

Agriscience System Management

New Course Proposal – April 23, 2015

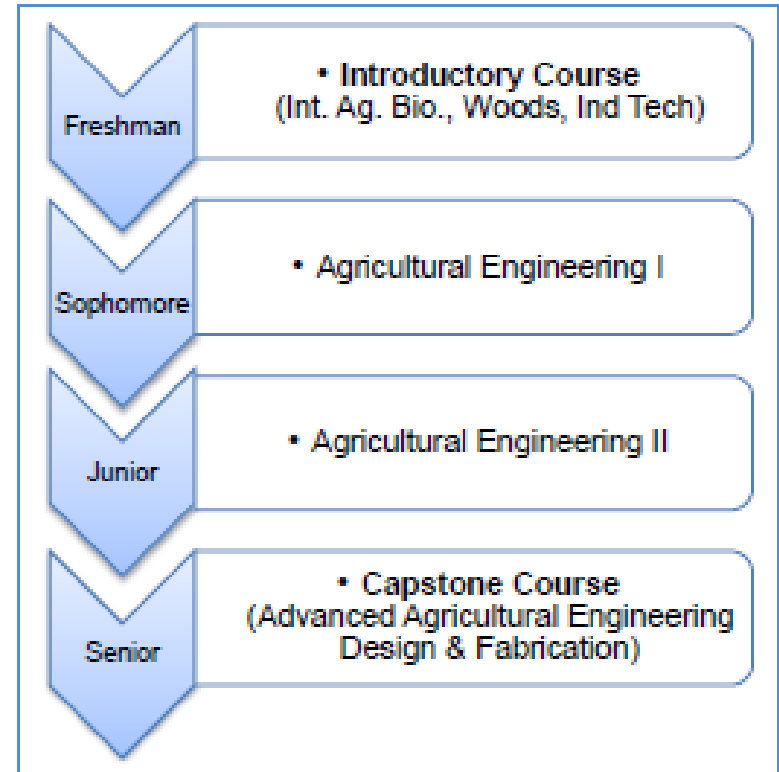

Davis Senior High School

Agriculture Pathways and Suggested Course Sequences

Agriscience Pathway

Agricultural Engineering Pathway

Davis High School Agriculture

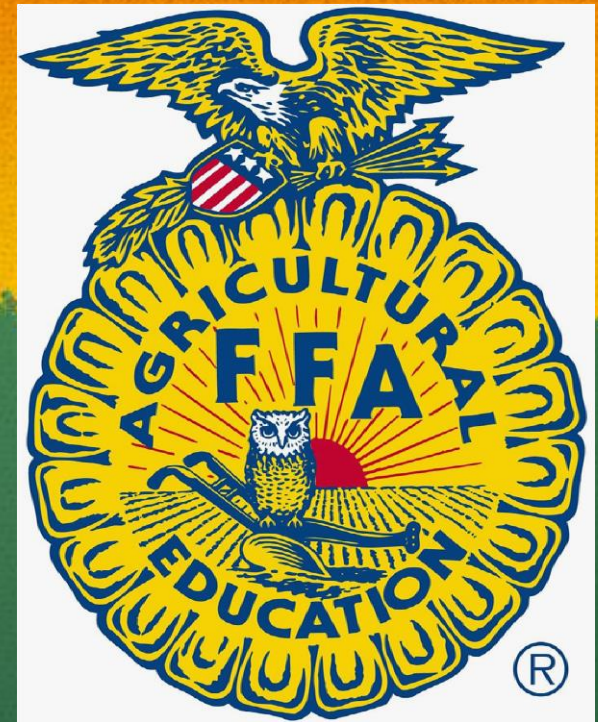

Developing students' ability to demonstrate academic and technical competency, be confident in their individual abilities, and model qualities of leadership needed for future success.

Focus

Make a positive difference in the lives of students by developing their social, professional, and career potential.

Program goals:

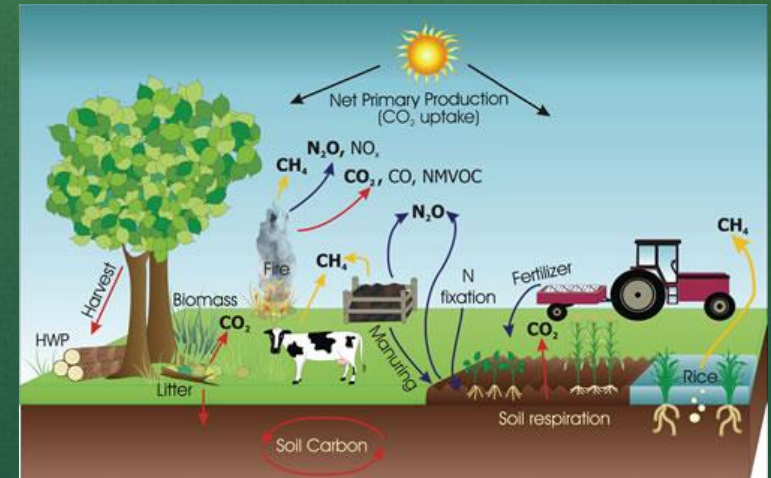

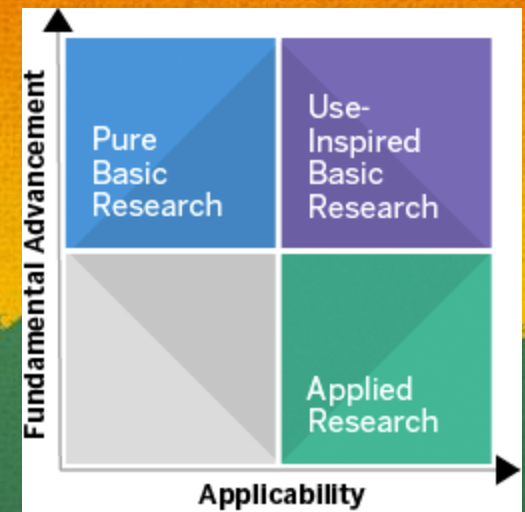

1. STEAM driven classes.
2. Developing the individual scholar, entrepreneur, and leader
3. Foster real-world experiences and applications now.
