Document for ordering Actions

LCAP Finalization Requirements:

- 1. Present the local control and accountability plan to the parent advisory committee. Complete
- 2. If applicable, present the local control and accountability plan to the English learner parent advisory committee. Complete
- 3. Notify members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the LCAP.
- 4. SPSAs must be reviewed to ensure that the specific actions included in the LCAP are consistent with strategies included in the SPSAs.
- 5. Hold at least one public hearing and the <u>public hearing must be held at the same meeting as the</u> <u>public hearing for the budget</u>.
- 6. The local governing board must adopt the LCAP in a public meeting. This meeting must be held after, but not on the same day as, the public hearing for the LCAP. This meeting must be the same meeting as that during which the governing board of the school district adopts a budget.

Local Control and Accountability Plan (Instructions below)

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone			
Berkeley Unified School District					
Plan Summary [LCAP Year]					
General Information					
A description of the LEA, its schools, and its students.					

Berkeley Unified School District (BUSD) serves approximately 10,000 students in grades pre-K through 12. Those students are served at three preschool sites (~450), 11 elementary schools (~4000), three middle school schools (~2100), and one comprehensive and one alternative high school (~3200). The ethnic diversity of BUSD in grades TK-12 (based on 2020-2021 enrollment) includes students who are White (41.2%), African-American (12.7%), Hispanic/Latinx (22.3%), Two or More Races/Other (15.7%), and Asian (8.2%). English Learners (ELs) comprise 6.3% of the district population with 55.3% of ELs speaking Spanish as their primary language and 9.8% speaking Arabic. Students in BUSD speak more than 40 different home languages. BUSD has an overall student graduation rate of 87.6% (2020 Cohort), above the state average of 84.3%. While most racial/ethnic groups maintained a relatively stable percentage of the district composition, the BlackAfrican American population has decreased from 22.3% to 12.7% in the past decade. During the same time frame, the population decreased to 6.7% of the district, half the size of a decade ago. Additionally, the population of students experiencing socio-economic disadvantage (SED) decreased from 40.6% of the district to 27.2%.

The Mission of the Berkeley Unified School District is to enable and inspire our diverse student body to achieve academic excellence and make positive contributions to our world. The LCAP document must focus on eight areas identified as state priorities over a three year period including:

- Basic Services
- Implementation of Common Core Standards
- Parental Involvement

- Student Achievement
- Student Engagement
- School Climate
- Course Access
- Other Student Outcomes

The BUSD's Local Control and Accountability Plan (LCAP) has been consistently focused on three primary LCAP goal areas:

- 1. High quality classroom instruction
- 2. Culturally and Linguistically Responsive Systems
- 3. Safe and Welcoming Schools

These goals serve as a framework for improving outcomes for all students, while allowing us to use limited resources to prioritize the actions, services, and expenditures that will be most effective in serving our "unduplicated students" as defined by the state - Socioeconomically Disadvantaged, English Learners, and Foster Youth. California Dashboard data also points to Homeless (McKinneyVento) students, Students with Disabilities, African-American students, and Latino students as other student groups that should be closely monitored and supported. The LCAP actions and services are each tied to a series of metrics that are monitored closely and used in determining modifications made to each year's plan. Local educational reforms have led to measurable improvements in student outcomes, as demonstrated by several state indicators found in the Annual Update sections. Community participation continues to be a critical factor in the effectiveness of our LCAP-funded programs and services, and contributes to the modifications and improvements we are making from year to year. The LCAP Parent Advisory Committee (PAC), District English Learner Advisory Committee (DELAC), the Educator Advisory Committee (EAC) and student focus groups provide active forums for engaging key stakeholders in our on-going investments in educational excellence and equitable outcomes for all students. Student focus groups survey students from middle school, high school and continuation high school. As our processes mature, the advisory groups become more sophisticated in data analysis and this improves trusting coordination with the district. Grade TK-12 student demographics (2020-21 enrollment): 26.8% Socioeconomically Disadvantaged (SED) 6.5% English Learners 41.2% White 22.3% Latinx 12.7% African-American

- 15.7% Two or More Races/Other
- 8.2% Asian
- 12.1% Students with Disabilities
- 2.4% Homeless (McKinney-Vento Services)
- <1% Foster Youth

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data

Overall, BUSD students demonstrate achievement and outcomes well above state averages. The following details evidence from academic data, such as assessment and college/career indicators, attendance, and English Learner (EL) programming to demonstrate district successes.

Due to the COVID-19 pandemic, our most recent Smarter Balanced Assessment (SBA) data is from 2019. However, recent local assessments, using the Renaissance Star Reading and Math assessments, confirm conclusions drawn from SBA analysis. BUSD Students were 1.7 times more likely to be meeting standards than students across California. In particular, a high percentage of White students and students identified as two or more races met grade level standards, with 87% of White students meeting ELA standards and 81% meeting math standards (77% on ELA and 70% on Math for students identified as two or more races). A very similar pattern of students at or above benchmark was observed in the recent winter administration of the Star Reading (All 64.9 % meeting, White 78.6% meeting, Two or more races 75.1 % meeting) and Math (All 64.27 % meeting, White 77% meeting, Two or more races 70% meeting).

Within three years, BUSD stabilized graduation rates at the state average while increasing the graduation rate for African American students from 82% to 90%. When viewing graduation rates alongside other indicators of college and career readiness, BUSD success becomes more apparent. The average rate of students meeting UC/CSU requirements is 10% higher than the Alameda county rate and 13% higher than the state at 58%. During the 2020-21 school year, 765 of 10-12th grade students are enrolled in at least one AP/IB/HP class. Additionally, one in three students is enrolled in a high quality Career Technical Education course.

The overall chronic absenteeism rate declined to 9.2% from 2017 to 2019. This is well below the state average of 12.1%, which had been increasing in that time period. English Learners have a slightly higher rate of 11.8% in 2019, still below the state average, and in 2018 had the same rate as all students.

Finally, the district demonstrated success for English Learners. More than half of ELs scoring 1 or 2 on the summative ELPAC improved from 2018 to 2019. Of students in grades 9-12, 100 have been designated English Learners for 6 or more years, while 383 have been redesignated as fluent (RFEP).

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Although the participation rate for state testing is below the federal minimum participation level, salient patterns, consistent with other areas of concern, are visible in the results. The 2019 SBA Math and ELA results show that 70% or more of Black, EL, and Students with Disabilities are not yet meeting grade level standards. All elementary students have experienced a three year decline in math scores with ELA scores staying fairly consistent. During the Spring administration of STAR middle school growth has decreased. During the 2020 - 2021 school year, students improved an average of 28 points from the fall to winter administration, but only six points from winter to spring.

Although the African American student graduation rate is increasing, there are concerning trends for that group's college and career readiness. In 2019, only 56% of Black students met UC/CSU eligibility criteria compared to 83% of White students. Additionally, Black, Latinx, socioeconomically disadvantaged, and special education are seven times more likely to be earning a 1.5 GPA or lower compared to their White peers. The disparities are also apparent in course enrollment. Fewer than 40% of Black, EL, and SPED students are enrolled in at least one AP, IB, or honors course. Additionally, Latinx and Black/African American graduates complete CTE pathways at rates below the district average of 12.3% (6.2% and 8.6%, respectively).

Students with disabilities consistently had an absence rate twice that of the district average, as did African American students. Socio-economically disadvantaged students had rates between 6 and 8% higher than the average rate in the district. Given the challenges of distance learning, it is encouraging that we had excessive absenteeism rates, defined as missing a combination of 40% of instruction) below 5% at elementary through high school in the first month of the year. However, distance learning exacerbated existing disparities in attendance. Although English Learner attendance was near average in K-8, the absenteeism was double the Berkeley High average. Socio-economically disadvantaged excessive absenteeism rates increased to double that of their peers.

At the elementary and middle levels, we see disparities in achievement not just in Reading but also in Math on the Star assessments. This winter, 40% of EL students were at benchmark compared to 74% overall in Math, and the rates were 32% and 78% in Reading. Additionally, English Learners are much more likely to be in Special Education and be socio-economically disadvantaged (SED); in 20/21 53% of English learners were SED compared to 27.2% overall and 25% had IEPs compared to 12% overall. While many English Learners reached proficiency, a quarter are Long Term English Learners in BUSD. At the high school level, 26% of EL students earned below a 2.0 GPA for the first quarter of this year, compared to 11% overall.

Significant disproportionality in Special Education/CCEIS - we need to mention this.

BUSD has been identified by the state for having a significantly disproportionate number of African American students enrolled in Special Education services. In 2019-20, African American/Black students were 13.7% of the district's student population of 10,346 students and were 31% of special education enrollment of 402 students. In comparison, the population of students enrolled in special education is 23% White and 27% Latinx.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The 2021-2024 LCAP represents a significant effort by BUSD's entire community to focus the work to improve student outcomes in our community. With the challenges of the Pandemic, Distance Learning, and the health and safety of staff and students, the work to develop this strategic plan has been influenced by unprecedented challenges. At the same time, this new LCAP has provided BUSD the opportunity to establish new district goals to focus the work ahead. These new goals continue the BUSD priorities:

- 1. High-quality classroom instruction
- 2. Culturally and Linguistically Responsive Systems
- 3. Safe and Welcoming Schools

The new goals include:

Goal 1: Provide high quality classroom instruction and curriculum that promotes college and career readiness, ends racial predictability, and ensures that all systems are culturally and linguistically responsive to student needs.

Goal 2: Provide necessary and timely academic interventions to eliminate barriers to student success.

Goal 3: Ensure all school sites have safe, welcoming, and inclusive climates for all students and their

families, so that all students are in their classes ready to learn.

Goal 4: Use local and state measures to assess student progress resulting from district programs in order to evaluate and improve planned actions and services.

Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

In Berkeley Unified School District (BUSD) we have a multitude of stakeholder engagement groups. Students, families, staff, communities, and partners work together to ensure equal ownership in implementing high quality and equitable programs and services in BUSD. For the LCAP process specifically, we have three stakeholder groups who meet regularly for training on the LCAP, data review, budget updates, program overviews, and to review and provide feedback on the LCAP. In addition to a District English Advisory Committee (DELAC), and Parent Advisory Committee (PAC), Berkeley also has an Educator Advisory Committee (EAC) which consists of staff from union partner groups including representation from Certificated Teachers, Classified Employees, Classified Management, and Certificated Management groups. All three of these LCAP focused advisory committees come together monthly throughout the year and are ultimately charged with consulting, reviewing, and commenting on our LCAP. In addition to these focus groups, we collected feedback from other stakeholder groups including high school students, principals, other administrators, and district office staff.

Due to the pandemic, all meetings were held electronically using Zoom, which allowed for larger numbers of participants in our stakeholder meetings and Town Hall Meetings throughout the year. For collecting feedback from the broader groups of stakeholders, we used an online platform called Thought Exchange which allowed us to get comprehensive input on what's going well and which issues were priorities for groups across our district. We also held stakeholder engagement sessions in Spanish, our second most common language, and becauseThought Exchange could translate from multiple languages instantly, it allowed us to include families who speak languages other than English and Spanish.

Often, our advisory committees work in collaboration to create statements for the Board of Education pertaining to their unified recommendations for programs and services. The committees are allotted 5 minutes at our School Board meetings during public comment time to read their statement. Throughout the year stakeholder feedback was collected and synthesized looking for patterns and common themes. We use these themes and patterns to help guide us not only in writing the LCAP, but also in making decisions on the programs and services we choose to fund.

BUSD engaged stakeholders throughout 2020 and 2021. LCAP Parent Advisory Committee (PAC) meetings were held throughout the year. The PAC is comprised of parents from 15 different BUSD schools, and they represent the diversity of BUSD's students.

