The screenshot shows a web browser displaying the EGUSD Equity Resource Site. The browser tabs include 'Implicit Bias Training for Principals' and 'Curriculum and Instruction | EGUSD'. The address bar shows the URL 'blogs.egusd.net/educational-equity/curriculum-and-instruction/'. The website header features the 'edublogs' logo, a 'Log In' link, and contact information: '(916) 831-2041' and 'EdEquity@egusd.net'. Below this is a navigation menu with links: 'Home', 'Curriculum & Instruction', 'Opportunity & Access', 'Professional Learning', 'Student-Centered Support', 'Family & Community', and 'Recruitment & Retention'. A search bar labeled 'Share Ideas' is also present. The main content area is titled 'Curriculum and Instruction' with a book icon. Under 'Overview and Goals', it states that curriculum and instruction are rigorous and culturally responsive, and lists three goals: 1) All curricular materials are reflective of our diverse student population; 2) Increase student exposure to rigorous and culturally responsive curriculum; 3) Increase student exposure to rigorous and culturally responsive instruction. A 'Links' section provides resources for 'Culturally & Linguistically Sustaining & Responsive Practices' and 'Global Competency as a 21st Century Skill'.

### Curriculum and Instruction

#### Overview and Goals

**Curriculum and Instruction:** Curriculum and instruction are rigorous and culturally responsive.

All students regardless of disability, ethnicity, gender, gender expression, gender identity, immigration status, language, nationality, parental status, race, religion, sexual orientation, socioeconomic status or association with a person or group with one or more of these actual or perceived characteristics, have access to rigorous, culturally responsive instruction, and teachers have access to continuous professional learning and development to effectively design and teach rigorous and culturally responsive curriculum.

**Goal 1:** All curricular materials are reflective of our diverse student population.  
**Goal 2:** Increase student exposure to rigorous and culturally responsive curriculum.  
**Goal 3:** Increase student exposure to rigorous and culturally responsive instruction.

Recognizing & Disrupting Implicit Bias	Speaking Out Against Hate: Using the 4 R's (Recognize, Respond, Report, Restore)	Applying Equity Mindset	The Cultural Proficiency Continuum and Me

## EGUSD Strategic Goals

## Educational Equity

Educational equity is defined as both a **process** and an **outcome** (Putnam-Walkerly & Russell, 2016):

- The **process** of using a lens of equity to analyze and inform decisions, policies, and practices in our schools and district to ensure they are culturally sensitive and provide all students with access, opportunity, validation, support, and resources.
- The **outcome** whereby all educational outcomes are no longer predicted by identity categories such as race, ethnicity, ability, gender, and socioeconomic status.

# Prevention Strategy: Conversation Norms

## *EQUITY NORMS FOR CONVERSATIONS*

### **IN LAK'ECH**

You are my other me.

*Select the norms that will facilitate dialogue on critical equity topics such as privilege, race, and justice.*

#### **REFERENCES**

Mantra: In Lak'ech - "Pensamiento serpentino" (L. Valdez, 1971).  
Norms: "The Way of the Teacher: Principles of Deep Engagement" (Arrien, 2001)

