

HopSkipDrive

The safe and reliable student transportation solution for schools, districts and counties.

The HopSkipDrive solution **complements** traditional student transportation with a cost-efficient, flexible way to meet **alternative or non-routine** transportation needs and alleviate driver shortages.

How It Works

1

You need transportation for students who don't fit on traditional bus routes.

2

The HopSkipDrive Platform connects you with a trusted network of CareDrivers.

3

Easily set up rides in the HopSkipDrive Platform — rides are guaranteed.

4

Pickup notes and multi-factor authentication ensure students and CareDrivers safely find each other.

5

Get alerts for each stage of the ride and view the ride as it's happening. Parents or caregivers on the child's account also get alerts for added visibility and safety.

6

The HopSkipDrive Safe Ride Support System tracks rides in real time, proactively addressing any issues.

7

Our Client Success Team is there each step of the way, from set-up to reporting.

Who We Work With

- ✓ Districts
- ✓ Counties
- ✓ Independent & Charter Schools
- ✓ Nonprofits
- ✓ Continuing Education
- ✓ And More...

We Get All Students Where They Need to Go

- ✓ McKinney-Vento & Foster Youth
- ✓ Youth With Special Needs
- ✓ Continuing Technical Education
- ✓ Students With Individualized Education Plans
- ✓ Any Other Non-Routine Needs

Partnerships That Drive Success

Why We're Different

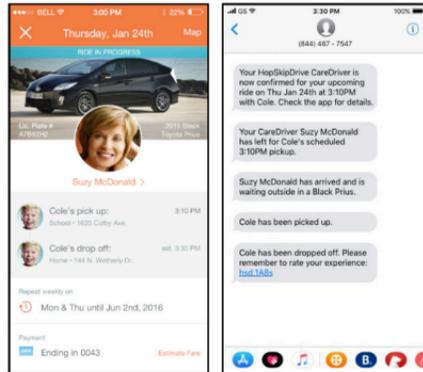

Powerful, Intuitive Technology

- ✓ Easily create rides for students with individual transportation needs.
- ✓ Book, edit and cancel one-time and recurring rides within minutes.
- ✓ Intuitive, easy-to-use platform takes the complexity out of scheduling.

Real-Time Visibility

- ✓ Safe Ride Support System provides end-to-end ride visibility.
- ✓ Ride Organizers and HopSkipDrive users connected with rider's account can follow each ride in real time.
- ✓ Automated ride updates to all HopSkipDrive users connected with account.

Flexible, Scalable & Cost Effective

- ✓ Sudden increases and decreases in ride demand met by flexible supply.
- ✓ Build out **new rides in minutes** and get **matched to CareDrivers for next day rides**.
- ✓ Meet individualized transportation needs: different schedules, youth with special needs or IEPs.
- ✓ Commercially insured.

Rigorous Safety Measures

- ✓ CareDrivers undergo a rigorous 15-point certification process and are required to have 5 years of caregiving experience.
- ✓ App technology records events of risky driving.
- ✓ Safety Advisory Board of industry leaders.
- ✓ **35% safer driving** than general public.
- ✓ **800% less device distraction**.

Our COVID-Safe Ride Standards

HopSkipDrive is committed to our community's health and safety. Working with CDC guidelines, local guidelines and health experts, we created a set of enhanced COVID-Safe Ride Standards.

Health-Forward Tech & Processes Go Above & Beyond

In-app features enable CareDrivers to affirm they are asymptomatic and have not been exposed to COVID-19 prior to offering rides through the platform.

CareDrivers must affirm that they have sanitized vehicles prior to each ride.

Technology enables real-time feedback from CareDrivers, Riders and Ride Organizers.

The Safest In-Ride Environment for CareDrivers & Riders

CareDrivers must wear face coverings and proper personal protective equipment during rides; Riders are also asked to follow CDC and local guidelines on wearing personal protective equipment.

Plastic dividers between the front and back seat will be used in every vehicle. We are one of the first transportation network companies in the country to adopt plastic dividers as a standard operating procedure.

