Project: Escalon High School Food Science

Summit Plumbing and Mechanical, Inc. is pleased to provide the following plumbing quote to install the following at the Escalon High School Food Science building:

- Layout for concrete and asphalt demolition by owner
- Below grade, 3 inch sewer line to existing sewer pipe roughly 30 feet north of the building. Locating of the existing sewer line is included.
- Two (2) - 5 inch diameter, commercial quality floor drains
- 2" vent piping to thru the roof
- 1/2" copper water line to a trap primer on the north side of the building serving the two floor drains
- 3/4" copper water line to a hose bibb on the south side of the building
- Concrete and asphalt patch back
- Excavation and backfill

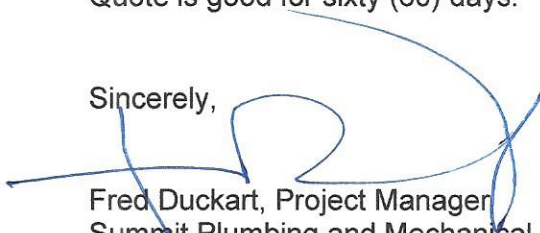

For the sum of ..... \$ 25,400.00

Exclusions:

- Overtime, weekend or holiday work hours
- Concrete or asphalt demolition
- Roofing
- Wall patch/repair

Quote is good for sixty (60) days.

Sincerely,

Fred Duckart, Project Manager
