#### **Data Statements: Strength**

1. We see a consistent rise in both literacy and math CAASPP data. "All students" and 5th grade data (literacy) are above standard.

#### **Data Statements: Challenges**

We see a decrease with our EL student group in math and a very small rise in literacy. While we see a rise with our SWD student group, there is a significant gap in achievement. Most student groups are not meeting the status target.

#### Why are we getting these results?

3. As our population diversifies, we need to continue to examine our practices to ensure that we are responding to the appropriate student needs. The teaching staff has engaged in data meetings that promote supporting the language needs in ELA, ELD and Math. Teachers have engaged with Benchmark, Envision, inclusion practices and ELD professional development in staff meetings and through Lesson Study. They participate in a district Math Collaborative and the SMCOE ELMI coaching work.

2. We saw an increase in our Students With Disabilities.

#### Why are we getting these results?

3. We see that students who live within our attendance area are able to get to school more often and on time.

Describe any strengths or challenges in implementing your improvement strategies this year that impacted these results.

**4.** Our staff communicates directly with the families of students with disabilities to individualize plans to ensure student attendance increases. We need to continue to build relationships with these families so they feel our outreach as support.

## **Goal Subject**

Language and Literacy

#### **LEA/LCAP Goal**

Students will make progress toward meeting or exceeding grade level California Standards.

## Goal 1

Increase student achievement in language and literacy, as measured by CAASPP, Galileo, and local reading assessments, with the expected outcomes outlined in the table below.

#### **Identified Need**

- Overall statements about the student performance strengths that the strategies (outlined below) will support.
- Overall statements about the student performance challenges that the strategies (outlined below) will address.

Overall we are seeing students grow towards proficiency. Our "all student" group is above standard.

Our SED group is below standard, although we saw a rise last year.

While we see a rise with our EL students, it is not significant.
