After hearing public comments, the Governing Board engaged in discussion regarding the temporary closures. Ms. Sinnette recommended keeping TK-2 open, closing the 7-12 pods and using the substitutes currently working for that program to support TK-2 teachers that are uncomfortable working in-person. Additionally, she recommended keeping SDC Preschool through 12<sup>th</sup> grade and RSP K-3 open.

It was moved and seconded (Jeffries/Radabaugh) to extend the meeting to midnight. The motion to extend the meeting to midnight was approved unanimously.

The Governing Board recognized the pressure on student athletes to attend conditioning even if they are uncomfortable. It was suggested that athletic components be closed until January 19, 2021 to see what the CIF recommendation is going to be. Campus security for the athletic fields was discussed.

Ms. Puglia clarified the current recommendation, which is to keep TK-2 hybrid open with teacher support; maintaining RSP K-3; maintain SDC K-12; pausing 7-12 learning pods for the nine instructional days remaining in January with a solid reopening on February 1<sup>st</sup>. Athletics will be suspended until further direction from CIF on January 19<sup>th</sup>.

Ms. Sinnette reported on the collaboration with Verdugo Hills Hospital to provide the vaccine to district staff.

Third grade reopening was discussed. Ms. Sinnete stated that while we will continue to monitor the surge, she has asked principals to be ready to bring back third graders in February.

Mr. Jeffries clarified and reiterated why the district is partially following the recommendation of the Department of Public Health. He stated that the district has done its due diligence and has been following all protocols as set out by the state and the county. The county has approved the district's protocols. The district has been providing in-person learning for a number of months and has been able to follow and maintain the protocols in place. The county recommendation is a recommendation and not an order. Positive cases in La Cañada have been lower than the Los Angeles County cases in general. The district has found that continuing with in-person learning significantly benefits our students. Lastly, that families and teachers have been given the opportunity to decide whether to participate in in-person instruction or virtually.

It was moved and seconded (Radabaugh/Anderson) to adopt the Department of Public Health recommendations by restricting and reducing the on campus presence, and reducing those activities to the level most possible to support our needy learners but also accomplishing the district's community goal of reducing exposure by limiting the activity on our campuses. The Governing Board agreed to maintain operation of TK-2 providing teacher support, maintaining RSP K-3, continuing with SDC services K-12, pausing 7-12 learning pods for nine instructional days with a reopening on February 1st. Athletics will pause until further direction from CIF on January 19, 2021. School sites will remain open as a workplace. The motion was adopted unanimously.