# Equity Conversation Norms

1. We acknowledge each other as humans.

3. We recognize that we need each others help to become better listeners.

2. We try to stay curious about each other and the work.

4. We slow down so we have time to think and reflect.

5. We remember that conversation is the natural way humans think together.

7. We own how we participate.

6. We expect it to get messy sometimes and we will learn through it.

8. We honor confidentiality.

# Learning Targets

## Experiential:

1. Build connections to other equity advocates.
2. Engage in self-reflection about my own biases and growth.

## Practical:

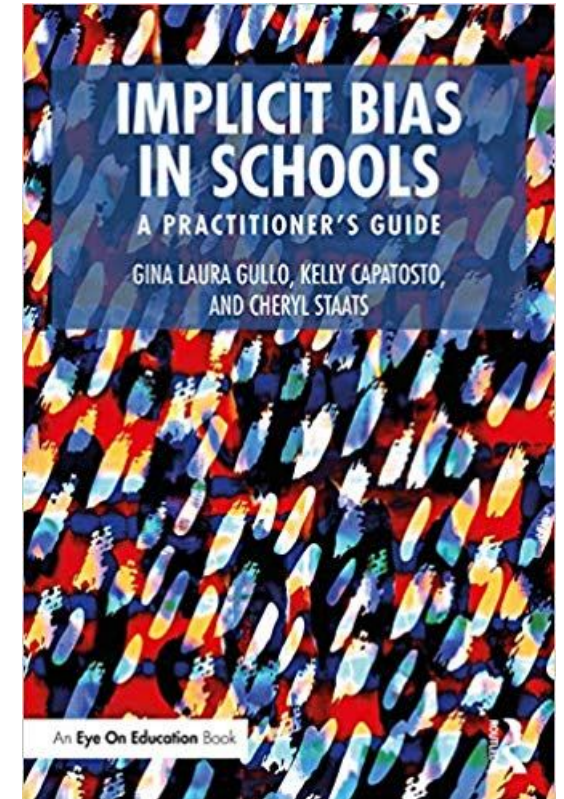

3. Define implicit bias.
4. Recognize potential “blind spots” that may lead to implicit bias.
5. Identify impacts biases can have on our students.
6. Set a goal for disrupting my own implicit biases.

# Implicit Bias

- Stereotypes and attitudes that affect our understandings, actions, and decisions in an unconscious, automatic manner.
- May or may not reflect our actual attitudes
- Everyone has implicit biases
- Biases are not necessarily all negative

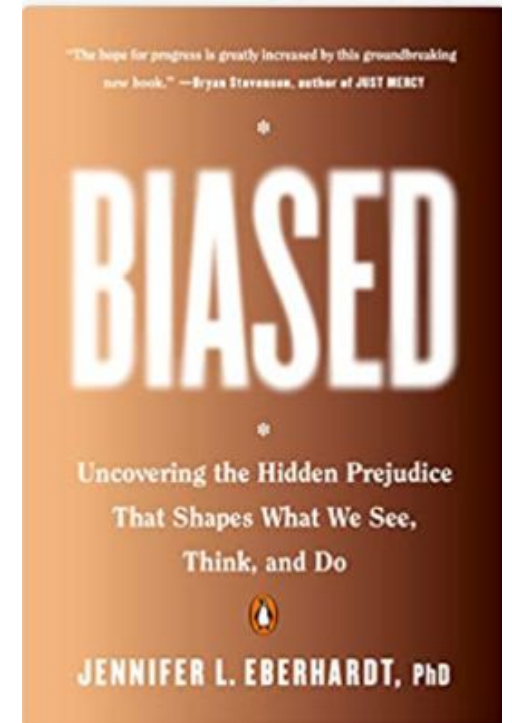

(Gullo, Capatosto, & Staats, 2018)

# Implicit Bias

- Biases serve a psychological function to react to fear with security and community.
- Biases require effort, persistence, and discomfort to overcome.

(Eberhardt, 2020)

# Reviewing Sources of Bias

As we review the following materials, take notes on ideas you are having.

Then reflect on possible sources of bias in your life.

# Forms of Oppression

## Five Injustices Poster

### Racism

a belief that all members of a certain race behave in the same way, and that some races are superior to others

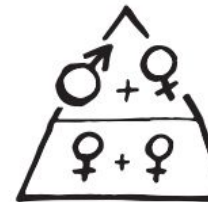

### Sexism

a belief that males can do some things better than females

### Classism

a belief that we should treat people differently based on how much money they have

### Heterosexism

a belief that a loving relationship can only exist between a man and a woman, resulting in the mis-treatment of anyone who identifies as gay, lesbian, or bisexual

### Ableism

a belief that it is okay to exclude people with physical or learning disabilities

Ingroup bias when no other  
information is given

But, is that the same as **prejudice**?

# Not much has changed...

# Prejudice does not simply appear

<b>Young Infants</b> equally distinguish in- and outgroup faces.	<b>Early childhood</b> visual attention for ingroup faces	<b>4- to 5-year-olds</b> can express racial & ethnic preferences.	<b>7- to 9-year olds</b> ethnic prejudice may manifest.
<b>Undifferentiated</b>	<b>Awareness</b>	<b>Preference</b>	<b>Prejudice</b>
Experience plays a crucial role in the development of the face processing system	Aware of group memberships  Race is a salient feature even in early life	This leads to a desire to portray the ingroup positively  May manifest in outgroup derogation	Increased prejudice if peer group has a norm of exclusion  Competition and perception of threat

Nesdale, 2004 ; Nesdale, Griffiths, Durkin & Maass, 2007

*Partner Reflection:*

Which were hardest to fill in? Why do you think that is?

What other social groups would be challenging to complete?

# Potential Blind Spots

# Blind Spot in Action

Judgements or characteristics attributed to specific groups of people — races, genders, age groups, etc. — that may or may not be true for any one specific individual within that group.

