

## SUHSD - Indoor Masking Event Action Plan

Board approved 12/16/21

CDPH guidelines currently require all persons to properly wear a mask when indoors and on a school campus. Our staff is being confronted with individuals that are refusing to abide by this mandate while they are indoors and on campuses specifically at basketball games and other on campus events that are open to the public. To assist personnel with enforcing the indoor mask mandate for schools, I am asking the board to approve the following action plan:

1. Staff will ask for compliance with the mask mandate
2. Staff will ask a second time for compliance with the mandate
3. If the person continues to be in defiance of the mandate, the individual will be reported to administration and the administration will take the necessary steps to ban the individual from attending all future indoor on campus events for the sport/season they are attending. These steps will include verbal and written communication to the individual in question.
4. If it becomes the practice that an overwhelming number of individuals are not in compliance with the mask mandate at an event, the administration has the discretion to eliminate fans from attending all future indoor events held on the school campus or a venue used by the school for a school purpose.  
-The purpose of this process is to maintain a safe environment for all of our students, staff, parents, and community members and to avoid confrontations at the event that lead to distractions and disruptions for students and staff.

Note: Based on the current CDPH guidance, we are allowing our basketball players on the court to play without a mask because they are testing each week. This makes it more important than ever that all spectators are complying with the mask mandate.
