By signing above Sylvan Union School District has received and accepted the above quote submitted by PlanITROI, INC. All information in this quote is confidential and property of PlanITROI, INC.

Terms and Conditions

Inspection & Audit Reporting

PlanITROI shall provide a Serialized Audit Report within 45 business days of receipt of devices to include: Manufacturer Name, Model Number, Configuration, Serial Number on both device and hard drive if included, Data Destruction information, Asset Tag, Grade with any issue found and final Trade-In value based on grade. All reporting will be both via online portal and emailed to contracts above.

Payment

PlanITROI shall reconcile payments to institute or its Technology Partner of choice for completed transactions within 15 business days after inspection and audit report is completed and accepted. By sending the Trade-In funds to your Technology Partner puts more money back into your Technology budget! For FREE Pick, Pack, Ship, you must have a final total Trade-In Value of \$25,000 or more. If not, PlanITROI can provide for a fee.

Product Eligibility

Institute warrants and represents that all devices transferred to PlanITROI or its subcontractors shall be free and clear of all liens, claims, options, charges, restrictions, or encumbrances whatsoever, and that it transfers good and marketable title to all transferred devices to PlanITROI at time of pickup or delivery

Apple, Chrome & BIOS Lock

Institute, by acceptance of this quote, agree to unlock all Apple and Chromebook devices from their remote management and/or provide BIOS passwords for all needed devices prior to the devices arrival at the PlanITROI facility. Any device unlocked after receipt at PlanITROI or its subcontractors is subject to a \$15 per unit charge unless notified ahead of time in writing to PlanITROI Operations.

Recycling

To qualify for FREE recycling, institute must have at least \$50,000 in total Trade-In Value to be eligible. All other non-quoted assets will be deemed recycle only and subject to a \$0.30 per pound plus shipping fee that will be reduced from payment or billed directly for any balance due.

Trade-In Pricing

Trade-In prices listed in quote above are valid for only devices that are complete will all their original OEM accessories and components received by PlanITROI or its subcontractors on or before the quote expiration date. Any devices received that are different then the stated devices in the quote or same devices after expiration date will be priced in accordance with charges in the market value of used devices of the same OEM and similar configuration capacity and condition. No devices will be eligible for return once received by PlanITROI or its subcontractors.

Tech Trade Up Process

Our Green Glove Services

Pick

Pick a date for our team to come to your location to retrieve your devices.

Pack

Our specialized team will securely pack your devices in our Premium Packaging for a safe journey to our facility.

Ship

In two easy steps, we'll ship your devices to our facility and provide confirmation.

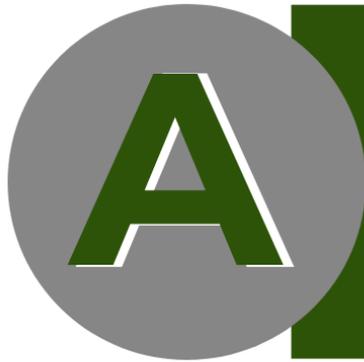

100% Guarantee Data Destruction

We'll inspect, audit and destroy data with 100% Data Destruction Guarantee with Serialized Auditable Reporting to DOD and NIST Guidelines.

How Devices are Graded

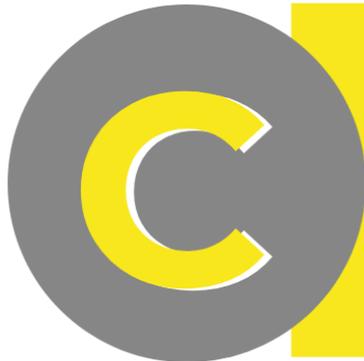

Excellent

Device is New or slightly used for less than 90 days. Device is complete with its original box, packaging and accessories. Device is 100% functional with the remaining OEM warranty.

Good

Device is 100% functional and must pass OEM diagnostic testing. Device must be complete with all its original components and accessories. Device must be in cosmetically good condition with no screen blemishes or scratches.

