

DATE: October 17, 2019  
TO: Michael Milliken, Superintendent  
SUBJECT: Districtwide Safety Training Update

INFORMATION ITEM

The Board of Trustees will receive an update on the Districtwide Safety Training.

BACKGROUND

On August 26, 2019, all new administrators, administrative assistants, lead custodians, and other identified key district staff attended an all-day training for The Big 5 emergency protocols from the Country's school safety lead at the County Office of Education.

On October 9, 2019, all school sites conducted a Big 5 lockdown/barricade drill, followed by student/parent reunification.

On October 14, 2019, the District plans to provide Big 5 training for other front office staff, maintenance and operations, as well as yard duty, substitutes, child care providers and other district staff.

Additional safety training will be provided throughout the school year to new employees.
