SURVEYOR	JOB DATE	DAY	TIME	Estimate #	COUNTY	TERMS
MA				36217 - PW Ba...		Net 30
DESCRIPTION				QTY	COST	TOTAL
DEPTHS of utilities will be provided where possible. Instrument readings are deemed within 10% accuracy. Critical depths may require potholing (not included in this proposal, but available on request).						
PRESENTATION: Utilities will be painted on the ground. These marks will be surveyed and plotted onto a drawing, by layers, in AutoCAD format. Unless two site control points and their coordinate values are provided, the utilities will be plotted on an arbitrary coordinate system referencing a minimum of two prominent building corners or other features. This will enable insertion into other drawings by the client. The final drawing will be delivered to the client via the Internet as an attachment to e-mail in AutoCAD and as a .pdf file.						
COMPENSATION: For work performed as described above including equipment, personnel and travel costs for the sum of: Underground utility locator travel & on site hours per day				4.5	1,888.00	8,496.00
