Subject: Proposal for Assistance with Stormwater Permit Compliance, 2021-2022
(Proposal # SLO2021-021)

Dear Dan,

I am pleased to send you this proposal for our continued assistance with your stormwater permit compliance for the period July 1, 2021 through June 30, 2022. I plan to conduct the following during this next period year:

- Send update reminders of what you will need to complete during upcoming months for compliance with the industrial storm water permit. These updates will include but not be limited to reminders of upcoming activities required in the Monitoring Implementation Plan (MIP) including the Monthly Visual Inspections and the Monthly BMP Inspections in Appendix H of your SWPPP.
- During the rainy season I will be sending weather predictions of upcoming storms that you will need to keep as part of your MIP.
- Via either the phone call or computer program present a training class to your staff about the stormwater permit, water quality, and spill response to cover the permit requirement for annual training on these subjects.
- If you want, I can enter Ad Hoc Reports for any samples collected and the Annual Report into SMARTS. Once entered, I will contact you, so you can then review and certify each report.
- I will review your current SWPPP and will make changes where necessary. If changes are made, I will send you a draft of the amended SWPPP for your review. Once finalized, I will upload the amended plan to SMARTS for you to then certify.
- As I mentioned previously, K-12 school districts might be added as non-traditional permittees in the next version of the Municipal Storm Water (MS4) Permit. I will send you information about this permit's proposed requirements related to school districts that are developed by the SWRCB and the California Storm Water Quality Association (CASQA) as it becomes available.
- During the upcoming year I will also continue to participate via the phone on the California Stormwater Quality Association (CASQA) industrial storm water subcommittee, and will attend other stormwater related meetings if deemed worthwhile. The cost of my participation in these meetings will be shared between all Tenera's stormwater clients.

Tenera proposes a time and materials contract with a not-to-exceed amount of \$3,200 to complete the items presented above. Tenera will continue to assist the Carmel Unified School District with storm water issues upon receipt of a Purchase Order. If you have any questions about this proposal, please let me know.

Sincerely,

Tessa K. Victor
