## 2013-2014 School Accountability Report Card

### I. DATA AND ACCESS

#### SARC Data

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. Under the new Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

#### Additional Information

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- View this SARC online at the school and/or LEA Web sites.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.gov/fq/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

### III. CONDITIONS OF LEARNING

#### Core Academic Classes Taught by Highly Qualified Teachers (School Year 2013-2014)

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. This table displays the percent of classes in core academic subjects taught by and not taught by Highly Qualified Teachers in the school, in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district. High-poverty schools are defined as those with student eligibility of approximately 40% or more in the free and reduced price meals program. Low-poverty schools are those with student eligibility of approximately 25% or less in the free and reduced price meals program. For more information, see the *Improving Teacher and Principal Quality* Web page at <http://www.cde.ca.gov/nclb/sr/tg>.

#### Quality and Currency of Textbooks and Instructional Materials (Most Recent Year)

Curriculum development is a district-wide effort. Teachers and administrators from all subject areas form working committees to draft recommendations on courses of study, appropriate textbooks, and other instructional materials.

The California Department of Education has determined textbook selection and adoption schedules. The district follows the state schedule for these adoptions and has purchased textbooks from the most recent state-approved lists. All approved instructional materials are aligned with California content standards for core academic areas.

The Elementary School District Curriculum Advisory Council, composed of administrators, teachers, and parents representing each school in the district, reviews curriculum recommendations and revisions for all courses of study, appropriate textbooks, and other materials utilized in the support of the instructional program. The Curriculum Council recommendations are forwarded to the Board of Education for final approval. This is an ongoing process, assuring that all textbooks and instructional materials are systematically reviewed, updated, and supplemented.

This table shows some of the textbooks used with grade K-5 students. A comprehensive list of all textbooks is available at the district office.

#### *School Facility Conditions and Planned Improvements (Most Recent Year)*

At San Pedro Elementary School, the campus is well maintained and students report that they feel safe at school. San Pedro ensures that on-site supervision is provided for programs that take place both before and after school. Every morning, 40 minutes before school opens for instruction, staff provides supervision for all K-5 students during breakfast and recreation times. The after-school program is located on campus and operates Monday through Friday for three hours each day. Attendance is taken every day; absences are reported and checked on by the program director. The after-school program is offered to fourth and fifth-grade students as well as a select number of second and third-graders who are performing academically below grade level. Additionally, our after-school program is open to all students in first through fifth grades who reside in homeless shelters. This robust program focuses on academic intervention and enrichment that are directly tied to our adopted school day curriculum and instructional practices.

District and school policy require that during the school day all guests to the San Pedro campus must sign in at the school office and obtain a "visitor badge" that identifies them for security personnel, staff, and students. All San Pedro staff members are required to wear photo ID badges. All students and faculty have reasonable amounts of classroom and open spaces that support a strong and enjoyable learning environment.

San Pedro Elementary School was originally opened in 1956 and then, after being closed in 1970 due to declining enrollment, was renovated and reopened in 1991. The school has a total of 24 classrooms (18 permanent and six portable), a multipurpose facility, a music building, a library room, computer lab, and a student services (administration) building. The school underwent modernization in 2005 with the use of voter-approved school bond funds and state modernization funds. Improvements included modernization of all existing classrooms, construction of a new library/computer lab/classroom building, and construction of a new multipurpose building with a stage and two classrooms. Final facility improvements completed during the 2007-2008 school year included a field rehabilitation project to restore the field that was used as a staging area during construction of the new building. Most recent, during the summer of 2013, three new portable classrooms were added to the campus.

The district strives to ensure that all schools are clean, safe, and functional. All bathrooms, classrooms, and offices are cleaned daily. Students are encouraged to help keep the campus clean by recycling. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. An on-line maintenance order request process is used to ensure efficient service and that emergency repairs are given the highest priority.

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and flooring. For the current 2014-2015 school year, the district has budgeted \$305,082 for the deferred maintenance program. This represents 0.70% of the district's general fund budget.

### IV. PUPIL OUTCOMES

#### State Priority: Pupil Achievement

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress and its predecessor the Standardized Testing and Reporting Program);
- The Academic Performance Index; and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### Statewide Student Assessments

The **Standardized Testing and Reporting** (STAR) Program was last administered during the 2012-2013 school year. California's new statewide student assessment system, the **California Assessment of Student Performance and Progress** (CAASPP), was established January 1, 2014 and first administered during the 2013-2014 school year. The CAASPP includes science assessments (CSTs, CMA, and CAPA) in grades 5, 8, and 10. These assessments show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

- CSTs: California Standards Tests - all students are tested unless their individualized education program (IEP) indicates assessment with CAPA
- CMA: California Modified Assessment - designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations
- CAPA: California Alternate Performance Assessment - is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations

*Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.*

#### California Assessment of Student Performance and Progress/Standardized Testing and Reporting Results for All Students in Science— Three-Year Comparison

This table displays the percent of students scoring at the Proficient or Advanced level (meeting or exceeding the state standards) on the STAR for the 2011-2012 and 2012-2013 school years and on the CAASPP for the 2013-2014 school year.

#### Academic Performance Index Ranks– Three-Year Comparison

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at <http://www.cde.ca.gov/ta/ac/ap/>. This table displays three-year data on the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The **similar schools API rank** reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.
