Booster Pump for Pool Area

Address: 850 Day Road, Gilroy, CA 95020

Contact: Dan McAuliffe

Phone: 669-205-7940 Cell: 408-710-8480

Email: Dan.Mcauliffe@gilroyunified.org

We are pleased to submit the following proposal for plumbing work to be performed on the above named project. All work to be performed in accordance with the Uniform Plumbing Code, local codes, and accepted industry standards.

Scope of work is as follows:

Supply and install booster pump system for pool area. Includes booster pump system design and install to achieve a constant 60 psi at the hose outlets in the swimming pool area. The purpose and intent of installing a pressure booster is to compensate for pressure loss through multiple backflow prevention devices. The minimum pressure required for the "Spectrum" pool lift to work optimally is 55 psi. This has been verified through operating manuals as well as direct contact with the manufacturer's representatives.

Scope of work does not guarantee proper operation of pool lift, only that it has the proper water supply.

Price:

\$9,250.00

100% Upon Completion

Price is valid for 7 days from date of proposal

\$150 for additional insured endorsements - available upon request and charged separately

1½% service charge will be assessed on amounts 30 days past due.

Sincerely,

Scott Thompson

Plumbing America, Inc.

Signature by both parties constitutes a binding work agreement.
