The service will consist of a number of modules that are necessary for efficient operations; Inventory, Purchasing, Menu Planning & Nutrient Analysis, Production, FRMP Application Processing, On-Line Payment Processing, Meal Accountability, Point of Service & Pre-ordering, as well as training and implementation in the first year of contract.

Evaluation methodology:

A Project Implementation Plan will be built to address the implementation timeline based on the needs of the department, database rollover, trainings needs, etc. The Project implementation Plan will be a fluid document and will be driven based on areas with the greatest need and employee availability for training.

Rational for need to contract services (e.g., expertise, capacity, funding requirement):

Food & Nutrition Services has identified the need to upgrade their current Food Service Management Information Systems in order to create department efficiencies especially in inventory management, production and central kitchen functionality.

SECTION A:

Agreement with: Imagine Learning

☐ ICA

Description of service:

Imagine Learning is a K-12 supplemental Designated ELD curriculum focused on foundational skills lessons in a digital platform. Students build foundations in phonics, phonemic awareness, phonological awareness, vocabulary, fluency, and comprehension. The contract is for professional development offered by the publisher for certificated staff.

Evaluation methodology:

Participants will complete a professional development survey for ELS. Sites have the ability to monitor usage and data reports on student progress.

Rational for need to contract services (e.g., expertise, capacity, funding requirement):

Imagine Learning is an approved supplemental curriculum for Designated ELD. Teachers need professional development on how to effectively use the digital curriculum, monitor student progress, and use the data to differentiate instruction for Designated ELD.

Received Contract Summary Sheet

To be used for consultant contracts less than \$50,000 or contracts for services less than current bid limit

**SECTION A:**Agreement with: Region 3 Title I NPS Consortium☐ ICA

Description of service:

Title I Private Schools Equitable Services MOU- Renewal of an ongoing 3-year agreement with local LEA partners to serve the Title I students across our districts. The current MOU expires on 6/30/2022.

Evaluation methodology:

Each participating private school creates an evaluation plan with the service district that includes measures aligned to the Title I program academic supports, including formative and summative assessments of student progress over time. Student progress is tracked at the individual student level, and at the program level to evaluate the services as a whole.

Rational for need to contract services (e.g., expertise, capacity, funding requirement):

This MOU allows each district to work with the private schools in their district boundaries, while neighboring school districts work with the private school in their boundaries. This reduces the number of schools each district consults with and serves, saving considerable time and increasing the capacity for high quality services for students.
