# Generation Up

GENup is a student-led social justice organization that strives to advocate for equitable education through the power of youth voices.

The Elk Grove GENup chapter was started last summer in the hopes of uplifting student voices and speaking on important matters that aren't currently addressed in the district.

We took on the Take A Seat Campaign because we believe that students, who are the primary stakeholders in education, should be reflected in the decision-making process for our public schools.

# Why did we start the campaign?

Decisions made by the Elk Grove Unified School District Board of Education have a **direct impact on the lives of students**. Therefore, it is imperative that the student body of Elk Grove Unified has **meaningful representation** on this governing Board of Education, and we are both morally and legally entitled to such representation. By installing this position, students will have their needs addressed and the **opportunity for a student voice** in a governing position. Now, more than ever, we need student representation on issues that matter to us.
