DISCLOSURE OF CONFLICTS OF INTEREST WITH VARIOUS FORMS OF COMPENSATION

Government Financial Strategies is required to provide written disclosure to all financial advisory clients about the actual or potential conflicts of interest presented by the form of compensation contemplated under this Agreement. Set forth below are the potential conflicts of interest as provided by the Municipal Securities Rulemaking Board (MSRB) associated with various forms of compensation which are anticipated to be used under this Agreement. There are other forms of compensation that Government Financial Strategies believes create conflicts of interest that can not be overcome and are therefore not contemplated under this Agreement. For more information, please refer to www.msrb.org.

Forms of compensation; potential conflicts. The forms of compensation for municipal advisors vary according to the nature of the engagement and requirements of the client, among other factors. Various forms of compensation present actual or potential conflicts of interest because they may create an incentive for an advisor to recommend one course of action over another if it is more beneficial to the advisor to do so. This document discusses various forms of compensation and the timing of payments to the advisor.

Fixed fee. Under a fixed fee form of compensation, the municipal advisor is paid a fixed amount established at the outset of the transaction. The amount is usually based upon an analysis by the client and the advisor of, among other things, the expected duration and complexity of the transaction and the agreed-upon scope of work that the advisor will perform. This form of compensation presents a potential conflict of interest because, if the transaction requires more work than originally contemplated, the advisor may suffer a loss. Thus, the advisor may recommend less time-consuming alternatives, or fail to do a thorough analysis of alternatives. There may be additional conflicts of interest if the municipal advisor's fee is contingent upon the successful completion of a financing.

Hourly fee. Under an hourly fee form of compensation, the municipal advisor is paid an amount equal to the number of hours worked by the advisor times an agreed-upon hourly billing rate. This form of compensation presents a potential conflict of interest if the client and the advisor do not agree on a reasonable maximum amount at the outset of the engagement, because the advisor does not have a financial incentive to recommend alternatives that would result in fewer hours worked. In some cases, an hourly fee may be applied against a retainer (*e.g.*, a retainer payable monthly), in which case it is payable whether or not a financing closes. Alternatively, it may be contingent upon the successful completion of a financing, in which case there may be additional conflicts of interest.