PAC meetings were held on the following dates: September 1, 2020 December 3, 2020 December 17, 2020 January 21, 2021 March 18, 2021 April 15, 2021 (May 6, 2021) (May 20, 2021) (June 17, 2021) Additionally BUSD staff met with DELAC throughout the school year on the following dates:

November 17 - DELAC - Presentation about DELAC

December 10 - DELAC reviewed student data

January 21 - Joint PAC/DELAC - Budget Presentation from Superintendent

February 11 - Joint PAC/DELAC - Presentation on duties of LCAP advisory committees, presentation on school positions and funding

March 11 - DELAC - Discussed EL Master Plan and parent concerns

May 25, May 26 Parent meetings to share updated budget information for the LCAP and other 2021-2022 programs.

At the May 25th Educator Advisory Committee (EAC) meetin, Katy Babcock from our Special Education Local Plan Area (SELPA) joined the meeting, reviewed our draft LCAP, and offered feedback.

BUSD staff conducted a student focus group on 3/31/21 with the Chicano Student Group and the Intervention Counselor Student Group. That session provided an opportunity to hear the concerns of students regarding student success and barriers to success.

BUSD staff in the Office of Family Engagement met with parents/families of Black/African American students in October and November 2020, holding "Listening Circles." Both sessions generated rich discussions and unearthed important issues and themes. Another session was held on February 16, 2021 to develop action plans to begin to realize the shared aspirations that families and school leaders have for Black/African American students.

A big success this school year was our Black/African American Parent/Guardian and Principal Learning Circles. The first Learning Circle in October 2020 fostered connections among parents and guardians of Black/African American students at BUSD and, separately, among BUSD principals and other leaders. In peer groups, parents/guardians and principals shared their hopes for Black/African American children, expectations of their school and obstacles to Black/African American children thriving at their schools. This session closed with each group sharing key themes. At the second Learning Circle, in November 2020, parents, guardians and principals convened in clusters by school. This session focused on beginning to create a vision of what each school would look like if it were a welcoming environment that supported the success of Black/African American students and strong, positive partnerships between families and school staff, and principals. A third session was held on February 16, 2021.

In addition to the stakeholder meetings described above, BUSD also hosted an online Thought Exchange which allowed parents, staff, students and community members to share their thoughts about what is working and what needs to be improved. In total, more than 200 people contributed nearly 300 ideas and made nearly 6,000 ratings on the Thought Exchange. Among the 218 participants were 60% parent/guardians, 19% students, 15% staff, and 6% community members. Additionally, participants represented the diversity of Berkeley with 30% white, 23% Latinx, 19% Black/African American, 13% Two or More Races, 9% Asian, and 6% other or declined to state.

Stakeholder feedback was combined with student data and used by staff to develop new BUSD goals as well as reviewing previous actions and considering new actions in the 2021-2024 LCAP.

Board Budget presentation: June 2 Board Meeting, LCAP Public Hearing: June 9 Board Meeting, LCAP Approval: June 23

A summary of the feedback provided by specific stakeholder group

Following is a summarized list of concerns from stakeholders related to Goal 1: Provide high-quality classroom instruction and curriculum that promotes college and career readiness, ends racial

predictability, and ensures that all systems are culturally and linguistically responsive to student needs:

-English Learner progress

-Math achievement in elementary school

-Math achievement for low income, EL, African American, and Latinx students

-Latinx and African American/Black student success

-Retaining teachers of color

-Concerns from parents over multiple years have not resulted in academic improvements for students

Following is a summarized list of suggestions from stakeholders related to Goal 1: Provide high-quality classroom instruction and curriculum that promotes college and career readiness, ends racial predictability, and ensures that all systems are culturally and linguistically responsive to student needs:

-Continue Bridge Program After school programs

-Increase Community engagement

- -Provide ethnic studies
- -Rewrite EL Master Plan
- -Elementary ELD programs
- -Focus on gender equity
- -Develop a Transgender policy
- -Work with labor partners
- -Adopt new math strategies
- -Professional Learning Communities
- -Math Coaches
- -Prioritize efforts to improve math achievement

Following is a summarized list of concerns from stakeholders related to Goal 2: Provide necessary and timely academic interventions to eliminate barriers to student success:

- -Early literacy
- -Latinx and African American/Black student success
- -English Learner progress
- -Enrollment trends by school

-Students with Disabilities (academic supports, IEPs, adhering to FAPE, full inclusion, Instructional Aide Supports)

Following is a summarized list of suggestions from stakeholders related to Goal 2: Provide necessary and timely academic interventions to eliminate barriers to student success: -Improve ELD and EL Redesignation efforts

-African American Success Plan

-Equity Matrix

-Math supports

-Extended year supports for students with disabilities

Following is a summarized list of concerns from stakeholders related to Goal 3: Ensure all school sites have safe, welcoming, and inclusive climates for all students and their families, so that all students are in their classes ready to learn: -Mental Health supports -Fewer police on campus -Student socialization after distance learning -Student trauma

-Clear and consistent communication with families

-Communication issues between students and staff

-Lack of trust between some families/communities and school staff

-Isolation and racism in our community

Following is a summarized list of suggestions from stakeholders related to Goal 3: Ensure all school sites have safe, welcoming, and inclusive climates for all students and their families, so that all students are in their classes ready to learn:

-Counselors to support students returning to school after the pandemic

-Community building activities

-Patient and supportive adults

-Trauma-informed social-emotional supports

-Culturally and linguistically appropriate communications with "less text and more graphics" in all communications from the district to families

-Get to know students as individuals, connect with them before correcting them, and find out what makes them tick.

-Help children to get their big ideas, questions, and concerns out without cutting them off.

-"Take the time to know my child," and "treat them with compassion and understanding."

-Get to know, understand and value Black/African American children

-Make Black/African American students and families feel welcome, comfortable, and safe at school -Connect Black/African American students and families to their heritage and their community at school

-Build trusting relationships with Black/African American families

-Treat Black/African American students equally

Following is a summarized list of concerns from stakeholders related to Goal 4: Use local and state measures to assess student progress resulting from district programs in order to evaluate and improve planned actions and services:

-Limited data and reports

-Accountability measures in BUSD

-Consistent use of local assessments

-Assessing Students with IEPs

Following is a summarized list of suggestions from stakeholders related to Goal 4: Use local and state measures to assess student progress resulting from district programs in order to evaluate and improve planned actions and services:

-More detailed data analysis focused on LCAP metrics

-Make Decisions using Data

-Disaggregate data

-Regularly timed internal reporting system

-Assess students with a realistic tool when they return to school from distance learning

-Communicate and share data publicly

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

Stakeholder engagement made important impacts on the new 2021-2024 LCAP, most notably in the

redevelopment of district goals along with the support for continued and additional actions focused on math achievement for high risk students and additional supports for Black/African American students.