Fair

Device is 100% functional and must pass OEM diagnostic testing. Device must be complete with all its original components and accessories. Device has more wear than usual. For example: deep scratches, small cracks, etching, small screen blemishes that do not impair use.

Poor or Non-Functional

Device may be functional, but is missing major components such as: memory, hard drive, keys, accessories or have large cracks and/or exposed internal components. Defective or non-functional is considered Grade D.

Recycling

PlanITROI is a certified R2 recycler, the electronics recycling industry's leading certification. The R2 Standard is designed to help ensure the quality, transparency, and environmental and social responsibility, of R2 Certified electronics recycling facilities.

Any Grade A, B or C devices missing original OEM accessories and/or components will be eligible for deduction(s) based on the replacement cost of the accessories and/or components.

100% Guaranteed Data Destruction NIST National Institute of Standards and Technology U.S. Department of Commerce

With Serialized Auditable Reporting to DOD and NIST Standards

3 Step Process

Step #1:

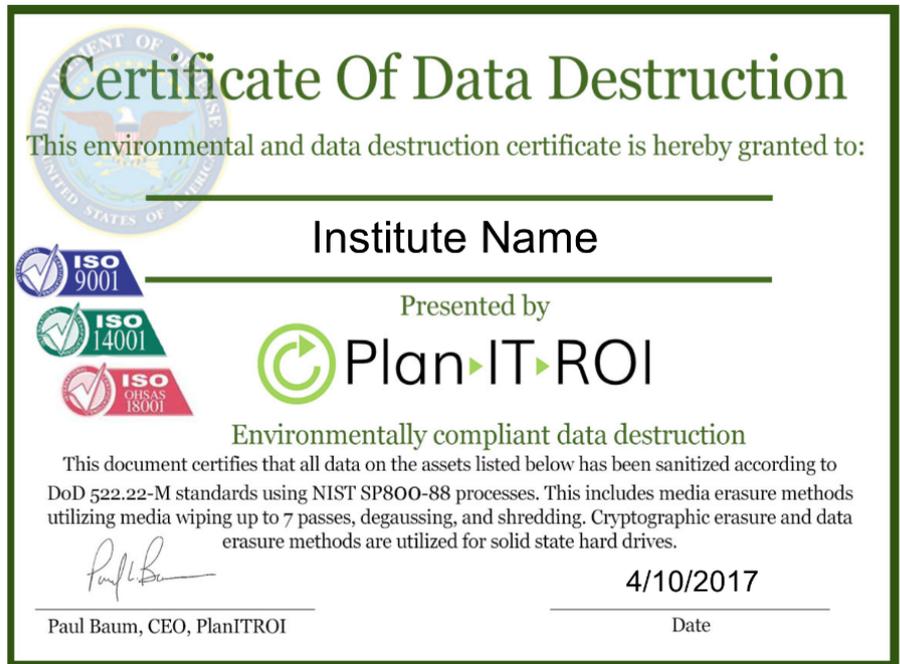

Perform secure data erase to DOD 5200.28-M standard following NIST SP800-88 guidelines to Clients policy for number of erasures.

Step #2:

Record in PlanITvision and QC verify 100% Data has been Erased, if not erased then, pull hard drive for scan ID & SN then destroy hard drive.

Step #3:

Report outcome and report device and hard drive SN electronically and paper certificate.

