

BP 6164.6 - Section 504

Current BP 6164.6

The Governing Board recognizes the need to identify and evaluate children with disabilities in order to provide them with a free, appropriate public education. Under Section 504 of the federal Rehabilitation Act of 1973, individuals with a physical or mental impairment that substantially limits one or more major life activities, including learning, are eligible to receive services and aids designed to meet their needs as adequately as the needs of nondisabled students are met.

The Superintendent or designee shall establish screening and evaluation procedures to be used whenever there is reason to believe that a student has a disability that limits his/her ability to attend or function at school.

To evaluate the student's eligibility under Section 504, the Superintendent or designee shall convene a school site committee of professionals knowledgeable about the student's individual needs and school history, the meaning of evaluation data, and accommodation options. The student's parent/guardian shall be invited to participate on this committee.

If the student is found to have a disability that requires services under Section 504, the school site committee shall develop a written accommodation plan for the student. Upon reviewing the nature of the disability and how it affects the student's education, the committee shall determine what modifications and/or special services and aids are needed. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs.

The school site committee shall provide the parent/guardian with a written copy of the accommodation plan and notice of procedural safeguards guaranteed by law.

Revised BP 6164.6

The Board of Education believes that all children, including children with disabilities, should have an opportunity to learn in a safe and nurturing environment. The district shall work to identify children with disabilities who reside within its jurisdiction in order to ensure that they receive educational and related services required by law.

The Superintendent or designee shall provide identified students with disabilities with a free appropriate public education, as defined under Section 504 of the federal Rehabilitation Act of 1973. Such students shall receive regular or special education and related aids and services designed to meet their individual educational needs as adequately as the needs of nondisabled students are met. (34 CFR 104.33)

In addition, qualified students with disabilities shall be provided an equal opportunity to participate in programs and activities that are integral components of the district's basic education program, including, but not limited to, extracurricular athletics, interscholastic sports, and/or other nonacademic activities. (34 CFR 104.37)

In providing services to students with disabilities under Section 504, the Superintendent or designee shall ensure district compliance with law, including providing the students and their parents/guardians with applicable procedural safeguards and required notifications. Any dispute as to the identification, evaluation, or placement of any student with a disability shall be resolved in accordance with the processes specified in the "Procedural Safeguards" section of the accompanying administrative regulation.

The Superintendent or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with the district in any other capacity except as hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.
