RE: Point Count of 73 Wallboard & Joint Compound samples

Dear Mr. Price:

As per your request, I am forwarding to you this correspondence outlining the scope of work and fees associated with Point counting 73 previously collected asbestos samples. This testing will possibly reduce the fees during construction for waste disposal.

OBJECTIVE

The objective of this project, as understood by Vista Environmental Consulting (Vista) is to provide a pre-demolition sampling of the wallboard and joint compound on site to determine asbestos content.

FEES

1. 400 Point Count Analysis: **\$100.00/sample.** 73 samples total to **\$7,300.00**

Thank you for the opportunity to bid on this project. We look forward to working with you.
Sincerely,

Charles Bove
Senior Project Manager
