•Over the years, this facility has undergone numerous changes and incarnations. Most recently, this facility was home to Cesar Chavez and Green Oaks Academy. The beginning of this school year saw the District moving to a TK-5 model for elementary schools, while moving students in grades 6, 7 and 8 to this facility, which now operates under the name of Ravenswood Middle School. At the same time, a major bond-funded renovation and remodeling of the facility was started and is projected to last into next school year. Accordingly, as construction and renovations projects are still occurring, not all the classrooms are fully operational or being used by students. At the present time, new wiring for internet and AC is being installed and wires hanging from ceilings and walls are visible in most classrooms. The rooms and wings that have been renovated look very nice and represent state of the art learning spaces. These rooms and their interior and exterior walls have been painted and new windows and roofs have been installed. New sidewalks will be installed shortly. Very large and up to date science labs are included as part of the plan. (Wings 10-30). Some classes are still being held in portables and in the old Cesar Chavez wing (Wings 50-90). There
