 This group of students would be offered a distance learning support center run by paraeducators. They would log in and engage in synchronous learning with their teacher of record. Students may need to be separated by level or program type based on recommended staffing ratios, even though the program is not instructional in nature. The instruction would come from the classroom teacher. Related services would be provided virtually. Afternoons after synchronous learning ends would be for lunch, motor skills, social skills, and learning activities (not curriculum or targeted specialized academic instruction).

The chart below reflects current student enrollment and assigned staffing. However, it is unclear whether all children would choose to access the distance learning support center. The number of distance learning support centers will be fluid. As centers reach capacity additional centers will be added.

**Service Description:**

Regional school sites will be identified to host student cohorts (of mixed student populations). Programming will be modeled after the EGUSD ASES program. Use of classrooms and a scheduled playground rotation will be utilized to maintain separation of cohorts during distance learning. Assigned cohort staff will assist students' access to schoolwork during school hours and facilitate outdoor or enrichment activities. Tutorial supports will also be provided through contracted providers (TES) or FYS Paraeducator to assist students with subject content and study skills. A sample schedule of the ASES program is as follows:
