prohibitive for unduplicated students. Data gleaned from the exams will be used to assist unduplicated students in understanding strengths and areas of need, measuring growth, and also identifying unduplicated students who may not otherwise understand their potential to take Advanced Placement courses.

2.3 WIN Academy: The TR What I Need (WIN) Academy is a weekend program that is a blend of enrichment and academic opportunities designed to provide extended learning for all Twin Rivers Unified School District students with an emphasis on unduplicated students. TR WIN Academy teachers engage students through meaningful and fun instruction that may cover math, reading, science, history, arts, social skills, physical education, research engineering, and much more. Our primary goal is three pronged: 1) increase student learning by reclaiming missed school days of instruction 2) increase student engagement 3) reduce chronic absenteeism by providing student instruction through meaningful weekend learning and engagement activities.

2.4 Full Day Kindergarten: Full-day kindergarten programs close achievement gaps between young children from minority and low-income families and their peers. By providing a solid foundation of learning to children from all backgrounds, full-day kindergarten programs ensure all students' academic, social, and emotional success.

Goal 3: Improve Culture and Climate through increasing Student Engagement

3.1 Duty Assistants: Duty assistants will be funded to ensure all schools have the necessary supervision to ensure the maintenance of safe school environments. Research shows that students who feel safe at school shower higher rates of academic achievement.

3.2 Transportation: Research shows that students in high poverty rural areas have a greater need for access to transportation. Providing transportation has a direct effect on student attendance. Twin Rivers Unified School Districts unduplicated pupil count is projected at 86.54%, as a result, every

school has unduplicated students enrolled.

3.3 Counselors: TRUSD will maintain increased support services to the highest need elementary schools, as measured by the number of unduplicated students and academic achievement, to ensure socioemotional needs of students are supported.

- 6 Elementary Counselors
- 1 Social Worker-Pathways

Research indicates that students that are supported with their social emotional needs through counseling services, and students that are high risk have a higher rate of emotional needs.

3.4 Secondary Counselors: The basic school counseling ratio is: High School- 450:1, Middle School- 500:1, K-8- .5 FTE, and K-6- (700+ students) .5 FTE, to meet the academic and socio-emotional needs of students. Alternative education sites also receive counseling services.

Supplemental services will continue to reduce counseling to student ratios at high schools to 350:1 and a minimum of 1 counselor or 500:1 over 1 FTE at each middle school, which will focus on the unduplicated students. Research shows that decreasing the counselor to student ratio positively affects academics and reduces disciplinary actions.

3.5 Vice Principals: Twin Rivers Unified School District's unduplicated count is projected at 86.54%, as a result, every secondary school has unduplicated students enrolled. With the implementation of CCSS, teachers need additional supports in the classroom. VPs in TRUSD are expected to be instructional leaders and as such support veteran teachers with the implementation of CCSs and provide intensive support to our growing new teacher pool. Assistance from VPs will directly support unduplicated students by providing them access to more resources throughout their school day.

Continue Vice Principals at elementary schools with 600-749 students to support instructional program and school needs, with the focus on unduplicated students.

Continue supplemental Vice Principals at elementary schools with 600-749 students to support instructional program and school needs.

Continue supplemental to the basic Secondary Vice Principal ratio, each middle school will have a minimum of 1 Vice Principal.

1 FTE Guidance Learning Specialist -District to support principals, parents, and community members with identifying potential services to support students, and address questions and concerns from parents who call into the district office.

3.6 Visual and Performing Arts (VAPA): Twin Rivers Unified School Districts unduplicated count is projected at 86.54%, as a result, every school has unduplicated students enrolled. TRUSD will continue VAPA teachers to support Arts Program K -12. Supplies and materials will be provided to support VAPA program. Research shows that students having access to the arts positively effects student achievement and enrollment therefore providing

opportunities to reduce disproportionalities and providing equity for unduplicated students.

3.7 Student Services Program Specialist: Continue 1 FTE Student Services Program Specialist position to assist with student transitions between Alternative Education, court Community Schools, and district comprehensive school program, focusing on unduplicated students.

3.8 Festival of the Arts: The Festival of the Arts is a district wide festival wherein all students participate in showcasing a piece of art work: visual and/or performing. Twin Rivers Unified School Districts unduplicated count is predicted 86.54%, as a result, every school has unduplicated students enrolled, thus, the majority of unduplicated students will have this opportunity. Research shows that students having access to the arts positively effects student achievement and enrollment therefore providing opportunities to reduce disproportionalities and providing equity for unduplicated students.

3.9 Student Engagement: Funds will be used to continue the position of Executive Director of Student Engagement, and Co-Curricular Director to continue expanding the academic and enrichment programs for students with an emphasis on unduplicated students. Research shows that students who are more active and involved in schools perform better academically. Academic activities will include grade level anchor activities, trips, and clubs. In addition, students will be provided with opportunities for academic competitions and athletics. Research has historically indicated strong correlations between student engagement and student achievement.

