

# Infinite Campus

Student Information System

# **Purpose of a Student Information System (SIS)**

The Student Information System is the core of an educational institution.

This system stores and manages student demographic data, provides a platform for assigning courses, student enrollment, attendance tracking, schoolwork grading, behavior incidents, mass communications, report cards, and is the centralized platform for maintaining and preparing CALPADS data for annual CA state reporting.

# SIS Migration Strategies

## Standard Industry Strategy

- 1.5 - 2 years for a full migration from contract to production
- Full internal team committed to project plus dedicated vendor team for knowledge transfer
- Multi-faceted data migration
- In person training for all staff user roles by vendor
- 1 year of parallel production environments

## Lemon Grove

- 4 months to production
- 2 part time staff members with minimal direct vendor support
- Partial vendor data migration
- Remote training for staff user roles by vendor
- Immediate cutover with base level functionality, many standard features to be phased in stages.

## Phase 1 - Kickoff

- Why
- How
- When

## Phase 2 - Data Migration

- Conversion
- Mapping
- Formatting and Structure
- Cleansing
- De-Duplication
- Validation

## Phase 3 - Training & Rollout

- Specialized departments
- Elementary & middle teachers
- 100% Zoom training
- Online Documentation and Campus Community knowledge base

# SIS Implementation Challenges

- COVID-19 Pandemic shutdown
- High turnover of Technology Department Staff
- High turnover of District Leadership
- Infinite Campus' inability to deliver all negotiated items
- [Project Timeline](#)

# Accomplishments - Current Functionality

## Modules and Functions

- Sites, calendars, users, roles
- Messenger for students/families
- Programs (EL / Foster & Homeless / 504)
- FRAM (CEP, Harris 2-way, online applications / app processing)
- Clever Integration
- Google Classroom Integration
- Think Central SSO
- Parent Portal

# **Future functionality**

## **Modules and Functions**

- Special Education / SEIS Integration
- Historic Data Migration - English Learner & CAASPP
- Panorama Integration
- Online Enrollment and Registration
- Student Portal
- Destiny Integration
- Blended Learning
