MEMBERSHIP APPLICATION

In making this application for CAC membership it is my understanding that the CAC is looking for people who:

- *Are committed to the free and appropriate education of all children;*
- *Understand there are support activities, separate from the meetings, needed to increase CAC effectiveness and enhance school for all children;*
- *Are able to work well with others, realizing education is a team effort;*
- *Are committed to attending 4 meetings per year;*
- *Will consult with district Director on a regular basis.*

1) Why are you interested in the CAC?

I have a strong background in SpEd and I want to serve families of special needs.

2) What background do you have that relates to students with disabilities?

Twenty-five years in education with six years as an Ed Specialist and fifteen years as a SpEd director.

Thank you!