Goals and Actions

Goal

Goal #	Description
1	Provide high quality classroom instruction and curriculum that promote college and career readiness and end the racial predictability of academic achievement by ensuring that all systems are culturally and linguistically responsive to the needs of our students.

An explanation of why the LEA has developed this goal.

Providing all of our students with high quality teachers with high quality instruction remains a cornerstone of BUSD's philosophy. We must carefully track student progress in an unbiased approach to identify students in need of extra support and use evidence-based classroom strategies as our first priority to improve learning. We must also ensure that classrooms are engaging and caring environments and that curriculum and instruction is culturally relevant for our diverse population. In order to improve outcomes for all students, particularly our most marginalized, we must ensure that all students have access to courses that will ensure college and career readiness.

Measuring and Reporting Results

Metric	Baseline		Desired Outcome for 2023–24	
Sufficient standards aligned curriculum provided to all students	100%		100%

Action #	Title	Description	Total Funds	Cont ributi ng
1.1	AVID (7-12)	Provide AVID (Advancement via Individual Determination) elective courses in Grades 7-12 to increase access to post-secondary education and careers, with a focus on African-American, Latino, and first-generation college unduplicated students	\$166,950.00 (Supplemental)	Yes
<mark>1.2</mark>	Bridge Program (BHS)	Provide a Bridge program to support students in a college-going culture at the transition by providing them with a summer program, a supportive community, access to technology, an after school class, skill development, and mentoring. 0.3 x 4 teachers (1.0), .2 Coordinator	\$150,842.00 (Supplemental)	Yes
	RISE ?????	RISE - Responsibility, Integrity, Strength & Empowerment is dedicated to the social and academic advancement of at-promise teenagers. Students come in as rising 8th graders in our summer transition program. We support over 100 students annually through all four years of high school. We provided post-secondary support to aide transition and completion of high school. Our goals are to assist youth to achieve a positive sense of self, to develop commitment to community, and to be eligible for and succeed in post-secondary education by providing before and after school tutorials with additional study spaces on weekends. Additionally, RISE offers case management service to help alleviate the obstacles to obtaining an education.	Funding ???	
<u>1.3</u>	Classified Pathway to Credentialed Teacher Program	Through the BPACT program, provide a classified employee teacher credential pathway.	\$19,000.00 (BERRA)	No
<mark>1.4</mark>	CTE Pathways (BHS)	Provide increased access to course pathways and enrollment in Career and Technical Education (CTE) courses at the high school.	\$115,000.00	No
<mark>1.5</mark>	CTE Supports	CTE - increase access to unduplicated, students with disabilities, African American, and Latinx students	\$155,300.00	Yes
<mark>1.7</mark>	Teacher Induction	Provide a culturally responsive Teacher Induction Program for all new First and Second Year Teachers to ensure that they meet the necessary requirements to become appropriately credentialed.	\$297,446.00	No
<mark>1.8</mark>	Cultural Competency Training	Provide support and training to staff on issues of cultural competence by identifying an Equity Teacher Leader (ETL) at each site to lead the work. Equity Teacher Leaders meet monthly as a group to collaborate and develop professional development to be used at sites and for district staff development.	\$65,300.00	Yes

		We aim to fully integrate content instructional pedagogy with Culturally Competent strategies to support teaching and learning. We need standards based rigor to work in concert with Culturally responsive pedagogy to meet the needs of our underserved populations, specifically African American students and our English Language Learners. Funding will enable more staff to attend relevant workshops, participate in collaborative meetings, and engage consultants who would work in conjunction with the District staff members leading this initiative in BUSD.		
<mark>1.10</mark>	ELD Support at each School	Provide certificated teachers at each site based on the number of ELs to provide designated ELD instruction, case- management, assessment, and integrated ELD support for teachers.	\$1,018,348.00 (Supplemental)	Yes
<mark>1.11</mark>	ELD Teacher on Special Assignment (TK-8)	Hire a TK-8 ELD TSA to provide coaching and support to ELD teachers, TWI, and Bilingual teachers to ensure	\$92,270.00	Yes
	Integrated ELD	Integrated ELD Training and Support - Constructing Meaning Funding would provide essential training for support of academic language and writing across all three middle schools and Berkeley High School. Constructing Meaning provides teachers with the process and tools for weaving explicit language instruction into content area teaching. Lesson planning is driven by the content and academic language demands of discipline specific learning, Funds will be used for up to 30 teachers for Constructing Meaning (CM) Training. This resource would also pay for materials, substitute costs and hourly pay for our teacher presenters. In 2021-2022, training and support for Integrated English Language Development strategies would extend to K-5 classroom teachers by developing specific pedagogical strategies for use in the Tier 1 classroom that provide access for English Language Learners.	\$70,000	
1.12	Math Coaches	Provide Math Coaches to lead workshops, facilitate planning, and provide coaching to support teachers in grades TK-12 schools with high quality, differentiated common-core aligned instruction and the HS integrated Math Pathway, with a concentrated focus on unduplicated students, African American students, and Students with Disabilities. 1.0 FTE K-5 (BSEP) District Teacher on Special Assignment (TSA) 0.6 FTE 6-8 Math Teacher Leaders (BSEP) \$40,000 BHS Math Support (BSEP) 0.6 FTE Middle School Math Coach(BSEP)	\$286,000.00	No
1.18	BSEP - Library Supports	 Berkeley Schools Excellence Program supports staff salaries and benefits as well as services for schools. The BUSD Library program serves all students, from Preschool to 12th grade. Policies ensure that every student has access to a variety of reading materials and participates fully in the library program. Additionally, library staff work directly with reading support staff to ensure that any struggling readers receive additional support and access to materials. The library collections in every school reflect the rich diversity of our world. We strive to create inclusive collections by continuously looking for new books to bring into 	\$2,372,441.00	No

		school libraries while simultaneously taking a critical view of our current holdings.		
		Library staff - both classified and credentialed - have taken courses in auditing their		
		library program for diversity. Staff share title recommendations regularly at staff		
		meetings with an eye toward expanding our diverse collections. Featured title lists such as our "Black Lives Matter" and "Transgender Day of Remembrance"		
		recommended reading lists support staff in finding excellent titles for their libraries		
		and keep us all focused on ensuring that our collections reflect our students' needs.		
<mark>1.19</mark>	BSEP - Music/VAPA	Berkeley Schools Excellence Program supports such as staff salaries and benefits, transportation costs, instruments and materials, and other program expenditures.	\$2,121,640.00	No
		The BUSD VAPA/Music Department provides a musical foundation in an equitable, culturally responsive and respectful classroom environment that		
		facilitates cooperation and perseverance.		
		Providing quality instructional programs in music and the visual and performing arts for elementary and middle school students. Available Revenues may be used for, but are not restricted to, providing qualified teachers and staff, and professional development in the arts for elementary and secondary students. Musical instruments, instructional materials, equipment and necessary services may be provided for any K-12 school, as long as funds permit. Funds allocated to BSEP provide the instrumental and choral music program for grades 4-8, and support arts instruction and professional development in arts integration in the elementary and middle schools. All Fourth and Fifth Grade students receive music instruction twice		
		per week. Four types of instruction are delivered—strings (orchestra), woodwinds and brass (band),		
1 20	Instructional	world music (percussion, ukuleles, guitars). In the middle schools, classes are electives, held five days a week, usually during zero period. Choices include 6th Grade Band, 7th-8th grade Band, two levels of Orchestra, Chorus, Jazz Band, and Guitar. Jazz Band is an after school elective four days a week at all three middle schools. Mariachi and Music meet two days a week at Longfellow. For 2019-20, there will continue to be two Orchestras and three Bands during zero period at King to accommodate the large number of students who have signed up for music. The VAPA BSEP resource provides curriculum and professional development support to the district's dance, drama and visual art teachers K-8 by providing workshops as well as facilitating meetings with their Berkeley High School peers on district Professional Development days. In addition, there is financial support for conferences and professional development, and a middle school drama material allocation of \$3,000 per middle school.	\$165,000	No
1.20	Technology	BHS Instructional Technology Teacher TSA 1.00 FTE The BHS position supports both the development and expansion of basic or foundational instructional technology use, as well as more advanced support in developing specific lesson plans that are complemented by technology. In addition, the TSAs support classroom instructors with technology-based classroom support functions like polling software, gradebook efficiency, and communication tools. District Instructional Technology TSA 0.50 FTE	\$165,000 BSEP-PD \$152,500 BSEP-Tech	

				,
		1.0 District Tech TSA - BSEP-Tech Technology Teacher Leader Stipend \$42,500 - BSEP-Tech Fund 17 Tech Teacher Leader stipends for the 2021-22 school year. A cohesive, long-range plan for ongoing professional development is critical to creating a culture where all teachers are technologically literate and are able to integrate these tools to increase students' engagement and achievement. Part of that plan is to fund a Tech Teacher Leader stipend at every site. The shift to distance learning over the past year has resulted in a far greater adoption of instructional technology by our teaching professionals, and it is anticipated that teachers will want to build on the technology learning and skills that they have acquired to provide more effective use of these technologies in their lesson plans when they return next year.		
1.21	Be a Scientist	The "Be A Scientist" program provides students with support to engage in authentic science and engineering practices. Well-prepared scientists and engineers (mostly graduate students and post-doctoral researchers from UC Berkeley) mentor 7th grade students through the 6-week project of designing, conducting, and presenting independent research projects in science lab class. K-8 Science TSA 0.40 FTE This position supports K-8 science teachers and the implementation of the Next Generation Science Standards (NGSS). This position facilitates the Elementary Science Release Teachers monthly meetings, as well as Middle School Collaborations for science and STEM.	\$20,000	
1.22	DIBELS Literacy Screener (K-2)	Assess students in grades Kindergarten through 2nd grade using the Dynamic Indicators of Basic Early Literacy Skills (DIBELS). DIBELS are a set of procedures and measures for assessing the acquisition of early literacy skills. They are designed to be short (one minute) fluency measures used to regularly monitor the development of early literacy and early reading skills. Our plan for using the DIBELS Assessment system includes: - Introduction of DIBELS as a K-2 Universal Screener in 21-22 - Creation of DIBELS common threshold scores for all schools - Development of common progress monitoring methods for students assigned to reading intervention We have established a district implementation team to work collaboratively with school principals, teachers, school psychologists, literacy coaches, and related service providers to implement the plan. The team will report progress to the School Board.	\$23,000	
<mark>1.23</mark>	EL Master Plan	The current Berkeley Unified School District's English Learner Master Plan was created in 2013, with the purpose of documenting Berkeley's system for enrolling, identifying, placing, serving, and monitoring our English Learner (EL) students throughout their enrollment in BUSD. Over the past eight years, there have been changes at the federal, state, and local level in regards to EL students. In 2015, a new ELD Framework was introduced, and the Every Student Succeeds Act (ESSA) was passed. In 2018, the new English Language Proficiency Assessment for California (ELPAC) was introduced. At a district level, we have changed some of our curricular materials and instructional strategies as well as the structure of our Two-Way Immersion (TWI). A new Master Plan that includes these important changes will allow BUSD to better identify and articulate how we serve our English Learner students and their families.	\$100,000.00	Yes

BUSD will use a contractor to lead internal and external groups through the process and finalization of a new English Learner Master Plan. The plan will be followed up with training for staff. The plan will be monitored over the following years.
--

Goals and Actions

Goal

Goal #	Description
2	Provide necessary and timely academic interventions to eliminate barriers to student success.

An explanation of why the LEA has developed this goal.

Data consistently show the need to reduce achievement gaps among different student groups so all students can be successful in school. Academic interventions play a significant role in reducing gaps and improving outcomes for all students. With the appropriate processes in place, response to intervention and instruction helps us to identify students at risk for poor learning outcomes, monitor their progress, and provide evidence-based interventions early on, when students first exhibit signs of learning problems. The nature and intensity of such interventions can be continually adjusted depending on each student's responsiveness.

<mark>2.1</mark>	Coaches, (TK-8)	Provide Literacy coaches to all sites, TK-8. Each site has a literacy coach who provides direct services to students and teacher coaching and support. TK-5 Literacy coaches are	\$1,015,500.00	No

		trained in Reading Recovery, Wilson Reading Systems, and/or Slingerland Method. BSEP funds .75 FTE for each of the 11 BUSD elementary schools. Each elementary school rounds out a full-time position at the site by providing funding for .25 FTE from site BSEP or Title I funds. BSEP also funds 2.2 FTE for the three middle schools and some sites supplement this funding. These positions remain vital to the implementation of curriculum, to the support and coaching of teachers in delivering the strongest classroom instruction possible, and in some cases, providing intensive one-on-one reading supports as well as intensive small group remediation. BSEP funds also partially funda middle school Literacy Coaches at all three sites, and a district Literacy Coach.		
2.2	Response to Intervention and Instruction (Rtl2) (TK-8)	Provide Response to Intervention and Instruction (RtI2) Intervention teachers at each TK - 8 schools (proportional to # of Unduplicated Students)	\$1,091,350.00 (Supplemental)	Yes
2.6	Math Support Classes (6-8)	Provide math support classes for students at the schools with the highest number of unduplicated students at all middle schools. Students with Disabilities will also be identified as a target subgroup for these classes. Longfellow: 0.6FTE King: 0.6FTE Willard 0.4FTE	\$177,995.00 (Supplemental)	Yes
<mark>2.9</mark>	Summer School CCSS Curriculum (K-8)	Provide Common Core-aligned ELA and Math curriculum for the K-8 Summer School program to prevent summer reading loss and to accelerate achievement in Mathematics for students performing below grade level in Math.	\$853,300.00	No
<mark>2.10</mark>	Summer School for Incoming Seniors	Provide summer school for incoming 12th graders and graduating seniors not on track to graduate	\$196,555.00	No
<mark>2.3</mark>	Technology Supports	Provide Chromebooks and hotspots for students who don't have technology access at home (\$500,000 CB, \$75,000 HS)	\$575,000	
2.7	Wilson Training	Wilson Reading System Training The Wilson Reading System (WRS) is based on phonological-coding research and Orton-Gillingham principles, WRS directly and systematically teaches the structure of the English language. Through the program, students learn fluent decoding and encoding skills to the level of mastery. The training deepens teachers' content knowledge that allows them to apply and practice skillful use of research-based strategies. Training will prepare teachers to effectively implement Wilson Reading with students who are reading and spelling below grade level, as well as those diagnosed with a language-based learning disability, such as dyslexia. Training will be offered to Special Education teachers, Literacy Coaches, RTI teacher, or other teachers who provide small group support. https://docs.google.com/spreadsheets/d/1AzVTNtoJkYQg66ds- z5PyU2sTm0ugZ607nfmd6Vc3iE/edit#gid=0	\$60,000 (ELO Funds)	

Goals and Actions

Goal

Goal #	Description
3	Ensure all school sites have safe, welcoming, and inclusive climates for all students and their families, so that all students are in their classes ready to learn

An explanation of why the LEA has developed this goal.

A positive, safe and supportive school climate fosters safety; promotes a supportive academic, disciplinary, and physical environment; and encourages and maintains respectful, trusting, and caring relationships throughout the school community. Positive school climates improve student achievement, teacher retention, and mental health, among other beneficial outcomes. In BUSD we believe that providing a safe and supportive school climate will decrease chronic absenteeism, improve academic outcomes, decrease suspension rates, and increase graduation rates.

Metric	Baseline	Desired Outcome for 2023–24
Percent of Teachers who are Black/African American or Latinx who return to BUSD from the previous year	71% of Black/African American teachers (5 of 7) and 73% of Latinx teachers (8 of 11) hired in 2019-2020 were still active in 2020-2021	Increase to 80% retention rate for both groups of teachers
Percent of Teachers who are Black/African American	7% of teachers (47 of 673) were Black/African American in 2018-2019	Increase to 8% or more (add 4 or more additional Black/African American teachers)
Percent of Teachers who are Latinx	12% of teachers (79 of 673) were Latinx in 2018-2019	Increase to 13% or more (add 5 or more additional Latinx teachers)