Vehicles must be cleaned and disinfecting between rides following CDC guidelines.

Ride Organizers are asked to follow CDC and local guidelines by keeping Riders home if they show COVID-19 symptoms.

CareDrivers & Ride Organizers Provided With Critical Safety Resources

HopSkipDrive believes education is key to safety, and currently connects CareDrivers with safe driving resources. We will provide COVID-Safe Rides Standards resources for Ride Organizers and CareDrivers.

In-app notifications remind Ride Organizers and CareDrivers of COVID-Safe Ride Standards and best practices.

HopSkipDrive connects CareDrivers with free telehealth screenings.

Minimize Exposure Through Anonymous COVID-19 Exposure Reporting

HopSkipDrive will facilitate anonymous COVID-19 exposure reporting. (No personal information will be shared in the process.)

Visit www.CovidSafeRides.com for more information.

Districts

Pasadena Unified School District:

The Pasadena Unified School District partnered with HopSkipDrive to streamline non-routine transportation for students with Individualized Education Programs. Their previous system was time-intensive, expensive and presented safety challenges.

HopSkipDrive provided a cost-effective, flexible, safe solution. As the school district needed more IEP transportation, HopSkipDrive easily scaled to meet their needs, quickly building out additional routes.

“When our district found itself with a major shortage of transportation, HopSkipDrive helped us provide rides for our families, going above and beyond to provide top-notch customer service.”

— Gary T.

Transportation Dispatcher & Scheduler

Counties

Los Angeles County:

The Los Angeles County Department of Children and Family Services (the largest welfare system in the country) partnered with HopSkipDrive to ensure consistent school-of-origin transportation for students in foster care.

When students are removed from their home, change placements, or are reunited with their family, it may be necessary to build or change routes, which can take weeks in a traditional model.

HopSkipDrive's flexibility allowed for rapid response and fulfillment of transportation, including sudden increases or decreases in riders. New routes take minutes to build out in the app and were matched to CareDrivers in less than 24 hours.

The flexible model also enabled custom schedules, allowing students to get to school early to make up credits or stay for after-school programs.

“HopSkipDrive enabled many of our youth to remain in their school-of-origin when other areas in their lives are changing. The program has grown exponentially and it shows how impactful this work is. Your team's ongoing communication, timely responses, availability, etc. has all helped make this a success. Many thanks for the commitment to the children that we serve!”

— Kandace H.

CSA, Los Angeles County Department of Children and Family Services

Schools

Crete Academy:

Crete Academy is a non-profit charter school in South Central Los Angeles aimed at serving students experiencing homelessness.

HopSkipDrive partnered with Crete Academy to provide a transportation solution for the children in this unique school. Reliable, punctual transportation brought stability to students' days, easing the emotional and mental burden of figuring out how to get to school.

“**HopSkipDrive** is helping us get our students to school on time and excited to learn. Their energy in the mornings has completely changed because they're not stressed out from figuring out how to get to school. They know they can count on their ride.”

— Hattie M.

Founder, Crete Academy

More Reviews

“**HopSkipDrive** has been a tremendous resource, helping to get our students to off-campus activities and games as well as to school. The drivers have been 100% reliable, and I feel so safe having my students ride with them. They've been a lifesaver!”

— Sarah H.

Director of Student Life & Campus Operations, Westmark School

“Not only will **HopSkipDrive** help reduce the district's overall transportation costs, but offering this service to students with specialized transportation needs will help to shorten commute times—meaning less time in transit and more time learning.”

— Leigh Cook

Director of Federal Programs and Academic Compliance, Klein Independent School District

Meet Our Safety Advisory Board

The HopSkipDrive Safety Advisory Board is a select group of student transportation industry leaders.

From the Founder and former CEO of one of the largest school bus companies in the U.S. to leaders of some of the most well-respected organizations on youth transportation safety, our Board's expertise ensures we are, and continue to be, a leader in safety.