Example Auditable Serialized Report

OEM	Model	Device Serial #	HDD Serial #	Configuration	Grade
Acer	C720	W801243HAGW	N/A	11" Screen, Celeron 2955U, 4GB RAM, 16 SSD	B
Apple	iPad 4	DMPNX1DVF4YF	N/A	Wifi, 32GB, A1458	C
Dell	Latitude E6440	NXMRDAA00350	J7835DFD	14" Screen, i5-4310u, 8GB, 256GB SSD	B
Apple	iPad Air	JWMQYW1	N/A	Wifi, 16GB, MF004LL/B A14575	B
Lenovo	Thinkpad Yoga 11e	MXL2361ZPF	H15DF125	Celeron N2940 1.83GHz, 4GB RAM, 320GB	D
Samsung	XE303C12	23XY55Y	N/A	11" Screen Exynos 5, 2Gb, 16GB SSD, Wi-fi	C

Our reports show required information for your Educational Institute to pass a state mandated data destruction audit.

For any device with a Flash Memory-Based Storage, we perform a factory and re-image.¹

On Chromebook devices, user data is deleted through Cyptographic Erasure. This is an industry standard technique that renders data unreadable by deleting the encryption keys needed to decrypt that data.² On Apple Devices, user data is destroyed by wiping the 256-bit AES encryption; rendering all data inaccessible through Secure Erase.³

Maximize the value of your retired devices, while changing lives with affordable technology, by selling your technology to Tech Trade Up

The Opportunity

WIN!

Social Responsibility

WIN!

Environmental Sustainability

WIN!

Affordable Technology for Kids and Families

WIN!

Get Paid To Do The Right Thing!

The Challenge

Where are your retired devices going?

Who are your retired devices benefiting?

U.S. students lack adequate technology resources at home.

The Solution

Retirement Process

Decision to Sell Wholesale As-Is or add value to help others

Added Value - Direct to next user

Devices sold direct to next user through major retailers: Best Buy, Walmart, Amazon, NewEgg, eBay, and employee purchase

Value Added Refurbishment Process with 18 month warranties qualified for Major Retailers as Recertified products

PlanITROI helps your organization uncover and recover the highest possible value for your retired devices and helps "change lives with affordable technology"

The Benefits

6 MILLION

devices direct to the next user in your own community.