Actions

Action #	Title	Description		Contri buting
			\$80,770.00 (Supplemental)	Yes

<mark>3.2</mark>	Behavioral Health Services (TK-5), and BTA	Provide increased access to behavioral health services from a contractor or district staff for all TK - 5 sites and BTA to support students dealing with trauma and other social-emotional needs.	\$156,000.00 (COB)	Yes
<mark>3.11</mark>	Counseling (6-8)	Funding is in partnership with a City of Berkeley Grant. Berkeley Schools Excellence Program support and staff salaries and benefits for middle school counselors.	\$749,995.00	Yes
		Students need guidance in many areas of their educational experiences. School counselors are a critical resource in terms of helping those students navigate academic challenges, as well as the social and emotional barriers that create those challenges. Middle school counselors support students during some of the most intense developmental periods of their youth, and are often their primary supports, chief advocates, and confidants when it comes to not only academic issues, but on "highly personal matters and individualized choices often fraught with challenge and complexity due to family, cultural, and contextual considerations" (Elias 2010).		
		These programs are meant for such purposes as Counseling and Behavioral Health, Family Engagement and Access, or Student Achievement Strategies to improve academic, behavioral and social-emotional outcomes for students.		
<mark>3.3</mark>	Family Engagement Coordinators & Supervisor	Provide a supervisor and coordinators for family engagement for all TK - 5 schools and BHS to partner with parents and guardians to support their children's education through collaborative connections and referrals to school and community resources. Looking to increase this program adding 1.0 to 2 middle schools, full time liaison at each K-5, and making supervisor a director, possibly a Spanish speaking liaison as well.	\$786,900.00 (Supplemental)	Yes
<mark>3.4</mark>	Homeless Student Counselor	Provide a McKinney-Vento Counselor to case manage and provide direct service to our McKinney-Vento students. Provide funding for Other materials, supplies, and services for Homeless Students	\$221,000	Yes
<mark>3.5</mark>	Coordination of School Services (TK-8)	Provide 0.8 FTE K-8 Coordination of School-Based Services TSA to develop, train, and support sites in the consistent implementation of culturally relevant Restorative Practices, Positive Behavioral Intervention Supports (PBIS), Toolbox, and Welcoming Schools.	\$93,600.00	No
<u>3.6</u>	Black/African American Success Positions	Maintain an African-American Student Success Manager position to oversee Umoja Program in 6-8. Umoja Program provides intensive academic and emotional support, mentoring, and foster collaborative family connections for an identified group of African-American students concentrated at Longfellow Middle School. A 1.0 FTE teacher for the Umoja Classes is funded through a grant from the City of Berkeley. We are hoping to expand this program into BHS in the future years. Black Studies 0.4 FTE - This funding would expand course	\$177,120.00	No
		offerings at Berkeley High School by providing funding for two Teacher Leaders in the African American Studies Department to expand Department activities and develop further course offerings.		
<mark>3.16</mark>	Latinx Resolution (2021)	The BUSD Board of Education will prioritize Latinx student achievement and opportunity as a core commitment. They will work with District's Office of Family Engagement and Equity (OFEE), the district's Communications Office, Latinx families,	0	

		•		
		Latinos Unidos de Berkeley, and other representatives of the Berkeley Latinx community to improve Latinx parent engagement and to identify additional cases of academic achievement gaps for Latinx students. BUSD will propose a method of collecting, sharing, and analyzing academic achievement data and develop data-driven approaches to identify academic, socio-emotional, developmental, and behavioral needs of Latinx students, and recommend strategies to proactively support those students. BUSD will present and discuss data findings related to this resolution to the Board of Education and community-based organizations on an annual basis. BUSD will launch a culturally affirming academic program to address Latinx student achievement and promote college and career readiness for a diverse array of Latinx students, including Latinx EL students, at Longfellow Middle School and Berkeley High School.		
<mark>3.15</mark>	Puente Program	The PUENTE Project to improve the college-going rate of tens of thousands of California's educationally underrepresented students. The mission is to increase the number of educationally disadvantaged students who enroll in four-year colleges and universities, earn college degrees and return to the community as mentors and leaders to future generations. The program is interdisciplinary in approach, with writing, counseling and mentoring components.	\$40,000.00	No
3.7	Restorative Justice Coordinators (BHS)	Provide 2 Restorative Justice (RJ) Coordinators at BHS to provide case-management and intervention services focused on restorative justice and other restorative practices for students identified as at-risk of suspension.	\$150,860.00 (Supplemental)	Yes
<mark>3.8</mark>	Restorative Justice Counselors (6-8)	Provide one Restorative Justice (RJ) Counselor at each of the three Middle Schools to coordinate restorative practices for staff and students and provide case management of a group of identified unduplicated students. 3.0 FTE	\$357,670.00 (Supplemental)	Yes
<mark>3.9</mark>	LEAP Class (BHS)	BHS LEAP class Builds structure for in-school advisory classes and case management program within smaller more personalized high school structure. Class and advising will exclusively target unduplicated students with academic and social/emotional supports.	\$119,860.00 (Supplemental)	Yes
<mark>3.12</mark>	2.5 Intervention Counselors (BHS)	Provide Intervention Counselors at BHS to ensure regular, individual contact with a focal group of high-risk students at each grades 10 and 11 to oversee all academic and behavioral interventions 2.5 positions	\$295,360.00	Yes
<mark>3.10</mark>	Recruitment for Teachers of Color	The BERRA recruitment and retention program includes support for recruitment, retention and support of Teachers of Color, as well as classified pathways, in order to better reflect the population the staff serves. Through Berkeley's Pathway to Achieve Credentialed Teachers (BPACT), classified staff, including Instructional Assistants and other paraprofessionals, can be supported in taking the step of becoming credentialed teachers with a focus on Special Education. The .2 FTE Classified Employee Teacher Pathway Coach position will provide timely and focused support for classified staff on the pathway to credentialing.	\$58,800.00	Yes
<mark>3.18</mark>	Teacher and Leader of Color Network	The Leaders of Color Network (LOCN), aims to uplift, empower, and amplify the needs of certificated leaders within the district. The LOCN has been meeting for the past three years and will continue with new enhancements. Building upon this strong foundation, we will add a classified leader cohort. Facilitated by UC Berkeley Leadership Programs who will document emerging themes from each network and distill cross-cutting themes across		

	the district. To further support retention of leaders of color, the Leadership Programs' Executive Director will provide ongoing	
	consultation to designated district leaders.	

Goals and Actions

		 BSEP Funding Teachers on Special Assignment 3.0 FTE Director of Research and Evaluation .4 FTE Evaluation and Assessment Analyst 1.0 FTE Administrative Staff 0.5 FTE. Teachers on Special Assignment 3.0 FTE provide staff development and research support to 	φοσο,σσο
		teachers, principals, district office staff and School Site Council (SSC) members in how to design improvement plans based on research and data. Staff development is provided primarily to certificated staff at the site and district-level and consists of both group training sessions as well as individualized support.	
		The Evaluation Assessment Analyst and BREA Administrative Support 1.5 FTE These positions are responsible for technical support in the Office of Evaluation and Assessment. They support District assessments; import and enter data into the data systems; ensure accuracy of data; develop queries and reports in Illuminate; generate a variety of other reports and documents; manage user accounts; and develop and maintain various databases and files.	
		Director of Research, Evaluation, and Assessment 0.4 FTE is responsible for external research partnerships to ensure alignment to district priorities. The position should head key internal research studies to determine the efficacy of district programs affecting our students. As the head of research and evaluation, leads the assessment and accountability work of the TSAs and manages the program evaluation budget. The coordinator helps site leaders and district office staff prepare for their presentations to community stakeholders and the board of directors.	
4.2	Indirect Cost Reserve	Set aside an indirect cost reserve to provide agency wide, general management costs such as accounting, budgeting, payroll preparation, personnel services, purchasing, and centralized data processing	\$264,241
	Continue Data and Assessment System (Illuminate DnA)	Maintain the data repository and analysis tool for site and district leaders to use for data-driven program improvement, including internal and state assessment data.	
4.2	Program Evaluation Support	At the request of the Superintendent and Board of Education, identify 2-3 programs per year, coach managers on the development of evaluation plans. Program managers generate evaluation and improvement reports with planning for:	
		 Reportings system aligned to state indicators and local plans/resolutions; school site engagement to determine improvement plans and potential metrics Expansion of data reporting to include site improvement plans; Implementation and review of a district data dashboard 	

