

Alpine County USD

Board Update

2/11/2020

- I was at BV on 1/22 and 2/6. On 2/6 I sent Justin to Indian Diggins School to see another 1 room school house and how the teacher/principal/superintendent runs his amazing program.
- On 1/23 I was at the JPA safety training where we learned we need develop a Storm Water Prevention plan. We will work with the JPA next year to do this.
- 2/7 I went to the JPA Board meeting (sitting member)
- I combined my bi-weekly BV visit with my JPA Sonora meeting. Doing this saves me about 10 hours of driving in the winter and about 4 when the pass is open.
- I attended my New Superintendents Symposium (class) and the ACSA Superintendent Symposium in Indian Wells, CA. This was a great conference for me to attend. The focus was on Equity. In addition, I am working with a vendor I have met at two conferences to maybe bring "Get More Math" to Alpine USD. If it works out we will get a full year of the program for free to see if we like it.
- 2/3 I had my DISCO with Matt meeting. I had 8 staff attend and one community member. The main focus was on what I was going to do about truancy/SARB. Another issue is what are we going to do with students that do not do their school work. I will be asking the staff to develop a committee to look at the SARB attendance issue.
- I went to the Create the Good dinner in BV on 2/5. It was a Behavior Health stakeholders meeting. I felt it was important to go to one of the meetings representing the district and county education group.
- Bond Oversight Committee meeting took place yesterday
