BACKGROUND

The week of February 3-7, 2020, has been designated as National School Counseling Week within the United States. National School Counseling Week highlights the tremendous impact school counselors can have in helping students explore their abilities, interests, strengths and talents as these traits relate to career awareness and development; for focusing on positive ways to enhance students' social/personal, educational and career development; and working with teachers and other educators to provide an educational system where students can realize their potential and set healthy, realistic and optimistic aspirations for themselves. Arcadia Unified School District counselors have a direct effect on the quality of the District's educational program. Therefore, recognition of school counselors is most deserved.