Conquering the Digital Divide

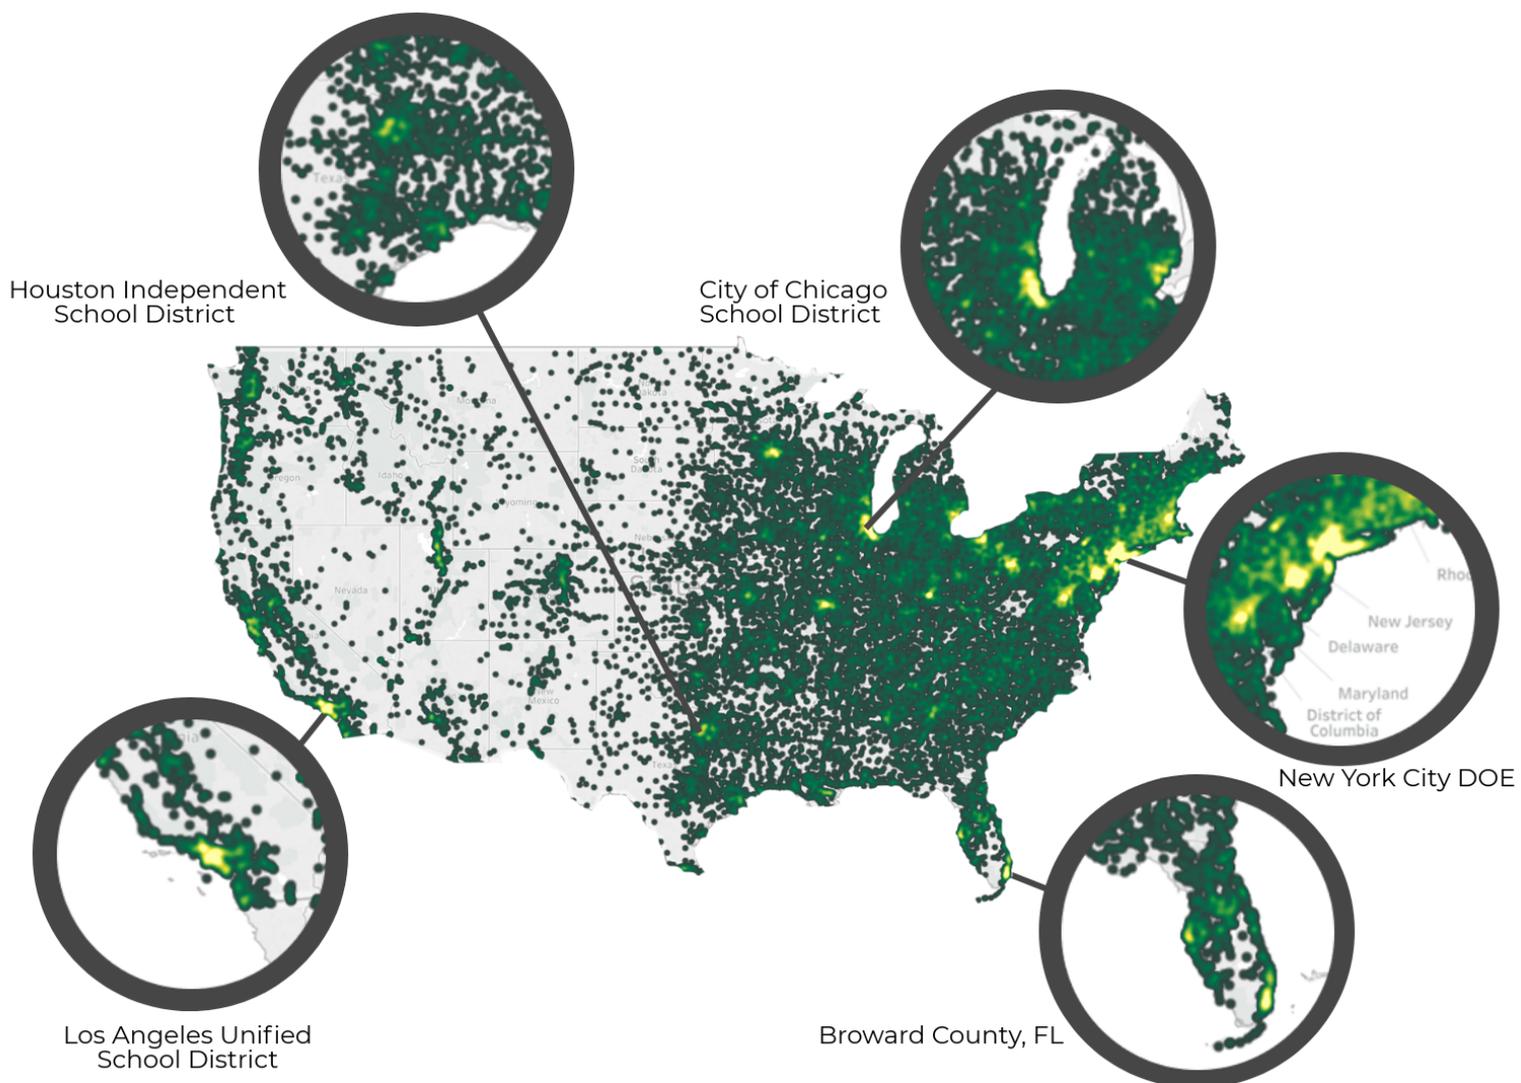

Your recertified devices are at work to help conquer the digital divide

Get Behind the Movement

By selling your retired devices to TechTradeUp, we ensure they are going to a new home in need of affordable technology in your community. Our mission is to...
“Change lives with Affordable Technology”.

Since 2011 we have sold more than 6+ million devices to students who now can get their homework done!

To learn more about how you can help your community and others across the US bridge the digital divide visit us at TechTradeUp.com and TechTuesday.fun to get behind the movement!
