

SAN MATEO-  
FOSTER CITY  
SCHOOL DISTRICT

Week of  
February 21 - 25, 2022

*Last updated February 28*

# COVID-19

## New Weekly

# Reporting Document

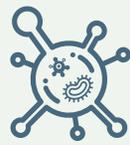

### When reading this reporting document

The data show for each school explains how many cases were reported to the school for the reporting week.

The total number of cases is shown on the left hand column. The total number of COVID+ students on campus during the reporting week is indicated in the middle column. This is because not all students who tested positive, attended school during the week.

The total number of classrooms with COVID+ cases is indicated in the right hand column. In some cases, classrooms had more than 1 positive student.

Reminder: All close contacts have already received letters for the week.

COVID-19  
Coronavirus

# How many cases were there this week at my school?

## Of the total cases, how many COVID+ students attended school this week?

### How many classrooms were affected?
