

COVID-19 Operations Written Report

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone	Date of Adoption
Lucerne Valley Unified School District	Peter Livingston, Superintendent	peter_livingston@lucernevalleyusd.org 760 248-6108 ext 4131]	June 11, 2020

Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of the changes your LEA has put in place. LEAs are strongly encouraged to provide descriptions that do not exceed 300 words.

Provide an overview explaining the changes to program offerings that the LEA has made in response to school closures to address the COVID-19 emergency and the major impacts of the closures on students and families.

In response to school closures to address the COVID-19 emergency, Lucerne Valley Unified School District implemented a Remote/Distance Learning Plan. The goal of the plan was to provide distance learning opportunities for Lucerne Valley students. The primary focus was to provide opportunities for students to raise their grades they had at the start of the closures through remote learning.

Provide a description of how the LEA is meeting the needs of its English learners, foster youth and low-income students.

The Lucerne Valley Unified School District has continued to provide English Language learners and low-income students with targeted instructional opportunities and support services to ensure that these students are meeting and exceeding the State Standard. Bilingual Aides were available for communication purposes for all teachers.

Provide a description of the steps that have been taken by the LEA to continue delivering high-quality distance learning opportunities.

Students were provided options in a virtual setting through applications like Zoom, Google Classroom, and prerecorded videos amongst other things. Students also had options for packet work for those with limited internet access. Materials were available for pickup on a schedule at the school sites and also through the mail by request. Due to our remote location internet was a large challenge. All students had access to Chromebooks, but not all had good enough internet to access. A request to the Governor was put in for remote hotspots through a survey completed several times. No hotspots have been received to date. Even with hotspots the same challenge of internet access would still exist due to poor coverage in our area. Teachers and bilingual staff made contact and calls to all parents throughout the closure.

Provide a description of the steps that have been taken by the LEA to provide school meals while maintaining social distancing practices.

LVUSD provided school meals from Day 1 of the closure. Our food service department provided a grab and go breakfast and lunch option Monday through Friday. Further food was provided through partnerships with the United Way and a program called “Operation School Bell.” Food was delivered in certain circumstances for families with transportation problems.

Provide a description of the steps that have been taken by the LEA to arrange for supervision of students during ordinary school hours.

LVUSD determined that providing supervision for students was not feasible with the guidelines set forth by the County and State in regards to social distancing and public gathering along with the direction from the state for closure of all schools. No families requested this during the closures.
