- ❖ **RED**, **ORANGE**, or **YELLOW** means there is work to be done.

\* Except for new / first-year data.

# Overview of the California Model

- ❖ The model uses percentiles to create a 5x5 grid that combine **Status** and **Change** that are equally valued in making an overall determination for a **Performance Category** (represented by a color) for each indicator.
- ❖ The model will be applied to all LEAs, schools (except Alternative Schools), and significant student groups.

**Change** is the difference between performance from the *prior* year and *current* year, or between the *current* year and a *multi-year average* – if available.

Status is based on the *current* year performance.