**STEREOTYPES**

**MICROAGGRESSIONS**

Subtle verbal or nonverbal insults, indignities, or denigrating messages directed toward an individual due to their marginalized identity. Often committed by well-intentioned people who are unaware of the hidden messages conveyed or the impact of their statements.

**IMPLICIT BIAS**

Subconscious attitudes, perceptions and stereotypes that influence our understanding, actions, and behavior when interacting with various identities.

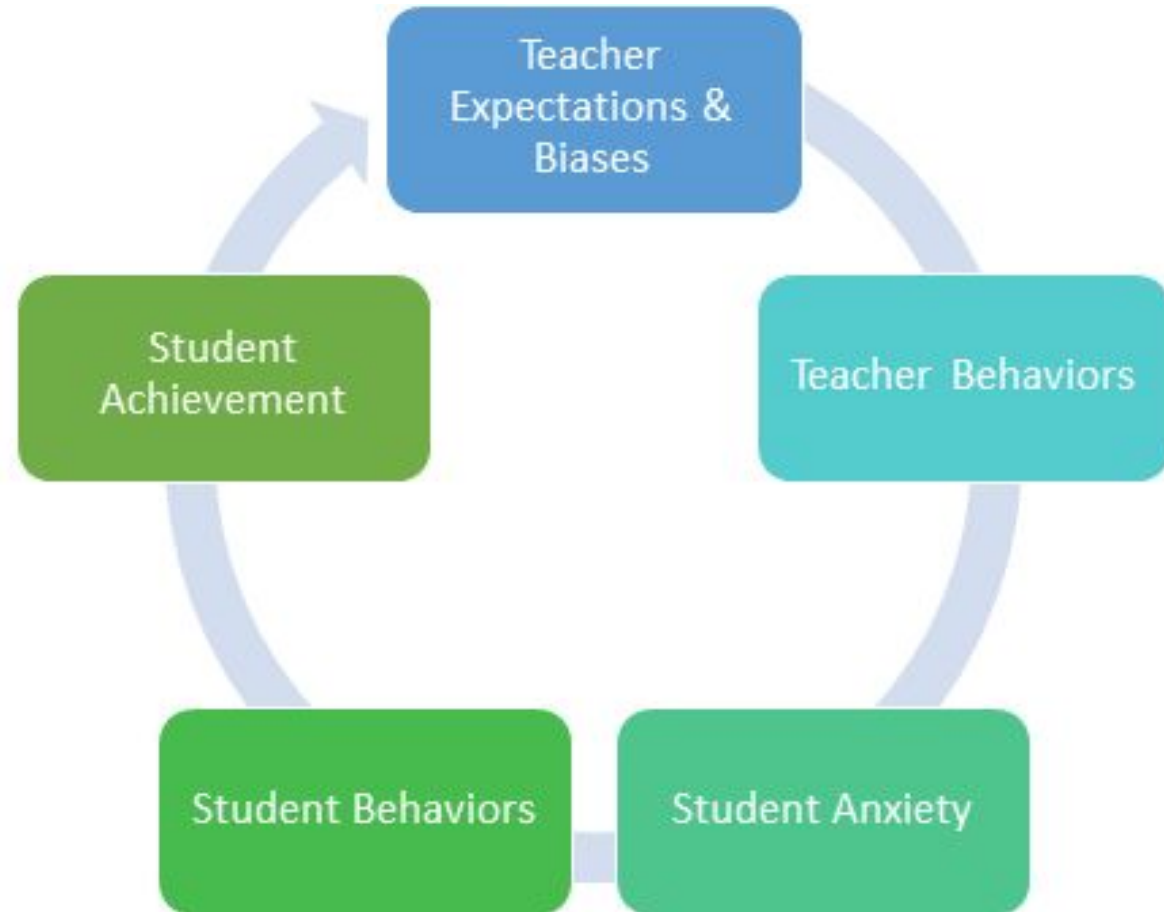

# Academic Impacts

- Labels
- Self-fulfilling prophecies
- Uneven impact: Marginalized groups more strongly affected by teacher expectations
- Racial mismatch makes a difference

# Teacher Expectation Pathway

Ferguson (2003); Rist  
(2000); Wooley (2010)

# Discipline

- Inclusionary Discipline vs. Exclusionary Discipline
- Objective Infractions vs. Subjective Infractions
  - “vulnerable decision points”
  - punishment gap
  - reporting gap

(Girvan, Gion, McIntosh, & Smolkowski, 2016; Lewis & Diamond, 2015)

# What Can You Do?

Increasing self-awareness of implicit biases:

1. Decision-making Supports
2. Mindfulness
3. Intergroup Contact
4. Counter-stereotype Exemplars

# Optimistic Closure
