City, State:	San Mateo, CA

Project Description

Price

Sealed Engineering Calculations and Drawings

\$15,000

- (1) Gable Roof (REK) 30'x44' with Multi-Rib roof
- (2) Gable Roof (REK) 20'x44' with Multi-Rib roof

Includes:

- Sealed calculations engineered to the 2019 CBC
- Sealed drawings reflecting calculations
- Technical support throughout DSA approval process via AEDIS Architects (revisions, etc.)

(If Applicable) Sales Tax

ADD

Total

\$15,000

Engineering Comments

- Intent is to match the steel frame and roof panels of (3) structures on site - exactly
- Poligon cannot confirm match until engineering is complete (checking every tube, plate, bolt, weld, etc.)
- Poligon would have to assume Site Soil Class 'D - Default' (this may prove to be impossible based on the poor soils indicated in the recent comments by DSA - the geotechnical engineer must confirm)
- Some aspects of the foundation design will change to meet 2019 CBC (likely 6" wider than original design)

Qualifications

- All purchase orders must be addressed to PorterCORP.
- Payment agreement terms to be determined once purchase order is placed.
- New customers may need to complete a credit application.
- **Sales/Use Tax will be added to any order** unless *Sales Tax Exemption Certificate* is submitted.
- Price is based on payment in US currency.
- Prices are valid for 30 days.
