By nature, some items (i.e. technology items, food, fuels, and financing) fluctuate in price, performance and/or features due to market conditions that dictate a quick bid and award turn-around time. As such, it becomes necessary to bid or utilize new or existing competitively bid cooperative purchasing contracts or exclusive educational contract sources. Recommendation for award will be sought from the Board of Education when formal bid purchases become necessary and bids and/or contract pricing is known. The current formal bid limit is \$95,200 for:

1. the purchase of equipment, materials, and supplies
2. services, except construction services
3. repairs, including maintenance as defined in Public Contract Code Section 20115

Board of Education approval will allow the District to bid and, later recommend for award, frequently purchased commodity items or services subject to rapidly changing market conditions in a cost efficient, timely manner.