Goal Analysis [LCAP Year] - DO NOT COMPLETE IN Y1

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [LCAP Year]

Percentage to Increase or Improve Services	Increased Apportionment based on the Enrollment of Foster Youth, English Learners, and Low-Income students
[Insert percentage here]%	[Insert dollar amount here]

The Budgeted Expenditures for Actions identified as Contributing may be found in the Increased or Improved Services Expenditures Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

After assessing the needs, conditions, and circumstances of our English Learners, Low Income Students, and Foster Youth students, we learned that their college readiness rates were lower than the college readiness rates for all students. For example, whereas 75% of white students and 70% of Asian students were "prepared" for college/career on the California School Dashboard, only 20% of English Learners and 52% of low income students were "prepared." To address this condition of our English Learners, Low Income Students, and Foster Youth students, we will implement actions such as AVID to support and prepare students with college-knowledge, support their academic achievement, provide extra guidance and resources, provide CTE pathways and supports, to address some of the major causes of lower college readiness rates, including lack of lower academic achievement, lack of family experience with higher education, limited resources, and less college-knowledge.

Goal 1, Actions 1, 2, 4, and 5 provide extra college preparation supports. These actions are being provided on a school-wide basis with the expectation that it will also benefit all students to improve their college readiness rates. However, because of the lower college readiness rates for these English Learners, Low Income Students, and Foster Youth, and because the actions meet needs most associated with the chronic stresses and experiences of lower academic achievement, lack of family experience with higher education, limited resources, and less college-knowledge we expect that the college readiness rates for our English Learners, Low Income Students, and Foster Youth students will increase more than the average college readiness rates of all other students.

After assessing the needs, conditions, and circumstances of our English Learners, Low Income Students, and Foster Youth students, we learned that their suspension rates were higher than the suspension rates for all students. For example, whereas the suspension rate for Asian students was 1.3% and for white students it was 0.4%, the it was 0.5% for English Learners, 2.5% for low income students, 5.6% for homeless students, and 13.9% for Foster Youth. Additionally, just as other school districts are challenged to hire teachers who represent the diversity of their students, using the most recently available data from the CDE it shows that 66% of our teachers are white and 41% of our students are white, 7% of our teachers are African American and 13% of our students are African American, 11% of our teachers are Latinx and 22% of our students are Latinx. To address this condition of our English Learners, Low Income Students, and Foster Youth students, we will provide cultural competency training for staff, provide culturally responsive teacher induction for 1st and second year teachers, recruit teachers of color, to address some of the major causes of higher suspension rates, including lack of understanding for the needs and challenges of at-risk students.

Goal 1, Actions 6,7,8 prepare staff to better understand and support the needs of at-risk student populations. These actions are being provided on a school-wide basis with the expectation that it will also benefit all students to improve their suspension rates. However,

because of the higher suspension rates for these English Learners, Low Income Students, and Foster Youth, and because the actions meet needs most associated with the chronic stresses and experiences of understanding for the needs and challenges of at-risk students we expect that the suspension rates for our English Learners, Low Income Students, and Foster Youth students will increase more than the average suspension rates of all other students.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Instructions

Plan Summary

Stakeholder Engagement

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at <u>lcff@cde.ca.gov</u>.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [*EC*] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (*EC* 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- Accountability and Compliance: The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* 52064(b)(4-6)).
 - o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).
 - o Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* 52064(b)(7)).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level

of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the "Red" or "Orange" performance category or any local indicator where the LEA received a "Not Met" or "Not Met for Two or More Years" rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights - Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- Schools Identified: Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Stakeholder Engagement

Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* 52064(e)(1)). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statutes and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, school site-level advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <u>https://www.cde.ca.gov/re/lc/</u>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: "A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP."

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA's philosophical approach to stakeholder engagement.

Prompt 2: "A summary of the feedback provided by specific stakeholder groups."

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

Prompt 3: "A description of the aspects of the LCAP that were influenced by specific stakeholder input."

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, "aspects" of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the

most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- Year 1 Outcome: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- Year 2 Outcome: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- Year 3 Outcome: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the "Measuring and Reporting Results" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 .

The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a
 discussion of relevant challenges and successes experienced with the implementation
 process. This must include any instance where the LEA did not implement a planned action or
 implemented a planned action in a manner that differs substantively from how it was described
 in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the "Increased or Improved Services" section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

Percentage to Increase or Improve Services: Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students: Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 *CCR* Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated

with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55%: For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55%: For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40% or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

"A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required."

Consistent with the requirements of 5 *CCR* Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #**: Enter the LCAP Goal number for the action.
- Action #: Enter the action's number as indicated in the LCAP Goal.
- Action Title: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All", or by entering a specific student group or groups.
- **Increased / Improved**: Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - Scope: The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - Unduplicated Student Group(s): Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - Location: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools". If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must

enter "Specific Schools" or "Specific Grade Spans". Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year", or "2 Years", or "6 Months".
- **Personnel Expense**: This column will be automatically calculated based on information provided in the following columns:
 - **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
 - **Total Non-Personnel**: This amount will be automatically calculated.
- LCFF Funds: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
- Local Funds: Enter the total amount of Local Funds utilized to implement this action, if any.
- Federal Funds: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
