

CURRICULUM DEVELOPMENT AND REVISION

The Board of Education recognizes that all certificated employees have a responsibility for curriculum development and revision utilizing the latest educational evaluation systems based upon student and community expectations. ~~A developed set of procedures to implement this policy shall be set forth by the superintendent.~~

The Superintendent or designee shall establish a process for curriculum development, selection, and/or adaptation which utilizes the professional expertise of teachers, principals, and district administrators representing various grade levels, disciplines, special programs, and categories of students as appropriate. The process also may provide opportunities for input from students, parents/guardians, representatives of postsecondary institutions, and other community members.

The Board shall establish a review cycle for regularly evaluating the district's curriculum in order to ensure continued alignment with state and district goals for student achievement. At a minimum, these reviews shall be conducted whenever the State Board of Education adopts new or revised content standards or the curriculum framework for a particular subject or when new law requires a change or addition to the curriculum.

Policy Adopted: April 9, 1973
Policy Revised: August 29, 2016