3.10 Activities Directors: All secondary schools have Activity Directors at each of the middle and high schools. The purpose of the Activity Directors is to: Support a positive school climate, increase student participation in academic competitions, increase student engagement with school sponsored clubs, support the teaching and learning environment through classroom competitions and academic recognitions. Research shows that students that are engaged in school have an increased attendance rate and thus have an increased opportunity to learn.

3.12 Restorative Practices: Continue to provide Restorative Practices professional development and the Safe School ambassador program at the secondary school sites. Continue Restorative Practices to the all K-8 sites. This work will focus on unduplicated students at these sites.

3.14 Campus Safety Specialists: A safe learning environment is essential for student success. To this end, base staffing (per the staffing handbook) for Campus Safety Specialists is maintained. Additional staffing levels of Campus Safety Specialists at sites to assist all students with an emphasis on unduplicated students. Campus Safety Specialists provide mentoring, and life modeling. They assist with restorative justice implementation and action.

3.15 Dispatcher: A safe learning environment is important for students' academic achievement. A dispatcher for police services will be provided to assist all students with an emphasis on unduplicated students. This additional position allows for video surveillance monitoring and review as well as

monitoring and interaction with Catapult EMS system implementation.

3.16 Psychologists: Continue psychologist ratio 1:1000 to better meet the socioemotional needs of students with an emphasis on unduplicated students. These psychologists will support students with counseling services, behavior supports, and interventions.

3.19 SEL Counselor: Central Counselor for social emotional needs will be provided for mental health services to Twin Rivers students with a focus on 7 TR elementary schools that do not have an assigned counselor and with an emphasis on unduplicated students.

Goal 4: Increase Parent Engagement

Twin Rivers Unified School District provides involvement opportunities for parents at both the site and central office levels. This department will facilitate functions such as Parent University and the Parent Leadership Academy, and support the work of engaging all community members, with an emphasis on unduplicated students and families.

Goal 5: Provide facilities that are clean, safe, and conducive to student learning

In the report entitled, Expert Report of Glen I Earthman, G. Earthman, from Virginia Polytechnic Institute, states, “Based on my own studies, my review of pertinent research studies, and my background and experience in the field, my conclusion is that school facility conditions do affect student academic achievement.” He further states “...Correlation studies show a strong positive relationship between overall building conditions and student achievement” (p. 4). He further states, “All of the studies cited in this report demonstrate a positive relationship between student performance and various factors or components of the built environment (p.5). Cash and Twilford (2009) further support these claims in improving student achievement and school facilities in a time of limited funding. Cash and Twilford summarized their study by reporting that the cumulative effect of a schools facility’s condition has been related directly to student outcomes. Vandiver (2011) further supports this claim in, The impact of school facilities on the learning environment. Vandiver concluded that the quality and educational adequacy of educational facilities are related to a statistically significant increase in the percent of students passing the mathematics, social studies and English language arts portions of state achievement tests and significantly decreased teacher transfer rates.

The following research provides additional justification of the effectiveness of these services in meeting Goal 5 for our unduplicated students and demonstrates how these services are principally directed towards our unduplicated students based on that status. In the absence of these services, our unduplicated students will not have access to the same educational opportunities as their peers attending schools in wealthier communities throughout the Sacramento area. In a 2015 study(1) of spending on K-12 public school facilities in California, researchers from UC Berkeley, Center for Cities and Schools, found that “poor facility conditions disproportionately affect students and educators in low-wealth communities and undermine the

educational equity priorities that are fundamental in LCFF.” The study found that “low income and minority students are more likely to attend schools with poor physical conditions.” The reason is “there has not been a statewide school construction bond measure on the ballot since 2006 which has increased reliance on local funds, without addressing disparities in local ability to pay relative to local needs.” The findings revealed a relationship between community property values and expenditures on capital outlays. “Districts with more taxable property value per student have, on average, raised more capital funds to pay for facility needs than districts with less taxable property value per student.”

The study also found, “Facility maintenance and operations is a higher budget burden in school districts serving low income students. Many of these districts are disproportionately drawing more from their general operation budgets to pay for M&O than districts serving higher income students. School buildings and their operations cost more in poorer districts, leaving fewer dollars for education programs.” Districts with higher percentages of low income students spent less on capital outlays per student and more on M&O per student than districts serving higher income students. This cycle of inadequate capital investments in aging facilities leads to more expensive emergency repairs and an over-compensation with higher M&O spending out of the operating budget, leaving fewer dollars for educational programs. Low income and minority students are more likely to attend schools with poor physical conditions, which exacerbates educational inequities.

In a 2004 study(2) of the effects of school facilities on teacher retention in urban districts, it was found that schools with poor physical conditions are associated with increased teacher absenteeism, reduced teacher effectiveness, and reduced teacher retention. While all students in TRUSD will have access to clean, safe facilities, the factors identified in this study are highly detrimental to the success of our unduplicated students whose academic achievement is dependent on high quality teaching and quality relationships with their teachers. To ensure our unduplicated students are guaranteed access to a healthy, safe learning environment and an equitable learning environment with high levels of teacher effectiveness and retention, TRUSD is investing in modernization of their facilities that are in disrepair in order to break out of the cycle of inadequate capital investments in facilities.
