**1. Study Session: Update of Facilities Master Plan: Options for Elementary School Boundaries and Program Location**

As directed by the Board of Trustees, and as we near the end of an extensive two-year study, staff has prepared backup data, projections, and recommendations to update the District Facilities Master Plan. This session focuses primarily on two options to address the future size, number, location, and specific programmatic needs at our elementary sites. These two options primarily impact the Georgia Brown and Glen Speck Elementary school sites.

Superintendent Curt Dubost began with a message to the community with some history of this issue.

Assistant Superintendent Brad Pawlowski made his presentation which included timelines of the processes that have taken place regarding this issue, presentation of the two options that the board asked staff to look at and prepare financial information, and architectural renderings of what the options may look like.

In-person public comment was received by:  
Dale Gustin, regarding concerns about the finances of the school district.

Yessenia Echevarria asked the Board to acknowledge the presence of PR City Councilwoman Maria Garcia, Joel Peterson, Hispanic business owners and Latinx press in the Board Room. The families of Speck were promised the new site and the Board should honor the language of Measure M.

Camille Katz thanked the district for trying to listen to the community.

Maria Garcia asked the Board to connect with the City Development about rezoning and housing projects that are in the pipeline. The community will grow to 45,000 but we need to align the schools with the general plan for our city. Ms. Garcia has concerns for our community and the parents at Speck.

Joel Peterson stated that parents, staff and teachers are feeling disenfranchised and complain of problems of equity.
